

require each SNAP household members who is not exempt shall be registered for employment by the State agency at the time of application and once every twelve months thereafter, as a condition of eligibility. This requirement pertains to non-exempt SNAP household members age 16 to 60. Each State agency must screen each work registrant to determine whether to refer the individual to its E&T Program. Both the Food Stamp Act and regulations require States to file quarterly reports about their E&T Programs so that the Food and Nutrition Service (FNS) can monitor their performance.

Need and Use of the Information: FNS will collect quarterly reports about their E&T programs so that the Department can monitor State performance to ensure that the program is being efficiently and economically operated. Without the information FNS would be unable to make adjustments or allocate exemptions in accordance with the statute.

OMB Control Number: 0584-0479.

Summary of Collection: Section 824 of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, Public Law 104-193 (PRWORA) establishes a time limit for the receipt of Supplemental Nutrition Assistance Program (SNAP) (formerly known as the Food Stamp Program) benefits for certain able-bodied adults who are not working. If the

information is not collected, the State SNAP agencies could not obtain waivers of time limits contained in Section 6(o) of the Act.

Summary of Collection: Consistent with Section 5 of the Food Stamp Act of 1977, the Food and Nutrition Service (FNS) has initiated this program to enable potential Supplemental Nutrition Assistance Program (SNAP) (formerly known as the Food Stamp Program) applicants to assess their eligibility and the order of magnitude of the potential benefit they may qualify for. This Pre-Screening Tool also enables citizen advocacy groups to help constituents assess their benefit eligibility. This will also help the Supplemental Nutrition Assistance Program fulfill its role as a means-tested program in accordance with Section 5 of the Food Stamp Act and Part 273 of the SNAP regulations.

Need and Use of the Information: This SNAP Pre-Screening Tool will be accessible to the public as an online Web-based system. The user will be prompted to enter household size, income, expenses and resource information, and the tool will calculate and provide the user with an estimated range of benefits that the household may be eligible to receive. This information will help FNS determine the degree and type of system usage as well as potential areas for further study.

Animal Plant and Health Inspection Service

Title: Select Agent Registration.

OMB Control Number: 0579-0213.

Summary of Collection: The Public Health Security and Bioterrorism Preparedness and Response Act of 2002 were signed into law June 12, 2002. This law is designed to prevent, prepare for and respond to bioterrorism and other public health emergencies. The law requires individuals possessing agents or toxins deemed a severe threat to animal or plant health, or to animal or plant products, to be registered with the Secretary of Agriculture unless they have been specifically exempted. The registration process entail the use of a number of separate forms designed to obtain critical information concerning individuals or facilities in possession of certain agents or toxins, as well as the specific characteristics of the agents or toxins—including name, strain, and genetic information.

Need and Use of the Information: The Animal and Plant Health Inspection Service (APHIS) will collect information to determine the biosafety level of an entity as well as the entity's biosecurity situation. The collected information will also be used to ensure that appropriate

safeguard, containment, and disposal requirements commensurate with the risk of the agent or toxin are present at the entity, thus preventing access to such agents and toxins for use in domestic or international terrorism. If the information were not collected, APHIS efforts to more aggressively prevent a bioterrorism event in the United States would be compromised.

Description of Respondents: Business or other for profit; State, Local and Tribal Government; Not-for-profit institutions.

Number of Respondents: 1,163.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 2,290.

Animal and Plant Health Inspection Service

Title: Pale Cyst Nematode; Quarantine and Regulations.

OMB Control Number: 0579-0322.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701-7772), The Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of plants and plant pests to prevent the introduction of plant pests into the United States or their dissemination within the United States. The Animal and Plant Health Inspection Service (APHIS) amended the "Domestic Quarantine Notices" in 7 CFR part 301, subpart titled "Potato Cyst Nematode" (§.86 through 301.86.9, referred to as the regulations) by quarantining parts of Bingham and Bonneville Counties, ID, due to the discovery of the Potato Cyst Nematode there and establishing restrictions on the interstate movement of regulated articles from the quarantined area.

Need and Use of the Information: APHIS will collect information using certificates, limited permits and compliance agreements to prevent the spread of PCN and to ensure that regulated articles can be moved safely from the quarantined area without spreading PCN. If APHIS did not collect this information, the spread of PCN in the United States could result in a loss of domestic or foreign markets for U.S. potatoes and other commodities.

Description of Respondents: Farms; Business or other for-profit.

Number of Respondents: 152.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 342.

Animal and Plant Health Inspection Service

Title: Importation of Baby Squash and Baby Courgettes from Zambia.

OMB Control Number: 0579-0347.

