II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

NASDAQ is proposing to amend the fees assessed under Rule 7015(e) for WebLink ACT. WebLink ACT, also referred to as Nasdaq Workstation Post Trade, is a web-based application used for submission of trade reports. WebLink ACT provides basic front-end access to the Trade Reporting Facility (“TRF”) operated by NASDAQ and the Financial Industry Regulatory Authority, Inc. (“FINRA”),³ FINRA’s OTC Reporting Facility, as well as access to ACT functionality still offered by NASDAQ under authority delegated by FINRA.

NASDAQ proposes to increase the monthly fee assessed for greater than twenty trades per day by \$50, so that the fee will be \$425, and increase the monthly fee assessed for less than twenty trades a day by \$25, so that the

³ NASDAQ notes that most FINRA members seeking access to the TRF use a proprietary front-end system developed by the broker-dealer or a product offered by a service bureau. WebLink ACT is designed as a basic front-end system for low volume users.

fee will be \$225. NASDAQ notes that the WebLink ACT fees have not increased since September 2006.⁴ Over that time, NASDAQ has experienced rising infrastructure and support costs associated with the service, including the addition of useful enhancements. For example, NASDAQ added two new additional levels of permissions, for a total of three (*i.e.*, Full Access, Clearing-Only Access and Read-Only Access), which allows a subscribing member firm to better tailor the subscription commensurate with the role of the intended user. NASDAQ also added a "Match" feature to the trade scan window in order to provide contra parties with a matching trade entry to keep for their records.⁵ Another enhancement NASDAQ made to WebLink ACT is the addition of three new WebLink scans. The Eligibility scan allows customers to look up a symbol or CUSIP to check whether it is eligible for reporting to ACT. The Clearing scan allows customers to look up a firm and see their clearing firm or whether they are self clearing. The AGU/QSR scan provides a list of all the Automatic Give Up and Qualified Service Representative agreements the customer has on file and with which firm.

Given the increased costs incurred since NASDAQ last increased its fee in September 2006, NASDAQ believes that it is appropriate to now increase the fees assessed for this service to allow recovery of NASDAQ's costs. NASDAQ anticipates that the proposed fees may provide NASDAQ with a profit, in addition to covering costs.

2. Statutory Basis

NASDAQ believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,⁶ in general, and Section 6(b)(4) of the Act,⁷ in particular, because it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system that NASDAQ operates or controls, and it does not unfairly discriminate between customers, issuers, brokers or dealers. NASDAQ believes that the proposal constitutes an equitable allocation of fees because all similarly-situated

member firms would be charged the same amount. In addition, access to NASDAQ will continue to be offered on fair and non-discriminatory terms.

NASDAQ believes that the proposal is reasonable because the fee increase will realign the cost of administering and enhancing the service with the revenue generated by the fee, which have diverged since the fee was last increased in September 2006. As a consequence of adding enhancements, such as those noted above, the value of the service has incrementally increased over time and NASDAQ believes that it is appropriate to now raise the fees to better align them with the increased value of the service. In addition, NASDAQ believes that the proposed fees will cover the costs associated with responding to customer requests, configuring NASDAQ's systems, programming to user specifications, and administering the service, among other things, and may provide NASDAQ with a profit.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act⁸ and subparagraph (f)(2) of Rule 19b-4 thereunder.⁹ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
