DEPARTMENT OF COMMERCE**Submission for OMB Review;
Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: International Trade Administration.

Title: Survey of International Air Travelers (SIAT).

Form Number(s): None.

OMB Control Number: 0625-0227.

Type of Request: Regular submission (extension and revision of a currently approved information collection).

Burden Hours: 24,850.

Number of Respondents: 99,400.

Average Hours per Response: 15 minutes.

Needs and Uses: The Survey of International Air Travelers (Survey) program, administered by the Office of Travel and Tourism Industries (OTTI) of the International Trade Administration provides source data required to: (1) Estimate international travel and passenger fare exports, imports and the trade balance for the United States, (2) comply with the U.S. Travel Promotion Act of 2009 (Pub. L. 111-145), collect, analyze and report information to the Corporation for Travel Promotion (CTP), and support the National Export Initiative (NEI) to double U.S. exports, (3) comply with the 1945, 1961, 1981, and 1996 travel and tourism related acts to collect and publish comprehensive international travel and tourism statistics and other marketing information, and (4) support the continuation of the Travel & Tourism Satellite Accounts for the United States, which provide the only spending and employment figures for the industry. The Survey program contains the core data that is analyzed and communicated by OTTI with other government agencies, associations and businesses that share the same objective of increasing U.S. international travel exports.

The Survey assists OTTI in assessing the economic impact of international travel on state and local economies, providing visitation estimates, key market intelligence, and identifying traveler and trip characteristics. The U.S. Department of Commerce assists travel industry enterprises to increase international travel and passenger fare exports for the country as well as outbound travel on U.S. carriers. The Survey program provides the only

available estimates of nonresident visitation to the states and cities within the United States, as well as U.S. resident travel abroad.

The Survey also assists OTTI in producing in-depth statistical reports, fact sheets and briefings on economic factors and policy issues affecting U.S. industries. With the Survey statistical data not replicable by private sector trade associations or by private firms, Federal agencies, Congress and international organizations rely on these statistic-based tools, as do American businesses, state and local governments, and news organizations.

A new survey instrument (questionnaire) (English version plus its translations into eleven foreign languages) has been developed that reflects input from over 70 respondents, including segments of the travel industry (airlines, travel associations, destinations, lodging); consultants; financial firms; educational institutions; and U.S. government agencies. Also, this new Survey questionnaire reflects changes in various questions relating to trip purpose; payment methods; booking/information sources; additional package components, health care/vaccinations/travel insurance information; additional transportation used responses; assessment of the visitor's experience; intentions for further travel to the United States; and ethnicity/race. Survey questions relating to a traveler's general impression of their airline carrier, flight connections, several airline rating attributes, baggage delivery wait time, selected activities, number of trips in the last five years, and whether they had personal safety concerns were eliminated from the new Survey questionnaire.

Affected Public: Individuals or households: International travelers departing the United States 18 years or older which includes U.S. and non-U.S. residents for all countries except Canada.

Frequency: Monthly.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Wendy Liberante, (202) 395-3647.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: NOAA Customer Surveys.

OMB Control Number: 0648-0342.

Form Number(s): NA.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 605,529.

Average Hours Per Response: 5-6 minutes.

Burden Hours: 57,000.

Needs and Uses: This request is for extension of a current information collection.

This collection follows the guidelines contained in the OMB Resource Manual for Customer Surveys. In accordance with Executive Order 12862, the National Performance Review, and good management practices, NOAA offices seek approval to continue to gather customer feedback on services and/or products, which can be used in planning for service/product modification and prioritization. Under this generic clearance, individual offices would use approved questionnaires and develop new questionnaires, as needed, by selecting subsets of the approved set of collection questions and tailoring those specific questions to be meaningful for their particular programs. These proposed questionnaires would then be submitted to OMB using a fast-track request for approval process, for which separate **Federal Register** notices are not required. Surveys currently being conducted include Web site satisfaction surveys, a Chart Users survey, and a Coastal Services Center Training Evaluation.

The generic clearance will not be used to survey any bodies NOAA regulates unless precautions are taken to ensure

that the respondents believe that they are not under any risk for not responding or for the contents of their responses; e.g., in no survey to such a population will the names and addresses of respondents be required.

Affected Public: Individuals or households, not-for-profit organizations, Federal government, state, local and tribal governments.

Frequency: Annually and on occasion.

Respondent's Obligation: Voluntary.

OMB Desk Officer:

OIRA_Submission@omb.eop.gov.
