

calculated the labor input using labor data reported by Indonesia to the ILO under Sub-Classification 15 of the ISIC–Revision 3 standard, in accordance with Section 773(c)(4) of the Act. For these preliminary results, the calculated wage rate is 4,568.71 Indonesian Rupiahs per hour. A more detailed description of the

wage rate calculation methodology is provided in the Surrogate Values Memo.

#### Currency Conversion

Where necessary, the Department made currency conversions into U.S. dollars, in accordance with section 773A(a) of the Act, based on the exchange rates in effect on the dates of

the U.S. sales, as certified by the Federal Reserve Bank.

#### Preliminary Results of the Review

The Department preliminarily finds that the following margin exists for the period August 1, 2010, to January 31, 2011.

Exporter	Producer	Weighted-average margin (dollars per kilogram)
Thuan An Production Trading & Services Co., Ltd. ....	Thuan An Production Trading & Services Co., Ltd. ....	0.00

#### Public Comments

The Department intends to disclose calculations performed for these preliminary results to the parties within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b). Any interested party may request a hearing within 30 days of publication of these preliminary results.<sup>35</sup> If a hearing is requested, the Department will announce the hearing schedule at a later date. Interested parties may submit case briefs and/or written comments no later than 30 days after the date of publication of the preliminary results of review.<sup>36</sup> Rebuttal briefs and rebuttals to written comments, limited to issues raised in such briefs or comments, may be filed no later than five days after the time limit for filing the case briefs.<sup>37</sup> The Department intends to issue the final results of this new shipper review, which will include the results of its analysis of issues raised in all comments, and at a hearing, within 120 days of publication of these preliminary results, pursuant to section 751(a)(3)(A) of the Act.

#### Assessment Rates

Upon completion of the final results, pursuant to 19 CFR 351.212(b), the Department will determine, and CBP shall assess, antidumping duties on all appropriate entries on a per-unit basis. The Department intends to issue assessment instructions to CBP 15 days after the date of publication of the final results of review. If these preliminary results are adopted in our final results of review, the Department shall determine, and CBP shall assess, antidumping duties on all appropriate entries. Pursuant to 19 CFR

351.212(b)(1), we will calculate importer-specific (or customer) per-unit duty assessment rates. We will instruct CBP to assess antidumping duties on all appropriate entries covered by this review if any importer-specific assessment rate calculated in the final results of this review is above *de minimis*.

#### Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this new shipper review for all shipments of subject merchandise from TAFISHCO entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(2)(C) of the Act: (1) For subject merchandise produced and exported by TAFISHCO, the cash deposit rate will be \$0.00/Kg.; (2) for subject merchandise exported by TAFISHCO but not manufactured by TAFISHCO, the cash deposit rate will continue to be the Vietnam-wide rate (*i.e.*, \$2.11 per kilogram); and (3) for subject merchandise manufactured by TAFISHCO, but exported by any other party, the cash deposit rate will be the rate applicable to the exporter. If the cash deposit rate calculated in the final results is zero or *de minimis*, no cash deposit will be required for those specific producer-exporter combinations. These cash deposit requirements, when imposed, shall remain in effect until further notice.

#### Notification to Interested Parties

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the

subsequent assessment of double antidumping duties.

We are issuing and publishing this determination in accordance with sections 751(b) and 777(i)(1) of the Act.

Dated: December 5, 2011.

#### DEPARTMENT OF COMMERCE

##### National Oceanic and Atmospheric Administration

**RIN 0648–XA860**

##### Endangered and Threatened Species; Take of Anadromous Fish

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Receipt of application for scientific research permit 16608 and request for comment.

**SUMMARY:** Notice is hereby given that NMFS has received an application for scientific research from the U.S. Bureau of Reclamation (USBR) in Sacramento, CA. This document serves to notify the public of the availability of the permit application for review and comment before a final approval or disapproval is made by NMFS.

**DATES:** Written comments on the permit application must be received at the appropriate address or fax number (see **ADDRESSES**) no later than 5 p.m. Pacific Standard Time on January 12, 2012.

**ADDRESSES:** Written comments on the modification request should be sent to the appropriate office as indicated below. Comments may also be sent via fax to the number indicated for the request. Comments will not be accepted if submitted via email or the Internet. The applications and related documents

<sup>35</sup> See 19 CFR 351.310(c).

<sup>36</sup> See 19 CFR 351.309(c); Parties submitting written comments must submit them pursuant to the Department's e-filing regulations. See <https://iaaccess.trade.gov/help/IA%20ACCESS%20User%20Guide.pdf>.

