Proposed Project: Cross-Site Evaluation of the Minority Serving Institutions' HIV/AIDS Demonstration Initiative and Capacity-building Project (New)—OMB No. 0990-NEW—Office of HIV/AIDS Policy.

Abstract: Although minority populations comprise only 30% of the U.S. population, they account for nearly 65% of the new AIDS cases. As one strategy to address this disparity, the U.S. Department of Health and Human Services Office of HIV/AIDS Policy (OHAP) implemented the Minority Serving Institutions' (MSI) HIV/AIDS Demonstration Initiative and Capacity-building Project in 7 colleges and universities serving diverse groups of Hispanic, African American, and Native American minority students. This cross-site evaluation of the project will assess changes among students in the 7 colleges over a two-year project period regarding: (1) Awareness and knowledge of risk factors and prevention methods for HIV/AIDS transmission; (2) the occurrence of high-risk behaviors; and (3) access to HIV/AIDS prevention, counseling, testing and referral services. Implementation challenges and lessons learned also will be identified. The data collected in this evaluation will provide information about how to most effectively implement HIV/AIDS interventions at MSIs; and can be used to assist the OHAP and other federal agencies in setting future priorities for HIV/AIDS prevention activities at MSIs, and potentially other educational institutions. The data will be collected through various methods and frequencies, including annual pre and post tests and surveys, and focus groups to MSI students; annual key informant interviews to MSI staff and community partners; and semi-annual outcome data reports and monthly progress reports completed by MSI staff.
