

complaint filed by SLED. 76 FR 51396–97 (Aug. 18, 2011). A corrected Notice of Investigation was issued on August 16, 2011, indicating that the Office of Unfair Import Investigations will not participate as a party in this investigation. 76 FR 52348–49 (Aug. 22, 2011). The complaint alleges violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain light-emitting diodes and products containing same by reason of infringement of certain claims of U.S. Patent Nos. 7,268,372; 7,282,741; 7,771,081; 7,893,443; 7,838,315; 7,959,312; and 7,964,881. The complaint further alleges the existence of a domestic industry. The Commission's notice of investigation named as respondents OSRAM GmbH of Munich, Germany ("OSRAM GmbH"); OSRAM Opto Semiconductors GmbH of Regensburg, Germany; OSRAM Opto Semiconductors Inc. of Sunnyvale, California; and OSRAM Sylvania Inc. of Danvers, Massachusetts (collectively "OSRAM").

On October 18, 2011, SLED filed a motion to amend the Complaint and NOI to: (1) Change the name of respondent OSRAM GmbH to OSRAM AG to reflect its recent change in corporate form; (2) add Siemens AG, Siemens Corporation, and Siemens Industry, Inc. (collectively "Siemens") as respondents; and (3) add Hella KGaA Hueck & Co., Hella Electronics Corporation, Hella Corporate Center USA, Inc., and Hella Inc. (collectively "Hella") as respondents. On October 28, 2011, OSRAM and proposed respondents Siemens and Hella filed oppositions to the motion with respect to adding Siemens and Hella as respondents.

On November 21, 2011, the ALJ issued the subject ID, granting-in-part SLED's motion with respect to changing the name of respondent OSRAM GmbH to OSRAM AG. The ALJ denied the remainder of the motion. No petitions for review of this ID were filed.

The Commission has determined not to review the ID.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in section 210.42 of the Commission's Rules of Practice and Procedure (19 CFR 210.42).

Issued: December 7, 2011.

By order of the Commission.

James R. Holbein,

Secretary to the Commission.

SUPPLEMENTARY INFORMATION: Project Growing America Through Entrepreneurship (GATE) was an experimental design demonstration that investigated the impact of providing entrepreneurship training services to individuals interested in starting or growing a business. The cornerstone of the evaluation was random assignment. A total of 4198 applicants to Project GATE were randomly assigned to either a program group or a control group. The project was implemented in both rural and urban locations in Maine,

Pennsylvania, and Minnesota from 2002 to 2009. In Project GATE, treatment group members were offered an assessment of their business needs, classroom training, one-on-one technical assistance, and assistance in applying for business financing. A telephone survey of participants and control group members was conducted to collect three waves of data at approximately six months after random assignment, 18 months after random assignment, and 60 months after random assignment. A process evaluation as well as an impact evaluation of the effectiveness of the GATE model were conducted utilizing site visits, surveys, and administrative data.

The proposed evaluation of Project GATE II grants is necessary for policymakers and program developers to determine whether the model can be successfully implemented for dislocated workers. This follow-up survey is the only way to collect information on self-employment experiences, receipt of microenterprise services, and household income.

Project GATE II will be evaluated using an experimental design. Individuals that submitted an application for GATE II in each site and who met minimal eligibility criteria are being randomly assigned to either a program group or a control group. Members of the program group are eligible to receive GATE II services, while members of the control group are not eligible to receive GATE II services, although they will not be prohibited from receiving self-employment services from other sources.

As already noted, unlike the first Project GATE demonstration, which was available to all applicants, services under GATE II are targeted towards Workforce Investment Act dislocated workers. In June 2008, grants were awarded to implement GATE II in four states—Alabama, Minnesota, North Carolina, and Virginia. Two states, Alabama and North Carolina, were selected to target services to dislocated workers in rural areas, while the two other States, Minnesota and Virginia, were selected to target dislocated workers 45 years old and older.

This information collection needed to conduct the evaluation is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of
