

northern fur seals, NMFS is publishing the annual fur seal subsistence harvests on St. George and St. Paul Islands (the Pribilof Islands) for 2008 to 2010, and the annual estimates for the fur seal subsistence needs for 2011 through 2013. Alaska Natives on St. Paul harvested 328, 341, and 357 fur seals from 2008, 2009 and 2010, respectively, and 170, 113, and 78 fur seals on St. George Island during the same period. NMFS estimates the annual subsistence needs are 1,645–2,000 seals on St. Paul and 300–500 seals on St. George.

DATES: Effective March 12, 2012.

SUPPLEMENTARY INFORMATION:

Electronic Access

A Final Environmental Impact Statement, harvest reports, and other relevant information are available on the Internet at the following address: <http://www.alaskafisheries.noaa.gov/protectedresources/seals/fur.htm>.

The subsistence harvest from the depleted stock of northern fur seals, *Callorhinus ursinus*, on the Pribilof Islands, Alaska, is governed by regulations found in 50 CFR part 216, subpart F, Taking for Subsistence Purposes. The regulations require NMFS to publish every 3 years a summary of the harvest in the preceding 3 years, and to discuss the number of fur seals expected to be taken over the next 3 years to satisfy the subsistence requirements of residents of the Pribilof Islands (St. Paul and St. George). After a 30-day comment period, NMFS must publish a final notification of the expected annual harvest levels for the next 3 years.

On July 29, 2011 (76 FR 45499), NMFS published the summary of the 2008–2010 fur seal harvests and provided a 30-day comment period on the estimates of subsistence needs for the 2011–2013. No comments were received. Based on past studies, NMFS estimates the annual subsistence needs for Alaskan Natives for the next 3 years are 1,645–2,000 juvenile male fur seals on St. Paul Island, and 300–500 juvenile male fur seals on St. George Island. Background information related to these estimates was included in the proposed harvest estimates published in the **Federal Register** on July 29, 2011.

Classification

National Environmental Policy Act

NMFS prepared an Environmental Impact Statement (EIS) evaluating the impacts on the human environment of the subsistence harvest of northern fur seals. The Final EIS, which is available on the NMFS Web site (see Electronic Access) was subjected to public review (69 FR 53915, September 3, 2004), and the comments were incorporated into the final EIS (May 2005). Therefore, no further environmental impact analyses are required.

Executive Order 12866 and Regulatory Flexibility Act

This action has been determined not to be a significant rule under Executive Order (E.O.) 12866.

The Chief Counsel for Regulation, Department of Commerce, certified to the Chief Counsel for Advocacy of the Small Business Administration that this action would not have a significant economic impact on a substantial number of small entities. The harvest of northern fur seals on the Pribilof Islands, Alaska, is for subsistence purposes only, and the estimate of subsistence need would not have an adverse economic impact on any small entities. Background information related to the certification was included in the proposed estimates published in the **Federal Register** on July 29, 2011. We received no comments on this certification; therefore a regulatory flexibility analysis is not required for this action, and none has been prepared.

Paperwork Reduction Act

This action does not require the collection of information.

Executive Order 13132—Federalism

This action does not contain policies with federalism implications sufficient to warrant preparation of a federalism assessment under E.O. 13132 because this action does not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. Nonetheless, NMFS worked closely with local governments in the Pribilof Islands, and these estimates of subsistence needs were prepared by the local governments in St. Paul and St. George, with assistance from NMFS officials.

Executive Order 13175—Native Consultation

Executive Order 13175 of November 6, 2000 (25 U.S.C. 450 Note), the

executive Memorandum of April 29, 1994 (25 U.S.C. 450 note), and the American Indian Native Policy of the U.S. Department of Commerce (March 30, 1995) outline the responsibilities of the National Marine Fisheries Service in matters affecting tribal interests. Section 161 of Public Law 108–100 (188 Stat. 452) as amended by section 518 of Public Law 108–447 (118 Stat. 3267), extends the consultation requirements of E.O. 13175 to Alaska Native corporations. NMFS has contacted the tribal governments of St. Paul and St. George Islands and their respective local Native corporations (Tanadgusix and Tanaq) about setting the next three years harvest estimates and received their input.

Dated: February 3, 2012.

Alan D. Risenhoover,

Acting Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 101126522–0640–2]

RIN 0648–XA988

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod by Vessels Using Pot Gear in the Western Regulatory Area of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific cod by vessels using pot gear in the Western Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the A season allowance of the 2012 Pacific cod total allowable catch apportioned to vessels using pot gear in the Western Regulatory Area of the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), February 6, 2012, through 1200 hrs, A.l.t., September 1, 2012.

FOR FURTHER INFORMATION CONTACT: Obren Davis, (907) 586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of

Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679. Regulations governing sideboard protections for GOA groundfish fisheries appear at subpart B of 50 CFR part 680.

The A season allowance of the 2012 Pacific cod total allowable catch (TAC) apportioned to vessels using pot gear in the Western Regulatory Area of the GOA is 4,100 metric tons (mt), as established by the final 2011 and 2012 harvest specifications for groundfish of the GOA (76 FR 11111, March 1, 2011), revision to the final 2012 harvest specifications for Pacific cod (76 FR 81860, December 29, 2011), and inseason adjustment to the final 2012 harvest specifications for Pacific cod (77 FR 438, January 5, 2012).

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator) has determined that the A season allowance of the 2012 Pacific cod TAC apportioned to vessels using pot gear in

the Western Regulatory Area of the GOA will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 4,090 mt and is setting aside the remaining 10 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Pacific cod by vessels using pot gear in the Western Regulatory Area of the GOA. After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is

impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the directed fishing closure of Pacific cod for vessels using pot gear in the Western Regulatory Area of the GOA. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of February 3, 2012.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 6, 2012.

Carrie Selberg,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
