Certain Helical Spring Lock Washers From Taiwan and the People's Republic of China: Continuation of Antidumping Duty Orders

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* December 5, 2011.

SUMMARY: As a result of the determinations by the Department of Commerce ("Department") and the International Trade Commission ("ITC") that revocation of the antidumping duty orders on certain helical spring lock washers from Taiwan and the People's Republic of China ("PRC") would be likely to lead to a continuation or recurrence of dumping and material injury to an industry in the United States, the Department is publishing a notice of continuation of the antidumping duty orders.

FOR FURTHER INFORMATION CONTACT: Joshua Morris, AD/CVD Operations, Office 1, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone (202) 482-1779.

SUPPLEMENTARY INFORMATION: On June 1, 2011, the Department published in the *Federal Register* the notice of initiation of the third sunset reviews of the antidumping duty orders on certain helical spring lock washers from Taiwan and the PRC, pursuant to section 751(c)(2) of the Tariff Act of 1930, as amended ("the Act"). See *Initiation of Five-Year ("Sunset") Review*, 76 FR 31588 (June 1, 2011).

As a result of its review, the Department determined that revocation of the antidumping duty orders on certain helical spring lock washers from Taiwan and the PRC would be likely to lead to a continuation or recurrence of dumping and, therefore, notified the ITC of the magnitude of the margins likely to prevail should the order be revoked. See *Certain Helical Spring Lock Washers From Taiwan and the People's Republic of China: Final Results of the Expedited Third Five-Year Sunset Reviews of the Antidumping Duty Orders*, 76 FR 61343 (October 4, 2011).

On November 3, 2011, the ITC determined, pursuant to section 751(c)(1) of the Act, that revocation of the antidumping duty orders on certain helical spring lock washers from Taiwan and the PRC would be likely to lead to

a continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time. See *Helical Spring Lock Washers from China and Taiwan*, 76 FR 72722 (November 25, 2011), and *USITC Publication 4276*, Inv. Nos. 731-TA-624-625 (Third Review) (November, 2011).

Scope of the Orders

The products covered by the orders are lock washers of carbon steel, of carbon alloy steel, or of stainless steel, heat-treated or non-heat-treated, plated or non-plated, with ends that are off-line. Lock washers are designed to: (1) Function as a spring to compensate for developed looseness between the component parts of a fastened assembly; (2) distribute the load over a larger area for screws or bolts; and (3) provide a hardened bearing surface. The scope does not include internal or external tooth washers, nor does it include spring lock washers made of other metals, such as copper.

Lock washers subject to the orders are currently classifiable under subheadings 7318.21.0000 and 7318.21.0030 of the Harmonized Tariff Schedule of the United States ("HTSUS"). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this proceeding is dispositive.¹

Continuation of the Order

As a result of these determinations by the Department and the ITC that revocation of the antidumping duty orders would be likely to lead to a continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, the Department hereby orders the continuation of the antidumping orders on certain helical spring lock washers from Taiwan and the PRC. CBP will continue to collect antidumping duty cash deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of the continuation of these orders will be the date of publication in the *Federal Register* of this notice of continuation. Pursuant to section 751(c)(2) of the Act, the Department intends to initiate the next five-year review of the orders not later than 30 days prior to the fifth anniversary of the effective date of continuation.

¹ On September 30, 1997, the Department determined that lock washers which are imported into the United States in an uncut, coil form are within the scope of the orders. See *Notice of Scope Rulings*, 62 FR 62288 (November 21, 1997).

This five-year (sunset) review and this notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act.

Dated: November 28, 2011.

Paul Piquado,

Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****Proposed Information Collection; Comment Request; West Coast Groundfish Trawl Economic Data Collection**

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before February 3, 2012.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW, Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Erin Steiner, (206) 860-3202 or erin.steiner@noaa.gov.

SUPPLEMENTARY INFORMATION:**I. Abstract**

This request is for a revision of a currently approved information collection.

This information collection is needed in order to meet the monitoring requirements of the Magnuson-Stevens Act (MSA). In particular, the Northwest Fisheries Science Center (NWFSC) needs economic data on all harvesters, first receivers, shorebased processors, catcher processors, and motherships participating in the West Coast groundfish trawl fishery.

The currently approved collection covers collection of data for the 2009,
