

date will be considered if it is practical to do so, but the NRC staff is able to ensure consideration only for comments received on or before this date.

**ADDRESSES:** Please include Docket ID NRC-2012-0010 in the subject line of your comments. For additional instructions on submitting comments and instructions on accessing documents related to this action, see "Submitting Comments and Accessing Information" in the **SUPPLEMENTARY INFORMATION** section of this document. You may submit comments by any of the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for documents filed under Docket ID NRC-2012-0010. Address questions about NRC dockets to Carol Gallagher (301) 492-3668; email [Carol.Gallagher@nrc.gov](mailto:Carol.Gallagher@nrc.gov).

- *Mail comments to:* Mail comments to: Cindy Bladey, Chief, Rules, Announcements, and Directives Branch (RADB), Office of Administration, Mail Stop: TWB-05-B01M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by fax to RADB at (301) 492-3446.

- *Fax comments to:* RADB at (301) 492-3446.

**FOR FURTHER INFORMATION CONTACT:**

Richard Pelton, Division of Construction Inspection and Operational Programs, Office of New Reactors, TWFN Mail Stop 07-D24, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Phone: (301) 415-1028, email: [Rick.Pelton@nrc.gov](mailto:Rick.Pelton@nrc.gov) or James Kellum, Division of Construction Inspection and Operational Programs, Office of New Reactors, TWFN Mail Stop 07-D24, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; Phone: (301) 415-5305, email: [Jim.Kellum@nrc.gov](mailto:Jim.Kellum@nrc.gov).

**SUPPLEMENTARY INFORMATION:**

**Submitting Comments and Accessing Information**

Comments submitted in writing or in electronic form will be posted on the NRC Web site and on the Federal rulemaking Web site, <http://www.regulations.gov>. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments to remove any identifying or

contact information, and therefore, they should not include any information in their comments that they do not want publicly disclosed.

You can access publicly available documents related to this document using the following methods:

- *NRC's Public Document Room (PDR):* The public may examine and have copied, for a fee, publicly available documents at the NRC's PDR, O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* Publicly available documents created or received at the NRC are available online in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. From this page, the public can gain entry into ADAMS, which provides text and image files of the NRC's public documents. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC's PDR reference staff at 1 (800) 397-4209, (301) 415-4737, or by email to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). The draft NUREG is available electronically under ADAMS Accession No. ML11354A280. The draft NUREG will also be accessible through the NRC's public site under draft NUREGs for comment.

- *Federal Rulemaking Web site:* Public comments and supporting materials related to this notice can be found at <http://www.regulations.gov> by searching on Docket ID NRC-2012-0010.

**Discussion**

The draft NUREG provides the basis for the development of content-valid licensing examinations for reactor operators (ROs) and senior reactor operators (SROs). The examinations developed using this Catalog along with the Operator Licensing Examination Standards for Power Reactors (NUREG-1021) will sample the topics listed under Title 10 of the *Code of Federal Regulations* (10 CFR) Part 55.

Dated at Rockville, Maryland, this 9th day of January 2012.

For the Nuclear Regulatory Commission,

**Veronica Rodriguez,**

*Acting Chief, Operator Licensing and Human Performance Branch, Division of Construction Inspection and Operational Programs, Office of New Reactors.*

[FR Doc. 2012-1063 Filed 1-19-12; 8:45 am]

**BILLING CODE 7590-01-P**

**NUCLEAR REGULATORY COMMISSION**

[NRC-2012-0005; IA-11-032]

**In the Matter of Mr. Francis Guilbeau; Order Prohibiting Involvement in NRC-Licensed Activities**

**I**

Mr. Francis Guilbeau was employed as a Radiographer at Accurate NDE & Inspection, LLC, (Accurate NDE or Licensee) located in Broussard, Louisiana, in March 2010. Accurate NDE is the holder of a general license issued by the U.S. Nuclear Regulatory Commission (NRC or the Commission) pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) 150.20. This general license was granted to Accurate NDE at various times during calendar years between 2005 through 2011.

