SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this notice apply to me?

This notice applies to five facilities considered to be fluorinated gas production facilities under subpart L (Fluorinated Gas Production) of the Mandatory Greenhouse Gas Reporting rule (40 CFR part 98). These facilities are Honeywell International's Buffalo Research Laboratory and DuPont's Fayetteville, North Carolina; Deepwater, New Jersey; Washington Works, West Virginia; and Eldorado, Arkansas facilities. This notice may also be of interest to members of the public with knowledge of or interest in the estimation of global warming potentials.

B. What is this notice about?

This notice announces and explains to the public EPA's preliminary determinations regarding the provisional global warming potentials (GWPs) for eight fluorinated greenhouse gases (GHGs) submitted by E. DuPont de Nemours, Inc. (DuPont) and Honeywell International (Honeywell) for the purposes of the calculations in 40 CFR 98.123(c)(1) (a provision of subpart L of the Mandatory Greenhouse Gas Reporting rule). EPA's preliminary determination is that the requests for seven of the eight fluorinated GHGs meet the requirements of the rule. As discussed further below, the calculations in 40 CFR 98.123(c)(1) are used to determine whether a facility must use stack testing to establish an emission factor for a continuous process vent. For continuous process vents that are calculated to emit less than 10,000 metric tons carbon-dioxide equivalent (mtCO₂e) annually, facilities have the option to use engineering calculations rather than stack testing to establish an emission factor.

C. What information is EPA making available for review and comment?

EPA is making available for review and comment provisional GWPs for fluorinated GHGs submitted by Dupont and Honeywell for the purposes of the calculations in 40 CFR 98.123(c)(1). EPA is also making available to the public the underlying materials in the submitted requests that were used to estimate the provisional GWPs, and EPA's analysis of those materials.

D. Where can I get more information?

All of the information can be obtained through the Docket and at <http://www.regulations.gov> (see **ADDRESSES** section above for docket contact information).
