Pursuant to section 3506(c)(2)(A) of the Paperwork Reduction Act (PRA), EPA is soliciting comments and information to enable it to:

(1) Evaluate whether the proposed collections of information are necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

(2) Evaluate the accuracy of the Agency's estimates of the burdens of the proposed collections of information.

(3) Enhance the quality, utility, and clarity of the information to be collected.

(4) Minimize the burden of the collections of information on those who are to respond, including through the use of appropriate automated or electronic collection technologies, or other forms of information technology, e.g., permitting electronic submission of responses.

(7) To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

II. ICR To Be Renewed

A. For One ICR

The Agency computed the burden for each of the recordkeeping and reporting requirements applicable to the industry for the currently approved ICR listed in this notice. Where applicable, the Agency identified specific tasks and made assumptions, while being consistent with the concept of the PRA.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions to; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The listed ICR addresses Clean Air Act information collection requirements in standards (*i.e.*, regulations) which have mandatory recordkeeping and reporting requirements. Records collected under the National Emission Standards for Hazardous Air Pollutants (NESHAP) must be retained by the owner or operator for at least five years. In general, the required collections consist of emissions data and other information deemed not to be private.

In the absence of such information collection requirements, enforcement personnel would be unable to determine whether the standards are being met on a continuous basis as required by the Clean Air Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless the Agency displays a currently valid OMB control number. The OMB control numbers for the EPA regulations under Title 40 of the Code of Federal Regulations are published in the **Federal Register**, or on the related collection instrument or form. The display of OMB control numbers for certain EPA regulations is consolidated at 40 CFR part 9.

B. What information collection activity or ICR does this apply to?

In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that EPA is

planning to submit one proposed, continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB):

(1) *Docket ID Number:* EPA-HQ-OECA-2012-0034.

Owners or operators of the affected facilities must submit initial notification, performance tests, periodic reports, and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required annually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 11 hours per response.

Respondents/Affected Entities: Owners or operators of metal fabrication and finishing facilities.

Estimated Number of Respondents: 1,933.

Frequency of Response: Initially, and annually.

Estimated Total Annual Hour Burden: 20,566.

Estimated Total Annual Cost: \$655,501, which includes \$655,501 in labor costs, no capital/startup costs, and no operating and maintenance costs.

EPA will consider any comments received and may amend the above ICR, as appropriate. Then, the final ICR package will be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue one or more **Federal Register** notices pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB, and the opportunity to submit additional comments to OMB.
