BILLING CODE 4410-15-P

DEPARTMENT OF LABOR

Employment and Training Administration

Notice of a Change in Status of an Extended Benefit (EB) Period for New Mexico

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice.

SUMMARY: This notice announces a change in status of the payable periods under the EB program for New Mexico.

The following change has occurred since the publication of the last notice regarding the State's EB status:

- The Federal authorization to have a three year look-back was recently extended to February 29, 2012. However, New Mexico used a hard end date in state law for the expiration of its three year look-back provision. As a result, New Mexico's three year look-back legislation has expired. With the expiration of the three year look-back, New Mexico failed to meet the criteria to remain triggered "on" to EB with the week ending January 7, 2012 and the payable period in the EB program for New Mexico concluded January 28, 2012.

The trigger notice covering state eligibility for the EB program can be found at: http://ows.doleta.gov/unemploy/claims_arch.asp.

Information for Claimants

The duration of benefits payable in the EB program, and the terms and

conditions on which they are payable, are governed by the Federal-State Extended Unemployment Compensation Act of 1970, as amended, and the operating instructions issued to the states by the U.S. Department of Labor. In the case of a state beginning an EB period, the State Workforce Agency will furnish a written notice of potential entitlement to each individual who has exhausted all rights to regular benefits and is potentially eligible for EB (20 CFR 615.13(c)(1)).

Persons who believe they may be entitled to EB, or who wish to inquire about their rights under the program, should contact their State Workforce Agency.

Further Information

The NRC is issuing for public comment a draft guide in the agency's "Regulatory Guide" series. This series was developed to describe and make available to the public such information as methods that are acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

DG-1271 is proposed Revision 1 of Regulatory Guide 1.184, "Decommissioning of Nuclear Power Reactors," dated July 2000. This proposed revision of Regulatory Guide 1.184 describes a method that the staff of the NRC considers acceptable for use in complying with the NRC's regulations relating to the decommissioning process for nuclear power reactors.

Backfitting and Issue Finality

As discussed in the "Implementation" section of DG-1271, the NRC has no current intention to impose this regulatory guide on holders of current operating licenses or combined licenses. Accordingly, the issuance of this regulatory guide would not constitute "backfitting" as defined in Title 10 of the Code of Federal Regulations (10 CFR) 50.109(a)(1) of the Backfit Rule or be otherwise inconsistent with the applicable issue finality provisions in 10 CFR part 52.

This regulatory guide may be applied to applications for operating licenses and combined licenses docketed by the NRC as of the date of issuance of the final regulatory guide, as well as future applications for operating licenses and combined licenses submitted after the issuance of the regulatory guide. Such action would not constitute backfitting as defined in 10 CFR 50.109(a)(1) or be otherwise inconsistent with the applicable issue finality provision in 10 CFR part 52, inasmuch as such applicants or potential applicants are not within the scope of entities protected by the Backfit Rule or the
