

concerning access to information. The availability of interlocutory review by the Commission of orders ruling on such NRC staff determinations (whether granting or denying access) is governed by 10 CFR 2.311.³

I. The Commission expects that the NRC staff and presiding officers (and any other reviewing officers) will consider and resolve requests for access

to SUNSI, and motions for protective orders, in a timely fashion in order to minimize any unnecessary delays in identifying those petitioners who have standing and who have propounded contentions meeting the specificity and basis requirements in 10 CFR part 2. Attachment 1 to this Order summarizes the general target schedule for

processing and resolving requests under these procedures.

It is so ordered.

For the Nuclear Regulatory Commission.

Dated at Rockville, Maryland, this 2nd day of February 2012.

Annette L. Vietti-Cook,
Secretary of the Commission.

ATTACHMENT 1—GENERAL TARGET SCHEDULE FOR PROCESSING AND RESOLVING REQUESTS FOR ACCESS TO SENSITIVE UNCLASSIFIED NON-SAFEGUARDS INFORMATION IN THIS PROCEEDING

Day	Event/Activity
0	Publication of Federal Register notice of hearing and opportunity to petition for leave to intervene, including order with instructions for access requests.
10	Deadline for submitting requests for access to Sensitive Unclassified Non-Safeguards Information (SUNSI) with information: supporting the standing of a potential party identified by name and address; describing the need for the information in order for the potential party to participate meaningfully in an adjudicatory proceeding.
60	Deadline for submitting petition for intervention containing: (i) Demonstration of standing; (ii) all contentions whose formulation does not require access to SUNSI (+25 Answers to petition for intervention; +7 requestor/petitioner reply).
20	Nuclear Regulatory Commission (NRC) staff informs the requestor of the staff's determination whether the request for access provides a reasonable basis to believe standing can be established and shows need for SUNSI. Applicants' Representations

1. The Trust is organized as a Delaware statutory trust and is registered under the Act as an open-end management investment company. DoubleLine, the Trust's investment adviser, is organized as a Delaware limited partnership and is a registered investment adviser under the Investment Advisers Act of 1940, as amended (the "Advisers Act").

2. Applicants request the exemption to the extent necessary to permit any existing or future series of the Trust and any other registered open-end management investment company or series thereof that (i) is advised by DoubleLine or any person controlling, controlled by or under common control with DoubleLine (any such adviser or DoubleLine, an "Adviser");¹ (ii) is in the same group of investment companies as defined in section 12(d)(1)(G) of the Act; (iii) invests in other registered open-end management investment companies ("Underlying Funds") in reliance on section 12(d)(1)(G) of the Act; and (iv) is also eligible to invest in securities (as defined in section 2(a)(36) of the Act) in reliance on rule 12d1-2 under the Act (each a "Fund of Funds," and together with the Underlying Funds, the "Funds"), to also invest, to the extent consistent with its investment objectives, policies, strategies and limitations, in financial instruments that may not be securities within the meaning of section 2(a)(36) of the Act ("Other Investments").² Applicants also

request that the order exempt any entity, including any entity controlled by or under common control with an Adviser, that now or in the future acts as principal underwriter, or broker or dealer if registered under the Securities Exchange Act of 1934, as amended ("Exchange Act"), with respect to the transactions described in the application.

3. Consistent with its fiduciary obligations under the Act, each Fund of Funds' board of trustees will review the advisory fees charged by the Fund of Funds' Adviser to ensure that they are based on services provided that are in addition to, rather than duplicative of, services provided pursuant to the advisory agreement of any investment company in which the Fund of Funds may invest.

Applicants' Legal Analysis

1. Section 12(d)(1)(A) of the Act provides that no registered investment company ("acquiring company") may acquire securities of another investment company ("acquired company") if such securities represent more than 3% of the acquired company's outstanding voting stock or more than 5% of the acquiring company's total assets, or if such securities, together with the securities of other investment companies, represent more than 10% of the acquiring company's total assets. Section 12(d)(1)(B) of the Act provides that no registered open-end investment company may sell its securities to another investment company if the sale will cause the acquiring company to own more than 3% of the acquired company's voting stock, or cause more than 10% of the acquired company's voting stock to be owned by investment companies and companies controlled by them.

2. Section 12(d)(1)(G) of the Act provides, in part, that section 12(d)(1) will not apply to securities of an acquired company purchased by an acquiring company if: (i) The acquired company and acquiring company are part of the same group of investment companies; (ii) the acquiring company holds only securities of acquired companies that are part of the same group of investment companies, government securities, and short-term paper; (iii) the aggregate sales loads and distribution-related fees of the acquiring company and the acquired company are not excessive under rules adopted pursuant to section 22(b) or section 22(c) of the Act by a securities association registered under section 15A

of the Exchange Act or by the Commission; and (iv) the acquired company has a policy that prohibits it from acquiring securities of registered open-end investment companies or registered unit investment trusts in reliance on section 12(d)(1)(F) or (G) of the Act.

