

Company are invested and these companies are valued in the same way for MSC, the Company, and MSMF. Additionally, applicants assert that, because the Shares issued by the Company in exchange for the additional interests in MSC will be valued at or higher than the applicable NAV per share of the Company at the time of the Purchases, shareholders of the Company will not experience dilution in the NAV per share of the Company's common stock in connection with the Purchases. Furthermore, applicants note that the Company will merely be acquiring additional interests in a company (MSC) in which it already owns a majority interest and will be doing so at a price calculated using the same formula which was used to acquire its current majority interest.

6. For these reasons, applicants represent that the terms of the Purchases meet the standards set forth in section 57(c).

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Kevin M. O'Neill,
Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-66169; File No. SR-ISE-2012-01]

Self-Regulatory Organizations; International Securities Exchange, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to Fees and Rebates

January 17, 2012.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Exchange Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that, on January 3, 2012, the International Securities Exchange, LLC (the "Exchange" or the "ISE") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit

comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The ISE is proposing to (i) amend the threshold levels and rebate amounts for Qualified Contingent Cross ("QCC") orders and Solicitation orders, (ii) lower the service fee for QCC orders in the Exchange's fee cap program, and (iii) increase the "take" fee for certain customer orders that remove liquidity in a select group of options classes. The text of the proposed rule change is available on the Exchange's Web site (<http://www.ise.com>), at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to (i) amend the threshold levels and rebate amounts for QCC and Solicitation orders, and (ii) lower the service fee for QCC orders in the Exchange's fee cap program, both of which are designed to encourage Members to submit greater numbers of QCC orders and Solicitation orders to the Exchange. The Exchange currently provides a rebate to Members who reach a certain volume threshold in QCC orders and/or Solicitation orders during a month.³ Once a Member reaches the volume threshold, the Exchange provides a rebate to that Member for all of its QCC and Solicitation traded contracts for that month. The rebate is

³ See Exchange Act Release Nos. 65087 (August 10, 2011), 76 FR 50783 (August 16, 2011) (SR-ISE-2011-47); 65583 (October 18, 2011), 76 FR 65555 (October 21, 2011) (SR-ISE-2011-68); 65705 (November 8, 2011), 76 FR 70789 (November 15, 2011) (SR-ISE-2011-70); and 65898 (December 6, 2011), 76 FR 77279 (December 12, 2011) (SR-ISE-2011-78).

paid to the Member entering a qualifying order, *i.e.*, a QCC order and/or a Solicitation order. The rebate applies to QCC orders and Solicitation orders in all symbols traded on the Exchange. Additionally, the threshold levels are based on the originating side so if, for example, a Member submits a Solicitation order for 1,000 contracts, all 1,000 contracts are counted to reach the established threshold even if the order is broken up and executed with multiple counter parties.

The current volume threshold and corresponding rebate per contract is:

Originating contract sides	Rebate per contract
0-199,999	\$0.00
200,000-999,999	0.02
1,000,000-1,699,999	0.03
1,700,000-1,999,999	0.04
2,000,000+	0.05

The Exchange now proposes to amend the current tiers by: (1) Increasing the rebate amount for the second tier (200,000-999,999 contracts) from \$0.02 per contract to \$0.05 per contract; (2) adjusting the third tier (1,000,000-1,699,999 contracts) so that it becomes 1,000,000-1,599,999 contracts and increasing the rebate amount for the adjusted third tier from \$0.03 per contract to \$0.08 per contract; (3) eliminating the fourth tier (1,700,000-1,999,999 contracts), in its entirety; and (4) adjusting the last tier (2,000,000+ contracts) so that it becomes 1,600,000+ contracts and increasing the rebate amount for the adjusted last tier from \$0.05 per contract to \$0.10 per contract. With the proposed changes to the tiers, the Exchange is attempting to strike the right balance between the number of qualifying contracts and its corresponding rebate to ensure that the incentive program achieves its intended purpose of attracting greater order flow from its Members. The proposed changes to this tier-based rebate program is also a competitive response to recent changes proposed by a competitor exchange to rebates it offers for QCC transactions executed on that exchange.⁴

With the proposed amended tiers, the volume threshold and corresponding rebate per contract will be as follows:

Originating contract sides	Rebate per contract
0-199,999	\$0.00
200,000-999,999	0.05