**II**

On May 26, 2010, the NRC conducted a special inspection of licensed activities involving the use of byproduct material for industrial radiography conducted under a general license pursuant to the provisions of 10 CFR 150.20. The inspection was conducted in response to an event that occurred on March 15, 2010, involving the loss of a sealed source of iridium-192 while performing licensed activities in offshore Federal waters. On June 28, 2010, the NRC's Office of Investigations, Region IV, began an investigation (Case No. 4-2010-062) to determine, in part, whether Mr. Guilbeau: (1) Willfully failed to follow operating procedures by attempting to retrieve a disconnected source without making the proper notifications and obtaining authorization from the Accurate NDE radiation safety officer (RSO); and (2) willfully recorded an inaccurate number for a pocket dosimeter reading on the Accurate NDE Daily Radiation Report dated March 14, 2010. By letter dated July 28, 2011 (ML11209B637), the NRC informed Mr. Guilbeau that the NRC was considering escalated enforcement action for two apparent violations of NRC's deliberate misconduct rule, 10 CFR 30.10. The NRC offered Mr. Guilbeau the opportunity to request a predecisional enforcement conference or request alternative dispute resolution (ADR) with the NRC in an attempt to resolve issues associated with this matter. In response, Mr. Guilbeau requested a predecisional enforcement conference. A predecisional enforcement conference was held with Mr. Guilbeau on August 25, 2011, in an

effort to obtain Mr. Guilbeau's point of view on the violations.

Based on the NRC review of the information obtained during the predecisional enforcement conference, the inspection and the investigation, two violations of the NRC's rule prohibiting deliberate misconduct, 10 CFR 30.10, were identified. First, Mr. Guilbeau engaged in deliberate misconduct in violation of 10 CFR 30.10(a)(1) by causing Accurate NDE to be in violation of 10 CFR 150.20(b)(5), which requires Accurate NDE to comply with the terms of its State license. Paragraph 21A of the Louisiana State license required Accurate NDE to follow its operating procedures. Accurate NDE's operating procedures prohibit a radiographer from retrieving a disconnected source unless he contacts the radiation safety officer (RSO) first and obtains authorization. Mr. Guilbeau did not contact the RSO or obtain authorization from the RSO prior to attempting retrieval of the source. Therefore, Mr. Guilbeau's actions caused Accurate NDE to be in violation of its Louisiana State license, and 10 CFR 150.20. During an interview with the Office of Investigations, Mr. Guilbeau admitted that he tried to retrieve the source without first contacting the RSO. Mr. Guilbeau also stated in this interview that he knew radiographers were not supposed to retrieve a source. In a written test on Accurate NDE's procedures taken on March 10, 2010, four days prior to going out on this job, Mr. Guilbeau chose the correct response to a question asking what to do in the event of a source disconnect—a further indication that he knew it was necessary to contact the RSO and that he was not supposed to attempt to put the source back in the camera.

This incident occurred on Mr. Guilbeau's first job back with Accurate NDE after several years working elsewhere. During his previous tenure with Accurate NDE in 2004–2006, Mr. Guilbeau was involved in a similar incident and in that case, he immediately called the office. At the predecisional enforcement conference held on August 25, 2011, Mr. Guilbeau stated repeatedly that his primary aim was to get the “pill” hooked back up so he could start X-raying again. He also indicated that he should have contacted the office first, but it was his first job back with Accurate NDE, and he just wanted to get the work done without any complications.

Because Mr. Guilbeau knew that he was supposed to contact the RSO before attempting to retrieve a source but did not do so, and because his actions

caused the license to be in violation of 10 CFR 150.20(b)(5), Mr. Guilbeau's actions constitute deliberate misconduct pursuant to 10 CFR 30.10(a)(1). During the attempted source retrieval, the licensee's conclusion was that the source fell through the grating on the deck of the platform into the Gulf of Mexico. Therefore, as a result of Mr. Guilbeau's actions, the source was lost.

