

made to the Congressional office for the individual's own records;

8. Government-wide Program Management and Oversight—When requested by the General Services Administration (GSA), the National Archives and Records Administration (NARA), and/or the Government Accountability Office (GAO) for the purpose of records management inspections conducted under authority of 44 U.S.C. 2904 and 2906 (such disclosure(s) shall not be used to make a determination about individuals); when the U.S. Department of Justice (DOJ) is contacted in order to obtain that department's advice regarding disclosure obligations under the Freedom of Information Act; or when the Office of Management and Budget (OMB) is contacted in order to obtain that office's advice regarding obligations under the Privacy Act;

9. Breach of Federal Data—A record from this system may be disclosed to appropriate agencies, entities, and persons when (1) The Commission suspects or has confirmed that the security or confidentiality of information in the system of records has been compromised; (2) the Commission has determined that as a result of the suspected or confirmed compromise there is a risk of harm to economic or property interests, identity theft or fraud, or harm to the security or integrity of this system or other systems or programs (whether maintained by the Commission or another agency or entity) that rely upon the compromised information; and (3) the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with the Commission's efforts to respond to the suspected or confirmed compromise and prevent, minimize, or remedy such harm; and

10. FCC Enforcement Actions—When a record in this system involves a formal and/or informal complaint or inquiry filed alleging a violation of FCC Rules and Regulations by an applicant, licensee, certified or regulated entity or an unlicensed person or entity, the complaint may be provided to the alleged violator for a response. When an order or other Commission-issued document that includes consideration of a formal or informal complaint or complaints or inquiries is issued by the FCC to implement or to enforce FCC Rules and Regulations, the complainant's name or other PII may be made public in that order or document. Where a complainant in filing his or her complaint explicitly requests confidentiality of his or her name or other PII from public disclosure, the Commission will endeavor to protect

such information from public disclosure. Complaints that contain requests for confidentiality may be dismissed if the Commission determines that the request impedes the Commission's ability to investigate and/or resolve the complaint.

In each of these cases, the FCC will determine whether disclosure of the records is compatible with the purpose for which the records were collected.

Other FCC employees and contractors may be granted access on a "need-to-know" basis. The FCC's computer network databases are protected by the FCC's security protocols, which include controlled access, passwords, and other security features. Information resident on the database servers is backed-up routinely onto magnetic media. Back-up tapes are stored on-site and at a secured location.

The paper documents are maintained in file cabinets that are located in the CGB office suite, whose access is through a card-coded main door. Access to these files is restricted to authorized CGB supervisors and staff.
