

means of compliance with the IBC Code. In crafting this guidance, the Coast Guard wishes to take into account public concerns and input. In that regard, this notice specifically requests information and public comments relating to the following topics:

1. Regulation 11.3.1 of the IBC Code requiring installation of fixed deck foam systems for all vessels carrying cargoes with a flashpoint less than 60 degrees (Celsius).

2. Secondary venting requirements according to Regulation 8.3 of the IBC Code.

3. Any additional comments or concerns regarding the implementation of the International Convention for the Prevention of Pollution from Ships (MARPOL) Annex II for oceangoing barges carrying NLS.

The Coast Guard believes that a public meeting would also benefit the impacted community by providing an additional forum to raise relevant issues. This will further enable the Coast Guard to craft policy that takes into account public concerns.

You may view the written comments and supporting documents (if any) in the online docket by going to <http://www.regulations.gov>. Once there, select the Advanced Docket Search option on the right side of the screen, insert USCG-2011-1084 in the Docket ID box, press Enter, and then click on the item in the Docket ID column. If you do not have access to the Internet, you may view the docket online by visiting the Docket Management Facility in Room W12-140 on the ground floor of the Department of Transportation West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. We have an agreement with the Department of Transportation to use the Docket Management Facility.

We encourage you to participate by submitting comments either orally at the meeting or in writing. If you bring written comments to the meeting, you may submit them to Coast Guard personnel specified at the meeting to receive written comments. These comments will be submitted to our online public docket. All comments received will be posted without change to <http://www.regulations.gov> and will include any personal information you have provided.

Anyone can search the electronic form of comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review a Privacy

Act notice regarding our public dockets in the January 17, 2008, issue of the **Federal Register** (73 FR 3316).

Information on Services for Individuals With Disabilities

For information on facilities or services for individuals with disabilities or to request special assistance at the public meeting, contact Lt. Sean Peterson at the telephone number or email address indicated under the **FOR FURTHER INFORMATION CONTACT** section of this notice.

Public Meeting

The Coast Guard will hold a public meeting regarding new policy under consideration that would provide a domestic equivalency for international standards with respect to U.S. flagged oceangoing barges carrying NLS on Thursday, December 1, 2011 from 2 p.m. to 4 p.m., at the Ernest N. Morial Convention Center, Room 205, 900 Convention Center Boulevard, New Orleans, LA 70130, telephone (504) 582-3000.

We plan to record this meeting using an audio-digital recorder and then make that audio recording available through a link in our online docket. We will also provide a written summary of the meeting and comments and will place that summary in the docket.

Dated: November 25, 2011.

F.J. Sturm,

Deputy, Director of Commercial Regulations and Standards, U.S. Coast Guard.

BILLING CODE 9110-04-P

DEPARTMENT OF THE INTERIOR

Central Utah Project Completion Act; Finding of No Significant Impact Associated With the Environmental Assessment for Block Notice 1A Heber Sub-Area Agricultural Water to Municipal Industrial Water Conversion

AGENCY: Office of the Assistant Secretary for Water and Science, Interior.

ACTION: Notice of availability.

SUMMARY: On September 27, 2011, the Department of the Interior signed a Finding of No Significant Impact which documents the selection of the Proposed Action as presented in the Final Environmental Assessment for the Block Notice 1A Heber Sub-Area Agricultural Water to Municipal & Industrial Water Conversion.

ADDRESSES: A copy of the Final Environmental Assessment and Finding of No Significant Impact may be

accessed on the Internet at <http://www.cuwcd.com> and <http://www.cupcao.gov>. CD and paper copies can be obtained by contacting Sarah Sutherland, 355 West University Parkway, Orem, Utah 84058, sarah@cuwcd.com, (801) 226-7146.

FOR FURTHER INFORMATION CONTACT: Mr. Lynn Hansen, Central Utah Project Completion Act Office, 302 East 1860 South, Provo, Utah 84606, (801) 379-1238, or email at lhansen@usbr.gov.

SUPPLEMENTARY INFORMATION: The Department of the Interior (Interior) has determined that implementing the Proposed Action described in the Environmental Assessment (EA) will not have a significant impact on the quality of the human environment and that an environmental impact statement is not required. The proposed action would:

1. Administratively convert up to 12,100 acre-feet of Central Utah Project Bonneville Unit agricultural water, delivered under Block Notice 1A and allotted to the Heber Sub-Area, from agricultural to municipal & industrial use.

2. Expand the Heber Sub-area.

3. Require modifying Block Notice 1A to reflect these administrative changes. Completing this EA would allow the administrative changes but would not automatically convert the water. The actual conversion would be completed by Central Utah Water Conservancy District and Interior consistent with Bureau of Reclamation law over time as requests are received from petitioners and contract holders.

4. Provide for installation and operation of a temporary water-delivery system in the event of an emergency that affects the water supply to the Jordanelle Special Service District (JSSD) Keetley Water Treatment Plant at Jordanelle Reservoir. During an emergency, this system would provide JSSD with a temporary method to receive its contracted portion of the Block Notice 1A water. Because the temporary water-delivery system would be installed on Federal land, Interior would need to issue a license agreement to JSSD as part of the process.

Dated: November 21, 2011.

Reed R. Murray,

Program Director, Central Utah Project Completion Act, Department of the Interior.
