Purpose of Program: The Comprehensive Centers program supports the establishment of no fewer than 20 comprehensive technical assistance centers to provide technical assistance to SEAs that builds their capacity to support local educational agencies (LEAs or districts) and schools, especially low-performing districts and schools, improve educational outcomes for all students, close achievement gaps, and improve the quality of instruction.

Program Authority: Title II, section 203, of the Education Technical Assistance Act of 2002 (ETAA).

I. Background

The Elementary and Secondary Education Act of 1965, as amended (ESEA), holds States accountable for closing achievement gaps and ensuring that all children, regardless of race, ethnicity, family income, English language proficiency, or disability, receive a high-quality education and meet challenging State academic standards.

The ETAA authorizes support for no fewer than 20 Comprehensive Centers to provide training, technical assistance, and professional development to SEAs, LEAs, regional educational agencies, and schools in the administration and implementation of programs under the ESEA. Under section 203(a)(2) of the ETAA, the Department is required to establish at least one center in each of the 10 geographic regions served by the Department's Regional Educational Laboratories (RELs). Resources for centers established under the ETAA are determined on the basis of the number of school-aged children in each region, the proportion of economically disadvantaged students in each region, the higher cost of service delivery in sparsely populated areas, and the number of schools identified for improvement under section 1116(b) of the ESEA in each region.
