SUPPLEMENTARY INFORMATION: The site to be deleted from the NPL is: Martin-Marietta/Sodyeco Superfund Site (Site) located at 11701 Mount Holly Road in Charlotte, North Carolina. A Notice of Intent to Delete for this Site was published in the **Federal Register** on November 18, 2011.

The closing date for comments on the Notice of Intent to Delete was December 17, 2011. No public comments were received during the comment period. Therefore a responsiveness summary was not prepared and placed in the docket, EPA–R04–SFUND–2011–0749, on www.regulations.gov, or in the local repositories listed above.

EPA maintains the NPL as the list of sites that appear to present a significant risk to public health, welfare, or the environment. Deletion from the NPL does not preclude further remedial action. Whenever there is a significant release from a site deleted from the NPL, the deleted site may be restored to the NPL without application of the hazard ranking system. Deletion of a site from the NPL does not affect responsible party liability in the unlikely event that future conditions warrant further actions.

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 64

[Docket ID FEMA–2011–0002; Internal Agency Docket No. FEMA–8215]

Suspension of Community Eligibility

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: This rule identifies communities where the sale of flood insurance has been authorized under the National Flood Insurance Program (NFIP) that are scheduled for suspension on the effective dates listed within this rule because of noncompliance with the floodplain management requirements of the program. If the Federal Emergency Management Agency (FEMA) receives documentation that the community has adopted the required floodplain management measures prior to the effective suspension date given in this rule, the suspension will not occur and a notice of this will be provided by publication in the **Federal Register** on a subsequent date.

DATES: *Effective Dates:* The effective date of each community’s scheduled suspension is the third date (“Susp.”) listed in the third column of the following tables.

FOR FURTHER INFORMATION CONTACT: If you want to determine whether a particular community was suspended on the suspension date or for further information, contact David Stearrett, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646–2953.

SUPPLEMENTARY INFORMATION: The NFIP enables property owners to purchase Federal flood insurance that is not

otherwise generally available from private insurers. In return, communities agree to adopt and administer local floodplain management aimed at protecting lives and new construction from future flooding. Section 1315 of the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4022, prohibits the sale of NFIP flood insurance unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed in this document no longer meet that statutory requirement for compliance with program regulations, 44 CFR part 59.

Accordingly, the communities will be suspended on the effective date in the third column. As of that date, flood insurance will no longer be available in the community. We recognize that some of these communities may adopt and submit the required documentation of legally enforceable floodplain management measures after this rule is published but prior to the actual suspension date. These communities will not be suspended and will continue their eligibility for the sale of insurance. A notice withdrawing the suspension of the communities will be published in the **Federal Register**.

In addition, FEMA publishes a Flood Insurance Rate Map (FIRM) that identifies the Special Flood Hazard Areas (SFHAs) in these communities. The date of the FIRM, if one has been published, is indicated in the fourth column of the table. No direct Federal financial assistance (except assistance pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act not in connection with a flood) may be provided for construction or acquisition of buildings in identified SFHAs for communities not participating in the NFIP and identified for more than a year on FEMA’s initial FIRM for the community as having flood-prone areas (section 202(a) of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4106(a), as amended). This prohibition against certain types of Federal assistance becomes effective for the communities listed on the date shown in the last column. The Administrator finds that notice and public comment under 5 U.S.C. 553(b) are impracticable and unnecessary because communities listed in this final rule have been adequately notified.

Each community receives 6-month, 90-day, and 30-day notification letters addressed to the Chief Executive Officer stating that the community will be suspended unless the required floodplain management measures are met prior to the effective suspension

date. Since these notifications were made, this final rule may take effect within less than 30 days.

National Environmental Policy Act. This rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Considerations. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. The Administrator has determined that this rule is exempt from the requirements of the Regulatory Flexibility Act because the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4022, prohibits flood insurance coverage unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed no longer comply with the statutory

requirements, and after the effective date, flood insurance will no longer be available in the communities unless remedial action takes place.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This rule meets the applicable standards of Executive Order 12988.

Paperwork Reduction Act. This rule does not involve any collection of information for purposes of the

Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*

Paperwork Reduction Act of 1995 Analysis

This Third R&O adopts new or revised information collection requirements, subject to the Paperwork Reduction Act of 1995 (PRA) (Pub. L. 104-13, 109 Stat 163 (1995) (codified in 44 U.S.C. 3501-3520)). These information collection requirements will be submitted to the Office of Management and Budget (OMB) for review under section 3507(d) of the PRA. The Commission will publish a separate notice in the **Federal Register** inviting comment on the new or revised information collection requirements adopted in this document. The requirements will not go into effect until OMB has approved them and the Commission has published a notice announcing the effective date of the information collection requirements. In addition, the Commission notes that pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. 3506(c)(4), it previously sought specific comment on how the Commission might "further reduce the information collection burden for small business concerns with fewer than 25 employees."

Synopsis of Order

1. In the Third R&O, the Commission addressed the proposals set forth in the Second Further Notice of Proposed Rule Making (Second FNPRM) that accompanied the Second Report and Order in this proceeding (76 FR 9797, March 4, 2010, FCC 11-28, rel. Mar. 3, 2011) (Second R&O). The Tribal Priority gives qualified Native American Tribes and Alaska Native Villages (Tribes) a priority under section 307(b) of the Communications Act when seeking to establish new radio stations that primarily cover tribal lands. Because applicants for new AM broadcast and FM noncommercial educational (NCE) broadcast stations submit showings under section 307(b) at the time of filing

an application for construction permit, the Tribal Priority gives Tribes an advantage over applicants filing mutually exclusive proposals. However, in the case of commercial FM broadcast stations, there is a two-step application process: first, the FM channel is allotted at a selected community, and the section 307(b) evaluation is made at this stage of the process. Second, the FM allotment is auctioned, with any party desiring to do so participating in the auction. An application for an FM commercial construction permit is only filed after the auction is held, and only by the winning bidder.

2. Recognizing "the risks inherent in applying a section 307(b) preference at the allotment stage for auctionable non-reserved band spectrum," (First Report and Order, 75 FR 9797, Mar. 4, 2010, FCC 10-24, rel. Feb. 23, 2010), the Commission sought comment in the Further Notice of Proposed Rule Making, 75 FR 9856, March 4, 2010, FCC 10-24, rel. Feb. 23, 2010 (FNPRM) in this proceeding on whether to establish an auction bidding credit for Tribes seeking to provide commercial FM radio service to their Tribal Lands and members. The Tribal bidding credit was originally proposed to mitigate concerns that, due to the two-step nature of the commercial FM licensing process, Tribes or Tribal entities that employ the Tribal Priority to obtain FM allotments might be outbid by competing, non-Tribal applicants. The only commenters to address this issue proposed a 35 percent bidding credit that would be available to Tribes or Tribal entities that participated in the allotment proceeding for the FM channel being auctioned, regardless of new entrant status, along with an additional 25 percent new entrant bidding credit to Tribes with no interests in media of mass communications, for a total maximum bidding credit of 60 percent.

3. The Commission found the record inconclusive as to the effectiveness of tribal bidding credits. The Commission was unclear as to whether and how it could craft such credits so as to meaningfully advance its goals consistent with the competitive bidding mandate of 47 U.S.C. 309(j). On further consideration, the Commission believed an alternative approach might be more effective to achieve its policy goals and would be more consistent with its statutory mandate to license spectrum in the public interest. The Commission thus sought comment, in the Second FNPRM, on whether to require, as a threshold qualification to apply for a commercial FM channel allotted pursuant to the Tribal Priority, that
