Global Express Guaranteed

Global Express Guaranteed (GXG) is an international expedited delivery service provided through an alliance with FedEx Express®. The price increase for retail GXG service averages 6.0 percent. In addition, the Postal Service is making the following product features and classification changes:

Commercial Base Pricing

The commercial base price for customers that prepare and pay for GXG shipments via permit imprint when

used in conjunction with Global Shipping Software (GSS), online at USPS.com®, or by registered end-users using an authorized PC Postage® vendor will be a variable discount (based on the item's weight and price group) of up to 10 percent below the retail price. Previously, an across-the-board discount of 10 percent applied regardless of weight or price group. As a result, we will remove the GXG price tables in the Individual Country Listing of the IMM and refer customers to Notice 123—Price List for the applicable commercial plus, commercial base or retail price for GXG service.

Commercial Plus Pricing

To provide additional options for customers, we are authorizing published commercial plus prices as a new price tier for GXG service. Mailers who qualify for this option will receive a variable discount (based on the item's weight and price group) of up to 17 percent below the retail price. To qualify for commercial plus pricing, customers must tender at least \$100,000 per year of international expedited products. For this purpose, "international expedited products" includes any combination of Global Express Guaranteed, Express Mail International, or Priority Mail International items. Postage payment options for commercial plus pricing are permit imprint when used in conjunction with GSS and registered end-users using an authorized PC Postage vendor. As with commercial base prices, the commercial plus price is applied to each item but does not apply to any other charges or fees.

Legal-Size Envelope

To provide additional mailing options for customers, the Postal Service introduces a new legal-size GXG envelope. The new larger envelope, which measures 15 inches by 9½ inches, enables customers to ship legal-size documents without folding them. Like our other USPS®-produced GXG envelopes, the price will be based on the actual weight and price group of the mailpiece—the dimensional-weight price is not applicable when using this envelope.

Express Mail International

Express Mail International (EMI) service provides reliable, high-speed service to approximately 190 countries with a money-back, date-certain delivery guarantee to select destinations. The price increase for retail Express Mail International service averages 11.6 percent. In addition, the

following product features and classification changes are made:

Commercial Base Pricing

The commercial base price for customers that prepare and pay for Express Mail International shipments via permit imprint when used in conjunction with GSS, online at USPS.com, or by registered end-users using an authorized PC Postage vendor will be a variable discount (based on the item's weight and price group) of up to 8 percent below the retail price. Previously, an across-the-board discount of 8 percent applied regardless of weight or price group. As a result, we will remove the Express Mail International price tables in the Individual Country Listing of the IMM and refer mailers to Notice 123—Price List for the applicable commercial plus, commercial base or retail price for Express Mail International service.

Commercial Plus Pricing

To provide additional options for customers we are authorizing published commercial plus prices as a new price tier for Express Mail International service. Mailers who qualify for this option will receive a variable discount (based on the item's weight and price group) up to 15 percent below the retail price. To qualify for commercial plus pricing, customers must tender at least \$100,000 per year of international expedited products. For this purpose, "international expedited products" includes any combination of Global Express Guaranteed, Express Mail International, or Priority Mail International items. Postage payment options for commercial plus pricing are permit imprint when used in conjunction with GSS and registered end-users using an authorized PC Postage vendor. As with commercial base prices, the commercial plus price is applied to each item but does not apply to any other charges or fees.

Permit Imprint—Retail Price Paid via a Permit Imprint

To ensure compliance with various federal regulations, the current option to enter Express Mail International items at a Business Mail Entry Unit (BMEU) bearing a permit imprint (paid through an Express Mail corporate account), will no longer be available. The option for mailers to present Express Mail International items (paid through an Express Mail corporate account) to a retail facility for acceptance and processing remains available.

Flat Rate Boxes

Building on the success of current Priority Mail International Flat Rate packaging, we are introducing two versions of a new Express Mail International Flat Rate Box. Both boxes have the same cubic capacity of approximately ⅓ cubic foot and have a maximum weight allowance of 20 pounds. The top-loading box (EM-FRB1) has inside dimensions that measure 11 inches by 8½ inches by 5½ inches. Due to size constraints, postage payment options for the EM-FRB1 are limited to online postage payment methods, or a permit imprint (used in conjunction with GSS). The side-loading box (EM-FRB2) has inside dimensions that measure 13⅝ inches by 11⅞ inches by 3⅞ inches. All postage payment options are available for the side-loading box. These options include, postage stamps, USPS postage validation imprinter (PVI) labels, postage meter stamps, online postage payment methods, a permit imprint (used in conjunction with GSS), or through the use of an Express Mail corporate account (EMCA). Customers pay a flat rate of \$59.95 to Canada and \$74.95 for all other countries that accept Express Mail International.6

Flat Rate Envelopes

For consistency, we are updating the IMM to reflect a 20-pound maximum weight limit for the Express Mail International Flat Rate Envelopes to match the newly introduced Express Mail International Flat Rate Boxes.

Tonga

Via a formal request from the country of Tonga, we will offer Express Mail International service to this destination assigned to Price Group 6. The maximum weight is 66 pounds, and the maximum insurance limit is \$5,000.

