*Title:* ORR—2 Quarterly Report on Expenditures and Obligations.  
*OMB No.:* New Collection.  
*Description:* The Office of Refugee Resettlement (ORR) reimburses, to the extent of available appropriations, certain non-federal costs for the provision of cash and medical assistance to refugees, along with allowable expenses for the administration the refugee resettlement program at the State level. States (and Wilson/Fish projects; *i.e.*, alternative projects for the administration of the refugee resettlement program) currently

submit the SF-425 Federal Financial Report, which provides aggregate expenditure and obligation data. This proposed new data collection would replace the current requirement for the SF-425 with a report form that would collect the same expenditures and obligations data separately for each of the four CMA program components: refugee cash assistance, refugee medical assistance, cash and medical assistance administration, and services for unaccompanied minors. This breakdown of financial status data will allow ORR to track program expenditures in greater detail to

anticipate any funding issues and to meet the requirements of ORR regulations at CFR 400.211 to collect these data for use in estimating future costs of the refugee resettlement program. ORR must implement the methodology at CFR 400.211 each year after receipt of its annual appropriation to ensure that appropriated funds will be adequate for reimbursement to States of the costs for assistance provided to entering refugees. The estimating methodology prescribed in the regulations requires the use of actual past costs by program component. In the event that the methodology indicates

that appropriated funds are inadequate, ORR must take steps to reduce federal expenses, such as by limiting the number of months of eligibility for Refugee Cash Assistance and Refugee Medical Assistance. This proposed single-page financial report will allow ORR to collect the necessary data to ensure that funds are adequate for the projected need and thereby meet the requirements of both the Refugee Act and ORR regulations, as well as provide the data currently required in aggregate by the SF-425.  
*Respondents:* State governments, Wilson/Fish Alternative Projects.

*Title:* Annual Survey of Refugees (Form ORR-9).

OMB No.: 0970-0033.

*Description:* The Annual Survey of Refugees collects information on the social and economic circumstances of a random sample of refugees, Amerasians, and entrants who arrived in the United States in the five years prior to the date of the survey. The survey focuses on the refugees training, labor force participation, and welfare utilization rates. Dates are segmented by region of origin, State of resettlement, and number of months since arrival. From the responses, the Office of Refugee Resettlement reports on the economic adjustment of refugees to the American economy. These data are used by Congress in its annual deliberations for refugee admissions and funding and by program managers in formulating policies for the future direction of the Refugee Resettlement Program.

*Respondents:* Refugees, entrants, Amerasians, and Havana parolees.
