

II. What action is the agency taking?

Under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), at the discretion of the Administrator, a Federal or State agency may be exempted from any provision of FIFRA if the Administrator determines that emergency conditions exist which require the exemption. Michigan Department of Agriculture has requested the Administrator to issue a specific exemption for the use of kasugamycin on apples to control fire blight. Information in accordance with 40 CFR part 166 was submitted as part of this request.

As part of this request, the applicant asserts that kasugamycin is needed to control streptomycin-resistant strains of *Erwinia amylovora*, the causal pathogen of fire blight, due to the lack of available alternatives and effective control practices.

The Applicant proposes to make no more than three applications of Kasumin 2L on not more than 10,000 acres of apples between April 1 and May 31, 2012 in Berrien, Cass, Grand Traverse, Ionia, Kent, Montcalm, Newaygo, Oceana, Ottawa, and Van Buren counties. As currently proposed, the maximum amount of the product to be applied would be 30,000 gallons.

This notice does not constitute a decision by EPA on the application itself. The regulations governing section 18 of FIFRA require publication of a notice of receipt of an application for a specific exemption proposing use of a new chemical (i.e., an active ingredient) which has not been registered by EPA.

The notice provides an opportunity for public comment on the application.

The Agency, will review and consider all comments received during the comment period in determining whether to issue the specific exemption requested by the Michigan Department of Agriculture.
