

and public participation in protecting the nation's drinking water. The agency's CCR retrospective review will look for opportunities to improve the effectiveness of communicating drinking water information to the public, while lowering the burden on water systems and States. One example suggested by water systems is to allow electronic delivery through email, thereby reducing mailing charges. As EPA evaluates alternative delivery options and other opportunities to improve communication with consumers, the agency will consider impacts on consumer burden, environmental justice, and State implementation. By improving communication, customers are better prepared to make informed decisions and the readership of CCRs also may increase.

SUPPLEMENTARY INFORMATION:

Background

On November 29, 2011, PHMSA issued a notice of proposed rulemaking (NPRM) that would make miscellaneous amendments to the pipeline safety regulations (76 FR 73570). On January 12, 2012, the Interstate Natural Gas Association of America requested an extension of the comment period for that NPRM. On January 20, 2012, the Committee on Pipe and Tube Imports Ad Hoc Large Diameter Line Pipe Producers Group Transportation Subcommittee also requested an extension of the comment period to further review a National Transportation Safety Board (NTSB) recommendation that would impact guidelines on the transportation of pipe. PHMSA believes that extension of the comment period is warranted based on the information

provided in these requests. Therefore, PHMSA has extended the comment period from February 3, 2012 to March 6, 2012.

Issued in Washington, DC, on January 30, 2012.

Jeffrey D. Wiese,

Associate Administrator for Pipeline Safety.

Pipeline Safety: Expanding the Use of Excess Flow Valves in Gas Distribution Systems to Applications Other Than Single-Family Residences

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA); DOT.

ACTION: Advance notice of proposed rulemaking; extension of comment period.

SUMMARY: On November 25, 2011, PHMSA published in the **Federal Register** an Advance Notice of Proposed Rulemaking (ANPRM), titled: "Pipeline Safety: Expanding the Use of Excess Flow Valves (EFVs) in Gas Distribution Systems to Applications Other Than Single-Family Residences." The ANPRM sought public comment on several issues related to expanding the use of EFVs in gas distribution systems. On January 10, 2012, PHMSA received a request to extend the comment period to provide additional time to respond to the ANPRM. In light of that request, PHMSA is extending the comment period from February 18, 2012, to March 19, 2012.

DATES: The closing date for filing comments is extended from February 18, 2012, until March 19, 2012.
