#### SUPPLEMENTARY INFORMATION:

##### I. Purpose and Information Sought

This notice is for data gathering and planning purposes only, does not constitute a solicitation, and is not to be construed as a commitment by the government to issue a solicitation, Blanket Purchase Agreement (BPA) or award a contract. The Government will not reimburse any respondent for any costs associated with information submitted in response to this notice.

GSA seeks to determine whether providing refurbishment as a service to Federal agencies fits into viable business models, what appropriate standards and certifications ought to be considered, and how best to build Federal contracts for such services. GSA is seeking this information through

voluntary responses to the following questions:

1. If you currently provide refurbishment as a service to customers, including Federal, state, or local government entities, describe the process of obtaining equipment and returning it to the customer, including the typical amount of time between pick-up and return.

2. Is there a minimum number of pieces of electronic equipment that must be provided (e.g., a pallet load, a truckload)?

3. Does providing refurbishment as a service (rather than refurbished equipment) fit into viable business models for computer refurbishment companies?

4. How do the fees you charge per refurbished item compare to the cost of new or used equipment?

5. Describe the process for disposing and recycling of failed equipment. Have all facilities in your recycling and disposal process been certified to safely recycle and manage electronics? If so, what certifications do they hold?

6. Who is responsible for disposition of equipment that cannot be refurbished, the customer or the provider of refurbishment services? Is there an additional fee for disposition of equipment that cannot be refurbished?

7. What certifications should the government require of firms offering refurbishment services, including those developed specifically for recycling facilities (e.g., R2 and e-Stewards)?

Dated: February 2, 2012.

### Centers for Medicare & Medicaid Services

[Document Identifier: CMS-10421]

#### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** Centers for Medicare & Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS) is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request:* New collection; *Title of Information Collection:* Fee-for-Service Recovery Audit Prepayment Review Demonstration and Prior Authorization Demonstration; *Use:* The Centers for Medicare & Medicaid Services (CMS) is requesting the Office of Management and Budget (OMB) approval of the collections required for two demonstrations of prepayment review and prior authorization. The first demonstration would allow Medicare Recovery Auditors to review claims on a pre-payment basis in certain States. The second demonstration would establish a prior authorization program for Power Mobility Device claims in certain States.

For the Recovery Audit Prepayment Review Demonstration, CMS and its agents will request additional documentation, including medical records, to support submitted claims. As discussed in more detail in Chapter 3 of the Program Integrity Manual, additional documentation includes any medical documentation, beyond what is included on the face of the claim that supports the item or service that is billed. For Medicare to consider coverage and payment for any item or service, the information submitted by the provider or supplier (e.g., claims) must be supported by the documentation in the patient's medical records. When conducting complex medical review, the contractor specifies documentation they require in accordance with Medicare's rules and policies. In addition, providers and suppliers may supply additional documentation not explicitly listed by the contractor. This supporting information may be requested by CMS and its agents on a routine basis in instances where diagnoses on a claim do not clearly indicate medical necessity, or if there is a suspicion of fraud.

For the Prior Authorization of Power Mobility Devices (PMDs) Demonstration, CMS will pilot prior authorization for Power Mobility Devices. Prior authorization will allow the applicable documentation that supports a claim to be submitted before the item is delivered. For prior authorization, relevant documentation for review is submitted before the item is delivered or the service is rendered. CMS will conduct this demonstration in California, Florida, Illinois, Michigan, New York, North Carolina and Texas based on beneficiary address as reported to the Social Security Administration and recorded in the Common Working File (CWF). For the demonstration, a prior authorization request can be completed by the (ordering) physician
