Jimbilnan, Pinto Valley, Black Canyon, Eldorado, Ireteba Peaks, Nellis Wash, Spirit Mountain, and Bridge Canyon Wilderness Areas Wilderness Management Plan/Environmental Impact Statement, Lake Mead National Recreation Area

AGENCY: National Park Service, Interior.

ACTION: Notice of Intent to Prepare an Environmental Impact Statement for the Wilderness Management Plan for the

Jimbilnan, Pinto Valley, Black Canyon, Eldorado, Ireteba Peaks, Nellis Wash, Spirit Mountain, and Bridge Canyon Wilderness Areas, Lake Mead National Recreation Area, Nevada.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), the National Park Service (NPS) is the lead agency for the preparation of an environmental impact statement (EIS) for a wilderness management plan for eight wilderness areas in Lake Mead National Recreation Area, three of which are partially located on adjacent Bureau of Land Management (BLM) lands. The BLM will serve as a cooperating agency in the preparation of the EIS. The wilderness management plan (plan) will establish management goals for these wilderness areas, develop long term direction for monitoring and preserving wilderness character (*i.e.*, natural, untrammeled, undeveloped, and outstanding opportunities for solitude or primitive and unconfined recreation) in the wilderness areas, while also providing for the use and enjoyment of the areas by current and future generations. Additionally, this plan will provide for accountability, interagency consistency, and continuity in the stewardship of these NPS and BLM wilderness areas.

SUPPLEMENTARY INFORMATION: A range of alternatives for stewardship of these eight wilderness areas, consistent with the requirements of the Wilderness Act of 1964, will be developed through this planning process and will include at least no-action and preferred alternatives. Issues the EIS/plan is expected to address will include identifying appropriate uses for these areas; providing for access within, and information about, the wilderness areas while protecting wilderness character; providing for reasonable use of Spirit Mountain and adjacent areas in a manner meeting tribal needs and concerns; restoring disturbed areas within the wilderness areas; and coordinating agency management efforts. The EIS will evaluate and compare the potential environmental consequences of all the alternatives, and appropriate mitigation strategies will be included. The "environmentally preferred" alternative will also be identified.

In April, 2010 the NPS and BLM released an Environmental Assessment for the proposed plan. Issues and concerns emerged in regards to appropriateness of use of fixed anchors (*e.g.*, bolting) in wilderness, and conflicts between recreational use and cultural resource protection and Tribal interests could not be resolved.