Second, Mr. Guilbeau engaged in deliberate misconduct in violation of 10 CFR 30.10(a)(2) by deliberately submitting to Accurate NDE, an NRC general licensee, information that he knew was inaccurate in some material respect. Specifically, Mr. Guilbeau recorded a number for a pocket dosimeter reading associated with work performed by another radiographer on March 14, 2010, on the Daily Radiation Report, that Mr. Guilbeau knew was inaccurate. During an interview by the Office of Investigations, Mr. Guilbeau admitted he did not know what the other radiographer's true radiographic dose exposure was for March 14, 2010, and estimated a number on the licensee's Daily Radiation Report for that shift. During the predecisional enforcement conference, Mr. Guilbeau stated that he could not remember receiving the other radiographer's radiographic dose exposure that would have been recorded at the end of the shift. This would indicate that Mr. Guilbeau did not enter the correct dose exposure reading for the other radiographer on the Daily Radiation Report. As a result, Mr. Guilbeau deliberately submitted information to Accurate NDE, an NRC general licensee, information that he knew to be inaccurate in some respect material to the NRC. This was a violation of 10 CFR 30.10(a)(2). In addition, because the Daily Radiation Report is a record that Accurate NDE is required to keep pursuant to 10 CFR 34.83 and 34.47(b), Mr. Guilbeau's actions caused Accurate NDE to be in violation of 10 CFR 30.9(a), which requires that information required by regulation to be maintained by a licensee must be accurate in all material respects.

### III

Based on the above, the NRC has concluded that Mr. Francis Guilbeau, a former employee of Accurate NDE, violated 10 CFR 30.10(a)(1) by engaging in deliberate misconduct that caused Accurate NDE to be in violation of 10 CFR 150.20(b)(5) and 30.9. Further, Mr. Guilbeau deliberately provided to Accurate NDE information that he knew to be incomplete or inaccurate in some respect material to the NRC, in violation of 10 CFR 30.10(a)(2).

The NRC must be able to rely on the Licensee and its employees to comply with NRC requirements, including the requirement that general licensees operating under the reciprocity provisions of 10 CFR 150.20 comply with the terms and conditions of their Agreement State licenses and the requirement to provide information and maintain records that are complete and accurate in all material respects. Mr. Guilbeau's actions caused the Licensee to violate 10 CFR 150.20(b)(5) and 10 CFR 30.9 and have raised serious doubt as to whether he can be relied upon to comply with NRC requirements and to provide complete and accurate information to the NRC.

Consequently, I lack the requisite reasonable assurance that licensed activities can be conducted in compliance with the Commission's requirements and that the health and safety of the public will be protected if Mr. Guilbeau were permitted at this time to be involved in NRC-licensed activities. Therefore, the public health, safety and interest require that Mr. Guilbeau be prohibited from any involvement in NRC-licensed activities for a period of 1 year from the effective date of this Order, as defined in Section V. Additionally Mr. Guilbeau is required to notify the NRC of his first employment in NRC-licensed activities for a period of 1 year following the prohibition period.

### IV

Accordingly, pursuant to Sections 81, 161b, 161i, 161o, 182 and 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.202, 10 CFR 30.10, 10 CFR parts 20, 34, and 10 CFR 150.20, *It is hereby ordered that:*

1. Mr. Francis Guilbeau is prohibited for 1 year from the effective date of this Order, as defined in Section V, from engaging in NRC-licensed activities. NRC-licensed activities are those activities that are conducted pursuant to a specific or general license issued by the NRC, including but not limited to, those activities of Agreement State licensees conducted pursuant to the authority granted by 10 CFR 150.20. Specifically, Mr. Guilbeau is prohibited from performing, supervising, assisting or otherwise engaging in (1) Industrial radiography for an Agreement State licensee that is conducted in non-Agreement States, in areas of exclusive federal jurisdiction within Agreement States, or in offshore waters under an NRC general license granted pursuant to 10 CFR 150.20, (2) industrial radiography for an NRC licensee, including, but not limited to,

radiography conducted under the authority of a license issued pursuant to 10 CFR Part 34, and (3) any other licensed activity under NRC jurisdiction.

2. As of the effective date of this Order, if Mr. Guilbeau is currently involved in NRC-licensed activities, he must immediately cease those activities, and inform the NRC of the name, address and telephone number of the employer, and provide a copy of this Order to the employer.

3. For a period of 1 year after the 1-year period of prohibition has expired, Mr. Guilbeau shall, within 20 days of acceptance of his first employment offer involving NRC-licensed activities or his becoming involved in NRC-licensed activities, as defined in paragraph IV.1 above, provide notice to the Director, Office of Enforcement, U. S. Nuclear Regulatory Commission, Washington, DC 20555-0001, of the name, address, and telephone number of the employer or the entity where he is, or will be, involved in the NRC-licensed activities. In the notification, Mr. Guilbeau shall include a statement of his commitment to compliance with NRC regulatory requirements and the basis for why the Commission should have confidence that he will now comply with applicable NRC requirements.

