Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151–155, 201–205, 208, 251–271, 403, 502, and 503 of the Communications Act of 1934, as amended.

Total Annual Burden: 215,600 hours.

Total Annual Cost: \$1,411,150.

Privacy Impact Assessment: N/A.

Nature and Extent of Confidentiality: The information requested is not of a confidential nature. Respondents who believe certain information to be of a proprietary nature may solicit confidential treatment in accordance with the procedures described in 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission is seeking OMB approval for a revision of this information collection in order to obtain the full three year approval from OMB. There is a significant increase to the Commission's previous burden estimates.

On November 18, 2011, the Commission adopted the *USF/ICC Transformation Order* that requires or permits incumbent and competitive local exchange carriers as part of transitioning regulation of interstate and intrastate switched access rates and reciprocal compensation rates to bill-and-keep under section 251(b)(5) of the Communications Act of 1934, as amended, to file tariffs with state commissions and the FCC. This transition affects different switched access rates at specified timeframes and establishes an Access Recovery Charge by which carriers will be able to assess end users a monthly charge to recover some or all of the revenues they are permitted to recover resulting from reductions in intercarrier compensation rates. We estimate that 40 rate-of-return LECs will need to make an additional interstate access tariff filing annually and that 330 competitive and incumbent LECs will have to make a one-time filing to allow them to assess charges for Voice over Internet Protocol (VoIP). We also estimate that an additional 2,840 competitive and incumbent LECs will have to file intrastate tariffs annually.

Finally, we estimate that 2,840 competitive and incumbent LECs will have to make a one-time intrastate tariff filing to establish VoIP rates of interstate rate levels.

The information collected through a carrier's tariff is used by the Commission and state commissions to determine whether services offered are just and reasonable as the Act requires. The tariffs and any supporting documentation are examined in order to determine if the services are offered in a just and reasonable manner.

Needs and Uses: The Commission obtained OMB approval for this new collection in March 2011. The Commission is now seeking OMB approval for a revision to this information collection. The Commission adopted and released a Third Report and Order, FCC 11-107, PS Docket No. 07-114, which provides that new Commercial Mobile Radio Service (CMRS) providers, meeting the definition of covered CMRS providers in Section 20.18 and deploying networks subsequent to the effective date of the Third Report and Order that are not an expansion or upgrade of an existing CMRS network, must meet the handset-based location accuracy standard from the start.
