

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Protests and interventions may be filed electronically via the Internet in

lieu of paper; see, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

Federal Energy Regulatory Commission

[Docket No. CP12-19-000]

Dominion Transmission, Inc.; Notice of Application

Take notice that on November 21, 2011, Dominion Transmission, Inc. (DTI), 120 Tredegar Street, Richmond, Virginia 23219 filed an application in Docket No. CP12-19-000 pursuant to Section 7(c) of the Natural Gas Act (NGA) and Part 157 of the Commission's Regulations, for a certificate of public convenience and necessity to construct and operate its Tioga Area Expansion Project. DTI's proposal would consist of 15 miles of new 24-inch-diameter pipeline (TL-610 Ext. 1), including a new pig launcher/receiver site at the southern terminus of the new pipeline, in Tioga County, Pennsylvania (PA). Additionally, DTI's proposal would include other system modifications at existing stations on DTI's system such as connecting pipeline, a new meter and regulator station, new or modified control valves and station piping. These various modifications are proposed at the Little Greenlick, Crayne, Boom, Finnefrock, and Lindley Stations in Potter, Greene, Tioga, and Clinton Counties PA and Steuben County, New York, respectively.

DTI states that it will provide expanded firm natural gas transportation services of 270,000 Dth/day for Shell Energy North America and Penn Virginia Oil & Gas Company. The receipt points for the expanded service would be at points in Potter and Tioga Counties, PA and the delivery points through an existing interconnection between DTI and Transcontinental Gas Pipeline Company's facilities in Clinton County, PA and through a new interconnection with Texas Eastern Transmission, LP in Greene County, PA. The estimated cost of the Tioga Area Expansion Project is approximately \$67 million. A more detailed description of the project is available in the

application which is on file with the Commission and open for public inspection.

This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "e-Library" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676, or for TTY, (202) 502-8659. Any questions regarding this application should be directed to Matthew R. Bley, Manager, Gas Transmission Certificates, Dominion Transmission, Inc., 701 East Cary Street, Richmond, Virginia 23219, (804) 771-4399 (phone), (804) 771-4804 (fax) or matthew.r.bley@dom.com.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's EA.