The Director, Office of Enforcement, may, in writing, relax or rescind any of the above conditions upon demonstration by Mr. Guilbeau of good cause.

## V

In accordance with 10 CFR 2.202, Mr. Francis Guilbeau must, and any other person adversely affected by this Order may, submit an answer to this Order within 30 days of its issuance date. In addition, Mr. Guilbeau and any other person adversely affected by this Order may request a hearing on this Order within 30 days of its issuance date. Where good cause is shown, consideration will be given to extending the time to answer or request a hearing. A request for extension of time must be directed to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, and include a statement of good cause for the extension.

All documents filed in NRC adjudicatory proceedings, including a request for hearing, a petition for leave to intervene, any motion or other document filed in the proceeding prior to the submission of a request for hearing or petition to intervene, and documents filed by interested governmental entities participating under 10 CFR 2.315(c), must be filed in accordance with the NRC E-Filing rule

(72 FR 49139, August 28, 2007). The E-Filing process requires participants to submit and serve all adjudicatory documents over the Internet, or in some cases to mail copies on electronic storage media. Participants may not submit paper copies of their filings unless they seek an exemption in accordance with the procedures described below.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at [hearing.docket@nrc.gov](mailto:hearing.docket@nrc.gov), or by telephone at (301) 415-1677, to request (1) a digital ID certificate, which allows the participant (or its counsel or representative) to digitally sign documents and access the E-Submittal server for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a request or petition for hearing (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the hearing in this proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals/apply-certificates.html>. System requirements for accessing the E-Submittal server are detailed in NRC's "Guidance for Electronic Submission," which is available on the agency's public Web site at <http://www.nrc.gov/site-help/e-submittals.html>. Participants may attempt to use other software not listed on the Web site, but should note that the NRC's E-Filing system does not support unlisted software, and the NRC Meta System Help Desk will not be able to offer assistance in using unlisted software.

If a participant is electronically submitting a document to the NRC in accordance with the E-Filing rule, the participant must file the document using the NRC's online, web-based submission form. In order to serve documents through NRC's Electronic Information Exchange (EIE), users will be required to install a web browser plug-in from the NRC Web site. Further information on the web-based submission form, including the installation of the web browser plug-in, is available on the NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals.html>.

Once a participant has obtained a digital ID certificate and a docket has been created, the participant can then submit a request for hearing or petition for leave to intervene. Submissions should be in portable document format (PDF) in accordance with NRC guidance available on the NRC public Web site at <http://www.nrc.gov/site-help/e-submittals.html>. A filing is considered complete at the time the documents are submitted through the NRC's E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. Eastern time on the due date. Upon receipt of a transmission, the E-Filing system timestamps the document and sends the submitter an email notice confirming receipt of the document. The E-Filing system also distributes an email notice that provides access to the document to the NRC's Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the documents on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before a hearing request/petition to intervene is filed so that they can obtain access to the document via the E-Filing system.

A person filing electronically using the agency's adjudicatory E-Filing system may seek assistance by contacting the NRC Meta System Help Desk through the "Contact Us" link located on the NRC Web site at <http://www.nrc.gov/site-help/e-submittals.html>, by email at [MSHD.Resource@nrc.gov](mailto:MSHD.Resource@nrc.gov), or by a toll-free call at (866) 672-7640. The NRC Meta System Help Desk is available between 8 a.m. and 8 p.m., Eastern time, Monday through Friday, excluding government holidays.

Participants who believe that they have a good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, Attention: Rulemaking and Adjudications Staff. Participants

filing a document in this manner are responsible for serving the document on all other participants. Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service. A presiding officer, having granted an exemption request from using E-Filing, may require a participant or party to use E-Filing if the presiding officer subsequently determines that the reason for granting the exemption from use of E-Filing no longer exists.

Documents submitted in adjudicatory proceedings will appear in NRC's electronic hearing docket, which is available to the public at <http://ehd1.nrc.gov/ehd/>, unless excluded pursuant to an order of the Commission, or the presiding officer. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or home phone numbers in their filings, unless an NRC regulation or other law requires submission of such information. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants are requested not to include copyrighted materials in their submission.

If a person other than Mr. Francis Guilbeau requests a hearing, that person shall set forth with particularity the manner in which his interest is adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.309(d).