Summary of Collection: Under the Plant Protection Act (7 U.S.C 7701), the Secretary of Agriculture is authorized to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests new to the United States or not known to be widely distributed throughout the United States. APHIS amended the fruits and vegetables regulations to allow the importation into the continental United States of baby squash and baby courgettes from Zambia. As a condition of entry, both commodities would have to be produced in accordance with a systems approach that would include requirements for pest exclusion at the production site, fruit fly trapping inside and outside the production site, and pest excluding packinghouse procedures. Both commodities would also be required to be accompanied by a phytosanitary certificate with an additional declaration stating that the baby squash and baby courgette have been produced in accordance with the proposed requirements.

Need and Use of the Information: APHIS will collect information using the following: Phytosanitary Certificate, Records and Monitoring, Labeling on Cartons and Inspection of Greenhouses. Without this information, all shipments would need to be inspected very thoroughly, thereby requesting considerably more time.

Description of Respondents: Business or other for-profits; Federal Government.

Number of Respondents: 2.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 4.

Animal and Plant Health Inspection Service

Title: Revision of Hawaii and the Territories Fruits.

OMB Control Number: 0579-0346.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry or movement of plants and plant pests to prevent the introduction of plant pests into the United States or their dissemination within the United States. The Animal and Plant Health Inspection Service (APHIS) has amended the regulations pertaining to the interstate movement of fruits and vegetables to consolidate requirements of general applicability and eliminate redundant requirements, update terms and remove outdated requirements and references, and make various editorial and nonsubstantive changes to the regulations to make them easier to use.

Need and Use of the Information: APHIS will use the following forms and activities to collect information: PPQ 530, PPQ 586, PPQ 519, Labeling for Pest Free Area, and Inspection & Certification. If APHIS did not collect this information or if APHIS collected this information less frequently, the spread of dangerous plant diseases and pests that occur in Hawaii and the territories could cause millions of dollars in damage to U.S. agriculture.

Description of Respondents: Business or other for-profits; State, Local or Tribal Government.

Number of Respondents: 600.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 8,646.

Title: Importation of Longan from Taiwan.

OMB Control Number: 0579-0351.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701), the Secretary of Agriculture is authorized to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests new to the United States or not known to be widely distributed throughout the United States. APHIS amended the fruits and vegetables regulations to allow the importation of commercial shipments of fresh longan with stems from Taiwan into the United States. As a condition of entry, the longan will be subject to cold treatment and special port-of-arrival inspection procedures for certain quarantine pests.

Need and Use of the Information: APHIS will use the following information collection activities to allow the import of commercial shipment of fresh longan with stems from Taiwan into the United States: Phytosanitary Certificate, Inspection by NPPOs in Taiwan and Stamping of Boxes. Failing to collect this information would cripple APHIS ability to ensure that longan from Taiwan are not carrying plant pests.

Description of Respondents: Business or other for-profits; Federal Government.

Number of Respondents: 12,004.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 22.

Forest Service

Title: Forest Products Free Use Permit, Removal Permit and Cash Receipt, and Sale Permit and Cash Receipt.

OMB Control Number: 0596-0085.

Summary of Collection: Individuals and businesses that wish to remove forest products from national forest lands must request a permit. 16 U.S.C. 551 requires the promulgation of regulations to regulate forest use and

prevent destruction of the forests. Regulations at 36 CFR 223.1 and 223.2 govern the sale of forest products such as Christmas trees, pinecones, moss, and mushrooms. Regulations at 36 CFR 223.5 through 223.11 authorize the free use or sale of timber or forest products. Upon receiving a permit, the permittee must comply with the terms of the permit at 36 CFR 216.6 that designate the forest products that can be harvested and under what conditions, such as limiting harvest to a designated area or permitting harvest of only specifically designated material.

Both the Forest Service (FS) and Department of the Interior, Bureau of Land Management (BLM) will use the Forest Products Removal Permit and Cash Receipt to collect information.

Need and Use of the Information: Using forms FS-2400-1/BLM-5450-24, FS-2400-4 and FS-2400-8, FS and BLM will collect the name, address and tax identification number from persons applying for permits. The information will be used to keep a record of persons buying forest products and to determine if the applicant meets the criteria under which free use or sale of forest products is authorized by the regulations and to ensure that the permittee has not received product values in excess of the amount allowed by regulation in any one fiscal year and complies with the regulations and terms of the permit. This information is also needed to allow FS compliance personnel to identify permittees in the field. Without the forest product removal program, achieving multiple use management programs such as reducing fire hazard and improving forest health on the National Forest would be impaired.

Description of Respondents: Individuals or households; Business or other for-profit.

Number of Respondents: 151,000.

Frequency of Responses: Reporting: On occasion; Recordkeeping.

Total Burden Hours: 19,998.