<sup>37</sup> See 19 CFR 351.309(d).

are available for review, by appointment, for permit 16608: Protected Resources Division, NMFS, 650 Capitol Mall, Suite 5-100, Sacramento, CA 95814 (Ph: (916) 930-3600, Fax: (916) 930-3629). Documents may also be reviewed by appointment in the Office of Protected Resources, F/PR3, NMFS, 1315 East-West Highway, Silver Spring, MD 20910-3226 (301) 713-1401.

**FOR FURTHER INFORMATION CONTACT:** Shirley Witalis at phone number: (916) 930-3606, or email: [Shirley.Witalis@noaa.gov](mailto:Shirley.Witalis@noaa.gov).

**SUPPLEMENTARY INFORMATION:**

**Authority**

Issuance of permits and permit modifications, as required by the Endangered Species Act of 1973 (16 U.S.C. 1531-1543) (ESA), is based on a finding that such permits/modifications: (1) Are applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permits; and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the permits. Permits and modifications are issued in accordance with and are subject to the ESA and NMFS regulations governing listed fish and wildlife permits (50 CFR parts 222-226).

Those individuals requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). The holding of such a hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in the permit action summaries are those of the applicant and do not necessarily reflect the views of NMFS.

**Species Covered in This Notice**

This notice is relevant to the federally-listed threatened California Central Valley (CCV) steelhead (*Oncorhynchus mykiss*) distinct population segment.

**New Application Received**

The USBR, in affiliation with the San Joaquin River Restoration Program (SJRRP), requests a 3-year permit to conduct the SJRRP Steelhead Monitoring Plan (SMP) in the San Joaquin River upstream of the Merced River confluence, in the Central Valley, California.

The SJRRP intends to research the presence or absence of CCV steelhead

within the SJRRP restoration area, defined as the mainstem San Joaquin River from Friant Dam to the confluence of the Merced River. The SMP focuses monitoring efforts on the CCV steelhead adult migration from mid-December through mid-March when the SJRRP Interim Flows Project is implemented to maintain sufficient river conditions for fish in the SJRRP restoration area.

The SMP includes several sampling methodologies in response to monitoring challenges in the restoration area. Trammel nets will be deployed to drift during short durations in high velocity water in areas where adult steelhead are most likely to be present. Raft mounted electrofishers will be used to navigate through shallow water (e.g., backwater sloughs, around in-river structures, under bypasses) locations where other sampling methodologies are ineffective. Fyke nets with wing walls and fish traps will be deployed for effective sampling during pulse flows, flood releases, and high riverine turbidity. Monitoring staff will employ best management practices and follow NMFS electrofishing guidelines to minimize sampling effects on fish.

All captured steelhead will be recorded, measured, identified as to gender, sampled for scales and tissues, and checked for injuries and the presence of tags. Additionally, fish will be Floy-tagged with a unique identification number to document any recaptures that may occur in the study area. Sampled fish will then be transported by tank truck equipped with oxygen diffusers, and acclimated to river temperature prior to release into suitable habitat downstream of the mouth of the Merced River.

The SMP will monitor continuously from December 1 through March 31 throughout the study period. USBR requests authorization for an estimated annual non-lethal take of 6 steelhead by fyke net, 10 steelhead by electrofisher, and 2 steelhead by trammel net. No indirect mortality is anticipated during fish capture, sampling and release activities carried out for the study.

Dated: December 7, 2011.

**Fisheries of the Gulf of Mexico and South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of SEDAR 28 pre-data workshop webinar for Gulf of Mexico and South Atlantic Spanish mackerel and cobia.

**SUMMARY:** The SEDAR 28 assessments of the Gulf of Mexico and South Atlantic stocks of Spanish mackerel and cobia will consist of a series of workshops and webinars: A Data Workshop and webinar, an Assessment Workshop and webinars, and a Review Workshop. See **SUPPLEMENTARY INFORMATION**.

**DATES:** The SEDAR 28 pre-data workshop webinar will be held Wednesday, January 11, 2012, from 1 p.m. to 5 p.m. The established time may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from, or completed prior to the time established by this notice.

**ADDRESSES:** The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Kari H. Fenske at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information.

**FOR FURTHER INFORMATION CONTACT:** Kari H. Fenske, SEDAR Coordinator, 4055 Faber Place, Suite 201, North Charleston, SC 29405; telephone: (843) 571-4366; email: [Kari.Fenske@safmc.net](mailto:Kari.Fenske@safmc.net)

**SUPPLEMENTARY INFORMATION:** The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop, (2) Assessment Process utilizing a workshop and webinars, (3) Review Workshop. The product of the
