- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

Background

Document FCC 11-106 established a comment deadline of October 24, 2011 and a reply comment deadline of November 21, 2011. On October 27, 2011, the National Association of State Utility Consumer Advocates (NASUCA) requested that the reply comment deadline be extended by 30 days because of the volume of initial comments and the occurrence of NASUCA’s annual conference during the reply comment period. The Commission grants NASUCA’s request in part.

As stated in § 1.46(a) of the Commission’s rules, 47 CFR 1.46(a), the Commission’s policy is that extensions of time are not routinely granted. In the interest of encouraging development of a full record, the Commission believes

that an extension of time is in the public interest and that a 14-day extension will provide adequate time for development of reply comments. The Commission grants a 14-day extension of the reply comment deadline.

Ordering Clauses

Pursuant to sections 4(i) and 4(j) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), (j), and §§ 0.141, 0.361, and 1.46 of the Commission's rules, 47 CFR 0.141, 0.361, 1.46, that the Motion for Extension of Time to File Reply Comments filed by the National Association of State Utility Consumer Advocates *is granted* to the extent indicated herein and *is otherwise denied*, and the deadline for filing reply comments in response to document FCC 11-106 *is extended* to December 5, 2011.

SUPPLEMENTARY INFORMATION:

Public Comments

We intend that any final action resulting from this proposed rule will be based on the best scientific and commercial data available and be as accurate and as effective as possible. Therefore, we request comments or information from other concerned government agencies, the scientific community, industry, or other interested party concerning this proposed rule. We particularly seek comments concerning:

(1) The reasons why we should or should not designate habitat as "critical habitat" under section 4 of the Act (16 U.S.C. 1531 *et seq.*) including whether there are threats to the southern Selkirk Mountains population of woodland caribou from human activity, the degree

of which can be expected to increase due to the designation, such that the designation of critical habitat may not be prudent.

(2) Specific information on:

(a) The amount and distribution of the southern Selkirk Mountains woodland caribou habitat in the United States;

(b) What areas occupied at the time of listing contain the physical and biological features essential to the conservation of the species should be included in the designation and why; and

(c) Special management considerations or protections that the features essential to the conservation of southern Selkirk Mountains woodland caribou identified in this proposal may require, including managing for the potential effects of climate change; and

(d) What areas not occupied at the time of listing are essential for the conservation of the species and why.

(3) Land use designations and current or planned activities in the subject areas and their possible impacts on proposed critical habitat.

(4) Any probable economic, national security, or other relevant impacts of designating any area that may be included in the final designation. We are particularly interested in any impacts on small entities or families, and the benefits of including or excluding areas that exhibit these impacts.

(5) Information on the projected and reasonably likely impacts of climate change on southern Selkirk Mountains woodland caribou and the proposed critical habitat.

(6) Whether any specific areas we are proposing for critical habitat designation should be considered for exclusion under section 4(b)(2) of the Act, and whether the benefits of potentially excluding any specific area outweigh the benefits of including that area under section 4(b)(2) of the Act and why.

(7) Whether we could improve or modify our approach to designating critical habitat in any way to provide for greater public participation and understanding, or to better accommodate public concerns and comments.

You may submit your comments and materials concerning this proposed rule by one of the methods listed in **ADDRESSES**. We request that you send comments only by the methods described in **ADDRESSES**.

We will post your entire comment—including your personal identifying information—on <http://www.regulations.gov>. You may request at the top of your document that we
