Abstract: The Equal Employment Opportunity Commission Management Directive 715 (MD 715), requires agencies to maintain a system that: (1) Collects and maintains accurate information on race, national origin, gender and disability of an applicant/or employee in accordance with 29 CFR, paragraph 1614.601; (2) tracks applicant flow data; and, (3) tracks recruitment activities to permit analyses of these efforts in any examination of potential barriers to equality of opportunity. Agencies must also "conduct an internal review and analysis of the effects of all current and proposed policies, practices, and conditions that directly or indirectly," related to the employment of individuals with disabilities based on their race, national origin, gender and disabilities. However, an Agency may not collect demographics information, unless it displays a valid OMB control number. In order to comply with MD 715, the FBI is requesting clearance from OMB in accordance with established review procedures of the Paperwork Reduction Act of 1995. Once cleared for use, the revised form will be used to collect race, national origin, gender, and disability demographic information from applicants registering in the FBI's automated hiring system. All job applicants, whether internal or external, would be asked to complete, on a voluntary basis, an "Applicant Questionnaire: Race, National Origin, Gender, and Disability Demographics." The FBI must collect and evaluate information and data necessary to make an informed assessment the extent to which the Agency is meeting its responsibility to provide employment opportunities for qualified applicants and employees with disabilities, especially those with target disabilities.

(5) *An estimate of the total number of respondents and the amount of time estimated for or an average respondent to respond:* There are approximately 455,937 respondents that submit a one-time completion of questionnaire per respondent for a total of responses with an estimated response time of 5 minutes per response.
