

and in accordance with Title 41, Code of Federal Regulations, Section 102.365(a), and following consultation with the Committee Management Secretariat, General Services Administration, notice is hereby given that the National Petroleum Council has been renewed for a two-year period, beginning January 12, 2012. The Council will provide advice and recommendations to the Secretary of Energy on matters relating to oil and natural gas, and the oil and natural gas industries.

Additionally, the renewal of the Council has been determined to be essential to the conduct of the Department's business and to be in the public interest in connection with the performance of duties imposed upon the Department of Energy by law and agreement. The Council will continue to operate in accordance with the provisions of the Federal Advisory Committee Act and the rules and regulations in implementation of that Act.

FOR FURTHER INFORMATION CONTACT: Ms. Nancy Johnson at (202) 586-6458.

Issued at Washington, DC, on January 12, 2012.

Carol A. Matthews,
Committee Management Officer.

[Docket No. CP12-39-000]

D'Lo Gas Storage, LLC; Notice of Application

Take notice that on December 29, 2011, D'Lo Gas Storage, LLC (D'Lo), 1002 East St. Mary Blvd., Lafayette, Louisiana 70503, filed in Docket No. CP12-39-000, an application pursuant to section 7(c) of the Natural Gas Act and Part 157 of the Commission's Regulations, requesting a certificate of public convenience and necessity authorizing D'Lo to construct, operate, and maintain a new natural gas storage project to be located in Simpson County, Mississippi. Additionally, D'Lo requests a blanket certificate under part 284, Subpart G, of the Commission's regulations, to provide open-access non-discriminatory firm interruptible natural gas storage services and hub services, and a blanket certificate authorizing D'Lo to engage in certain self-implementing routine activities under Part 157, Subpart F of the Commission's

regulations. D'Lo also requests through this application approval of its pro forma FERC Gas Tariff and authority to charge market-based rates for storage and hub services, all as more fully set forth in the application, which is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Specifically, D'Lo proposes to construct a natural gas storage facility in the D'Lo Salt Dome underground that will provide approximately 24 billion cubic feet of working gas capacity in three caverns. D'Lo will construct five sites for pipeline interconnections and metering with interstate and intrastate gas pipeline systems.

Any questions regarding this application should be directed to J. Gordon Pennington, 2707 N. Kensington St., Arlington, VA 22207, telephone no. (703) 533-7638, facsimile no. (703) 241-1842, and email: pennington5@verizon.net.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify Federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all Federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the

Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentators will not be required to serve copies of filed documents on all other parties. However, the non-party commentators will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for

review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5 p.m. Eastern Time on February 1, 2012.

Dated: January 11, 2012.