3. Rule 12d1-2 under the Act permits a registered open-end investment company or a registered unit investment trust that relies on section 12(d)(1)(G) of the Act to acquire, in addition to securities issued by another registered investment company in the same group of investment companies, government securities, and short-term paper: (i) Securities issued by an investment company that is not in the same group of investment companies, when the acquisition is in reliance on section 12(d)(1)(A) or 12(d)(1)(F) of the Act; (ii) securities (other than securities issued by an investment company); and (iii) securities issued by a money market fund, when the investment is in reliance on rule 12d1-1 under the Act. For the purposes of rule 12d1-2, "securities" means any security as defined in section 2(a)(36) of the Act.

4. Section 6(c) of the Act provides that the Commission may exempt any person, security, or transaction from any provision of the Act, or from any rule under the Act, if such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policies and provisions of the Act.

5. Applicants state that the Funds of Funds will comply with rule 12d1-2 under the Act, but for the fact that the Funds of Funds may invest a portion of their assets in Other Investments. Applicants request an order under section 6(c) of the Act for an exemption from rule 12d1-2(a) to allow the Funds of Funds to invest in Other Investments while investing in Underlying Funds. Applicants assert that permitting the Funds of Funds to invest in Other Investments as described in the application would not raise any of the concerns that the requirements of section 12(d)(1) were designed to address.

Applicants' Condition

Applicants agree that any order granting the requested relief will be subject to the following condition:

Applicants will comply with all provisions of rule 12d1-2 under the Act, except for paragraph (a)(2) to the extent that it restricts any Fund of Funds from investing in Other Investments as described in the application.

¹ Any other Adviser will also be registered under the Advisers Act.

² Every existing entity that currently intends to rely on the requested order is named as an applicant. Any entity that relies on the order in the

future will do so only in accordance with the terms and condition in the application.

For the Commission, by the Division of Investment Management, under delegated authority.

Kevin M. O'Neill,
Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-66306; File No. SR-BX-2011-084]

Self-Regulatory Organizations; NASDAQ OMX BX, Inc.; Order Granting Approval of Proposed Rule Change To Reduce the Duration of the Price Improvement Period ("PIP") From One Second to One Hundred Milliseconds

February 2, 2012.

I. Introduction

On December 7, 2011, NASDAQ OMX BX, Inc. ("Exchange") filed with the Securities and Exchange Commission ("Commission") pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to reduce the duration of the Price Improvement Period ("PIP") of the Boston Options Exchange Group, LLC ("BOX"), a facility of the Exchange, from one second to one hundred milliseconds. The proposed rule change was published for comment in the *Federal Register* on December 22, 2011.³ The Commission received no comments on the proposal. This order approves the proposed rule change.

II. Description of the Proposal

The PIP is an auction system that is used by BOX Options Participants to execute their agency orders as principal, with a potential for customer price improvement. The BOX Options Participant may submit any size customer order, along with a matching contra proprietary order at a price equal to the national best bid or offer, into the PIP. After submission of that customer order, PIP will send out a broadcast message to other BOX Options Participants, who may enter orders ("Improvement Orders") competing against the original contra side proprietary order. At the conclusion of the auction, the customer order would be matched on a price and time priority with orders on the opposite side, subject to certain conditions. Currently, the PIP lasts one second from the dissemination

of the PIP broadcast. The Exchange proposes to reduce the duration of the PIP from one second to one hundred milliseconds.

III. Discussion and Commission Findings

After careful review, the Commission finds that the proposal is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.⁴ In particular, the Commission finds that the proposed rule change is consistent with Section 6(b)(5) of the Act,⁵ which, among other things, requires that the rules of a national securities exchange be designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest.

The Commission believes that, given advances in the electronic trading environment, reducing the duration of the PIP from one second to one hundred milliseconds could facilitate the prompt execution of orders while continuing to provide market participants with an opportunity to compete for bids and/or offers without compromising the ability for adequate exposure and participation in PIP. To substantiate that BOX Options Participants could receive, process, and communicate a response back to BOX within one hundred milliseconds, the Exchange stated that it distributed a survey to its members that would be affected by this proposal or that regularly participate in the PIP. According to the Exchange, 14 of 16 participants responded, at least in part, to the survey, and nine participants responded that they can receive, process, and communicate multiple PIP responses back to BOX within substantially less than 100 milliseconds.⁶

In addition, the Exchange stated that BOX reviewed PIP execution data by its participants during the three-month period from May to July of 2011. The Exchange stated that BOX's review indicated that approximately 85% of Improvement Orders executed at the conclusion of a PIP were submitted within 100 milliseconds of the initial

PIP Order.⁷ Approximately 78% of Improvement Orders executed at the end of a PIP were submitted in less than ten milliseconds, and 70% were submitted in less than five milliseconds.⁸ Thus, according to the Exchange, participants whose PIP responses averaged greater than one hundred milliseconds made a conscious decision to delay responses, but such participants operate electronic systems which enable them to sufficiently react and respond to multiple PIP broadcasts within one hundred milliseconds, if they chose to do so.⁹

Based on the Exchange's statements regarding the survey results and the review of its PIP data, the Commission believes that market participants should continue to have meaningful opportunities to participate in the PIP if the exposure period is reduced to one hundred milliseconds, and accordingly, finds that the proposed rule change is consistent with the requirement of the Act.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹⁰ that the proposed rule change (SR-BX-2011-084), be, and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹¹

Deputy Secretary.