If a hearing is requested by Mr. Guilbeau or any other person whose interest is adversely affected, the Commission will issue an order designating the time and place of any hearings.

If a hearing is held, the issue to be considered at such hearing shall be whether this Order should be sustained. In the absence of any request for hearing or ADR, or written approval of an extension of time in which to request a hearing, the effective date of this Order (the date that the provisions specified in Section IV above become final and effective) shall be 30 days from the issuance date of this Order without further order or proceedings. If an extension of time for requesting a hearing has been approved, the effective date of this Order shall be when the extension expires if a hearing request has not been received. If a hearing or ADR is requested, the effective date of this Order shall be determined in

accordance with the hearing or ADR process.

Dated this 5th day of January 2012.

For the Nuclear Regulatory Commission.

**Roy P. Zimmerman,**

*Director, Office of Enforcement.*

**BILLING CODE 7590-01-P**

## PEACE CORPS

### Submission for OMB Review; Request for Comments

**ACTION:** 60-Day notice and request for comments.

**SUMMARY:** The Peace Corps will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval. The purpose of this notice is to allow 60 days for public comment in the **Federal Register** preceding submission to OMB. We are conducting this process in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35).

**DATES:** Comments must be submitted on or before March 20, 2012.

**ADDRESSES:** Comments should be addressed to Denora Miller, FOIA Officer, Peace Corps, 1111 20th Street NW., Washington, DC 20526. Denora Miller can be contacted by telephone at (202) 692-1236 or email at [pcfr@peacecorps.gov](mailto:pcfr@peacecorps.gov). Email comments must be made in text and not in attachments.

**FOR FURTHER INFORMATION CONTACT:** Denora Miller at Peace Corps address above.

**SUPPLEMENTARY INFORMATION:** The Peace Corps Act states that “[t]he President may enroll in the Peace Corps for service abroad qualified citizens and nationals of the United States (referred to in this Act as “volunteers”). The terms and conditions of the enrollment \* \* \* of volunteers shall be exclusively those set forth in this Act and those consistent therewith which the President may prescribe \* \* \*” 22 U.S.C. 2504(a). Eligibility requirements for the Peace Corps have been prescribed in 22 CFR part 305. Among those eligibility requirements is one relating to medical status. An Applicant “must, with reasonable accommodation, have the physical and mental capacity required of a Volunteer to perform the essential functions of the Peace Corps Volunteer assignment for which he or she is otherwise eligible and be able to complete an agreed upon tour of service, ordinarily two years, without undue

disruption due to health problems.” 22 CFR 305.2(c). All applicants for service must undergo a physical examination and a dental evaluation prior to Volunteer service to determine if they meet this medical status eligibility requirement. In addition, under 22 U.S.C. 2504(e), the Peace Corps provides medical care to Volunteers during their service and the information collected will also be used in connection with medical care and treatment during Peace Corps service for applicants who become Volunteers. Finally, the information collected may serve as a point of reference for any potential future Volunteer worker's compensation claims.

Volunteers serve in 67 developing countries where western-style healthcare is often not available. Volunteers are placed in remote locations where they may suffer hardship because they have no access to running water and/or electricity. They also may be placed in locations with extreme environmental conditions related to cold, heat or high altitude and they may be exposed to diseases not generally found in the U.S. Volunteers may be placed many hours from the Peace Corps medical office and not have easy access to any health care provider. Therefore, a thorough review of an Applicant's past medical history is an essential first step to determine their suitability for service in Peace Corps.

The current process requires almost all Applicants to undergo a costly and time consuming full medical evaluation. Under the current process, it sometimes happens that after an Applicant has spent large amounts of time and money, the Peace Corps finds that the Applicant is not medically qualified to serve. In 2012, the Peace Corps will change the current process in order to reduce the time and expense of Applicants and to ensure that only those who accept an invitation to serve undergo a complete medical evaluation. However, Applicants who have certain particularly difficult to accommodate conditions will be evaluated early in the process. This will reduce the time and expense for those Applicants who would, even with reasonable accommodation, not be likely to be able to perform the essential functions of a Peace Corps Volunteer and complete a tour of service without undue disruption due to health problems.

Under the new system, the Applicant will begin the medical part of the application process by completing a comprehensive health history form called the “Health History Form”. After completion of the Health History Form and after passing preliminary non-