Priority Mail International

Priority Mail International (PMI) offers economical prices for reliable delivery of documents and merchandise, typically within 6 to 10 business days to many major destinations. The price increase for retail Priority Mail International service averages 8.7 percent. In addition, the following product features and classification changes are made:

Commercial Base Pricing

The commercial base price for customers that prepare and pay for Priority Mail International shipments via permit imprint when used in conjunction with GSS, online at USPS.com, or by registered end-users using an authorized PC Postage vendor

will receive a variable discount (based on the item's weight and price group) of up to 5 percent below the retail price. Previously, an across-the-board discount of 5 percent applied regardless of weight or price group. As a result, we will remove the Priority Mail International price tables in the Individual Country Listing of the IMM and refer customers to Notice 123—Price List for the applicable commercial plus, commercial base or retail price for Priority Mail International service.

Commercial Plus Pricing

To provide additional price options for customers, we are authorizing published commercial plus prices as a new price tier for Priority Mail service. Mailers who qualify for this option will receive a variable discount (based on the item's weight and price group) of up to 10 percent below the retail price. To qualify for commercial plus pricing, customers must tender at least \$100,000 per year of international expedited products. For this purpose, "international expedited products" includes any combination of Global Express Guaranteed, Express Mail International, or Priority Mail International items. Postage payment options for commercial plus pricing are permit imprint when used in conjunction with GSS and registered end-users using an authorized PC Postage vendor. As with commercial base prices, the commercial plus price is applied to each item but does not apply to any other charges or fees.

Permit Imprint—Retail Price Paid via a Permit Imprint

To ensure compliance with various federal regulations, the current option to enter Priority Mail International items at a BMEU bearing a permit imprint as postage payment, will no longer be available. The option for mailers to present Priority Mail International items at a retail facility for acceptance and processing remains available. Payment can be paid at the retail facility with a postage validation imprinter (PVI) label, or the mailer can prepay postage with a postage meter stamp or postage stamps.

International Priority Airmail

International Priority Airmail (IPA) service, including IPA M-bags, is a commercial service designed for business mailers for volume mailings of all First-Class Mail International postcards, letters, large envelopes (flats), and packages (small packets) weighing up to 4 pounds. The overall price increase for IPA service averages 1.0 percent.

Direct Sacks of Printed Matter to One Addressee (M-bags)

Airmail M-bags are direct sacks of printed matter sent to a single foreign addressee at a single address. The price increase for Airmail M-bags averages 3.5 percent.

International Extra Services

Depending on country destination and mail type, customers may continue to add a variety of extra services to their outbound shipments. The price increase for competitive extra services averages 5.0 percent.

Significant New Use Rules on Certain Chemical Substances; Withdrawal of Two Chemical Substances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is withdrawing two significant new use rules (SNURs) promulgated under section 5(a)(2) of the Toxic Substances Control Act (TSCA) for chemical substances which were the subject of premanufacture notices (PMNs), i.e., rutile, tin zinc, calcium-doped (PMN P-06-36; CAS No. 389623-01-2) and rutile, tin zinc, sodium-doped (PMN P-06-37; CAS No. 389623-07-8). These chemical substances are subject to TSCA section 5(e) consent orders issued by EPA. EPA received a notice of intent to submit adverse comments on the direct final rule. Therefore, the Agency is withdrawing these SNURs, as required under the expedited SNUR rulemaking

process. EPA intends to publish in the near future proposed SNURs for these two chemical substances under separate notice and comment procedures.

DATES: This final rule is effective December 5, 2011.

SUPPLEMENTARY INFORMATION:**I. Does this action apply to me?**

A list of potentially affected entities is provided in the **Federal Register** issue of October 5, 2011 (76 FR 61566) (FRL-8880-2). If you have questions regarding the applicability of this action to a particular entity, consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

II. What rules are being withdrawn?

In the **Federal Register** issue of October 5, 2011, EPA issued several direct final SNURs, including SNURs for the two chemical substances that are the subject of this withdrawal. These direct final rules were issued pursuant to the procedures in 40 CFR part 721, subpart D. In accordance with § 721.160(c)(3)(ii), EPA is withdrawing the rules issued for rutile, tin zinc, calcium-doped (PMN P-06-36; CAS No. 389623-01-2) and rutile, tin zinc, sodium-doped (PMN P-06-37; CAS No. 389623-07-8) because the Agency received a notice of intent to submit adverse comments. For further information regarding EPA's expedited process for issuing SNURs, interested parties are directed to 40 CFR part 721, subpart D, and the **Federal Register** issue of July 27, 1989 (54 FR 31314). The docket for the direct final SNURs for these two chemical substances that are being withdrawn was established at

EPA-HQ-OPPT-2010-1075. That docket includes information considered by the Agency in developing these direct final rules and the notice of intent to submit adverse comments. EPA intends to publish in the near future proposed SNURs for these two chemical substances under separate notice and comment procedures.

III. How do I access the docket?

To access the electronic docket, please go to <http://www.regulations.gov> and follow the online instructions to access docket ID number EPA-HQ-OPPT-2010-1075. Additional information about the Docket Facility is provided under **ADDRESSES** in the **Federal Register** issue of October 5, 2011. If you have questions, consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

IV. What statutory and Executive Order reviews apply to this action?

This final rule removes an existing regulatory requirement and does not contain any new or amended requirements. As such, the Agency has determined that this withdrawal will not have any adverse impacts, economic or otherwise. The statutory and executive order review requirements applicable to the direct final rule were discussed in the **Federal Register** issue of October 5, 2011. Those review requirements do not apply to this action because it is a withdrawal and does not contain any new or amended requirements.

V. Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report to each House of the Congress and the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This rule is not a "major rule" as defined by 5 U.S.C. 804(2).
