

Needs and Uses: The National Oceanic and Atmospheric Administration (NOAA) collects information to implement the International Dolphin Conservation Program Act (Act). The Act allows entry of yellowfin tuna into the United States (U.S.), under specific conditions, from nations in the International Dolphin Conservation Program that would otherwise be under embargo. The Act also allows U.S. fishing vessels to participate in the yellowfin tuna fishery in the eastern tropical Pacific Ocean (ETP) on terms equivalent with the vessels of other nations. NOAA collects information to allow tracking and verification of "dolphin safe" and "non-dolphin safe" tuna products from catch through the U.S. market.

The regulations implementing the Act are at 50 CFR parts 216 and 300. The recordkeeping and reporting requirements at 50 CFR parts 216 and 300 form the basis for this collection of information. This collection includes permit applications, notifications, tuna tracking forms, reports, and certifications that provide information on vessel characteristics and operations in the ETP, the origin of tuna and tuna products, and certain other information necessary to implement the Act.

Affected Public: Business or other for-profit organizations.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and

Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: NWHI Mokupapapa Discovery Center Exhibit Evaluation.

OMB Control Number: 0648-0582.

Form Number(s): NA.

Type of Request: Regular submission (revision and extension of a current information collection).

Number of Respondents: 250.

Average Hours per Response: 7 minutes, 30 seconds.

Burden Hours: 31.

Needs and Uses: This request is for a revision and extension of a currently approved information collection. Mokupapapa Discovery Center (Center) is an outreach arm of Papahānaumokuākea Marine National Monument that reaches 60,000 people each year in Hilo, Hawai'i. The Center was created eight years ago to help raise support for the creation of a National Marine Sanctuary in the Northwestern Hawaiian Islands. Since that time, the area has been proclaimed a Marine National Monument and the main messages NOAA is trying to share with the public have changed to better reflect the new monument status, UNESCO World Heritage status and the joint management by the three co-trustees of the Monument. NOAA therefore is seeking to find out if people visiting our Center are receiving our new messages by conducting an optional exit survey. The exit survey is the basis for the information collection revision.

Affected Public: Individuals or households.

Frequency: One time.

Respondent's Obligation: Voluntary.

OMB Desk Officer:

OIRA_Submission@omb.eop.gov.

U.S. Census Bureau

Proposed Information Collection; Comment Request; Special Census Program

AGENCY: U.S. Census Bureau.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: To ensure consideration, written comments must be submitted on or before March 30, 2012.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW, Washington, DC 20230 (or via the Internet at jjessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Direct all requests for additional information, or copies of the information collection instrument(s), and instructions to J. Michael Stump or Tashakima Cross Bowser, Bureau of the Census, 4600 Silver Hill Road, Field Division, Special Census Branch, Location 5H117, Washington, DC 20233 and/or call (301) 763-1429.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Special Census Program is a reimbursable service offered and performed by the Census Bureau for the government of any state, county, city, or other political subdivision within a state. This includes the District of Columbia, the government of any possession or area over which the U.S. exercises jurisdiction, control, or sovereignty, and other governmental units that require current population data between decennial censuses.

Many states use Special Census population statistics to determine the distribution of funds to local jurisdictions. The local jurisdictions

may also use the data to plan new schools, transportation systems, housing programs, or water treatment facilities.

The Census Bureau will use the following forms to conduct the various Special Census operations:

SC-1, Special Census Enumerator Questionnaire—This interview form will be used to collect special census data at regular housing units (HU), and eligible units in Transient Locations (TL) such as RV parks, marinas, campgrounds, hotels or motels.

SC-1 (SUPP), Continuation Form for Enumerator Questionnaires—This interview form will be used to collect special census data at a regular HU or eligible units in a TL, when there are more than five members in a household.

SC-1 (Phone/WYC), Special Census Enumeration Questionnaire—This interview form will be used to collect special census data when a respondent calls the local special census office.

SC-2, Group Quarters Questionnaire—This interview form will be used to collect special census data at group quarters (GQ) such as hospitals, prisons, boarding and rooming houses, college dormitories, military facilities, and convents.

SC-3 (RI), Enumeration Reinterview Form—This is a quality assurance form used by enumerators to conduct an independent interview at a sample of HUs. Special Census office staff will compare the data collected on this form with the original interview to make sure the original enumerator followed procedures.

SC-116, Group Quarters Enumeration Control Sheet—This page will be used by Special Census enumerators to list residents/clients at GQs.

SC-117, TL Enumeration Record—This forms will be used by office staff to collect contact information and schedule interviews for TLs, to determine the type of TL, and to estimate the number of interviews to be conducted.

SC-351, Group Quarters Initial Contact Checklist—This checklist will be used by enumerators to collect contact information and to determine the type of GQ.

SC-920, Address Listing Page— This page will include existing addresses from the MAF. Special Census enumerators will update these addresses, if needed, at the time of enumeration.

SC-921(HU), Housing Unit Add Page—This page will be used by enumerators to add HUs that are observed to exist on the ground, that are not contained on the address listing page.

SC-921(GQ), Group Quarter Add Page—This page will be used by enumerators to add GQs that are observed to exist on the ground, that are not contained on the address listing page.

SC-1(F), Information Sheet, and the Confidentiality Notice—This notice is required by the Privacy Act of 1974. Special Census field staff are required by law to give an Information Sheet to each person from whom they request census-related information.

The Special Census Program will include a library of forms and the operational procedures used for the many Special Censuses we anticipate conducting this decade. The Census Bureau will establish a reimbursable agreement with a variety of potential special census customers that are unknown at this time. No additional documentation will be provided to OMB in advance of conducting any Special Census utilizing the library of standard forms and procedures. However, any deviation from the standard forms or procedures, such as asking additional questions, will be submitted to OMB for approval. The Special Census program will provide OMB an annual report summarizing the activity under the clearance for the year.

II. Method of Collection

The Special Census Program will use the Census 2010 Update/Enumerate (U/E) methodology. Enumerators will canvass their assigned areas, with an address register that contains addresses obtained from the MAF. Special Census enumerators will update the address information as needed, based on their observation of HUs, TLs or GQs that exist on the ground. Additionally, enumerators will interview households at regular HUs, eligible units at TLs, and residents at GQs using the appropriate Special Census forms.

III. Data
