Rural Utilities Service

Title: 7 CFR Part 1724 and Part 1738 Electric Engineering, Architectural Services and Design Policies and Procedures; and Rural Broadband Access Loans and Loan Guarantees.

OMB Control Number: 0572-0118.

Summary of Collection: The Rural Electrification Act of 1936, 7 U.S.C. 901 *et seq.*, as amended, authorizes Rural Utilities Service (RUS) to make loans in several States and Territories of the United States for broadband access and rural electrification and the furnishing and improving of electric energy to persons in rural areas. Title 7 CFR 1724 requires each borrower to select a qualified architect to perform certain architectural services and to use the designated form that provides for these services. The agency has developed standardized contractual forms used by borrowers to contract for services.

Need and Use of the Information: The information collected stipulates the parties to the agreement, contains certain information relating to the approved loan or loan guarantee, and provides detailed contractual obligations and services to be provided and performed relating to construction, project design, construction management, compensation, and related information. The contractual forms provide standardized contract agreements between the electric or broadband borrower and the engineering or architectural firm providing services to the borrower. This has resulted in substantial savings to borrowers by reducing preparation of the documentation and the costly review by the government.

Description of Respondents: Business or other for-profit; Not-for-profit institutions.

Number of Respondents: 99.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 104.
