

disturbance patterns nor do they emulate natural habitat structure. Landscape burning and timber harvest that mimics natural fire would help increase forest resilience, help reduce risk of wildfires, and help create high quality habitats that would benefit neotropical migratory birds, resident birds, small mammals, and big game species. Fire dependent wildlife species would benefit from landscape burning.

Watershed Improvement

Purpose: Reduce potential sediment inputs into the aquatic ecosystem from roads.

Need: There is a need to drain roadside ditchline water away from streams by installing cross drain pipes near live stream crossings. The cross drain pipes collect ditchline water and direct it onto the forest floor. There is also a need to replace existing undersized, damaged, or rusting culverts on streams to minimize failure potential.

There are 283 miles of road within the project area, 200 of which are needed for current and future management. The remaining 83 miles of road have been cleared for decommissioning under the SF/WF Clear Creek Road Decommissioning EA (2011). The roads needed for management can contribute sediment to streams through road surface erosion and potential culvert failures. Surface erosion occurs during spring snowmelt and rain events. Dirt coming off roads is diverted into ditchlines which are often directed into streams. Preliminary surveys show most roads in the area are drained by ditches. Culvert failures can result from undersized, damaged or rusting culverts which can plug with debris and then fail as water saturates the surrounding fill. Failures can contribute large pulses of sediment into streams. Surveys indicate at least 60 miles of road with culverts that are in need of replacement or cleaning. There is a minimum of 40 high or moderate priority culverts in need of replacement, and 12 in need of cleaning. There are an additional 40 low priority culverts in need of replacement and 15 in need of cleaning. The surveyed roads pose the highest risk to streams in the project area.

The desired condition for roads is to have ditchlines that drain road surface water away from streams and onto the forest floor. All culverts at stream crossings are appropriately sized to allow for the passage of material within minimal risk of plugging.

The Proposed Action would:

Improve Forest Health, Provide Goods and Services, Reduce Fuels and Improve Wildlife Habitat

- Conduct “variable retention” regeneration harvest and post harvest burning activities on up to 2500 acres to create early successional plant communities and improve wildlife habitat while re-establishing long-lived early seral tree species. Variable retention harvest would include areas of full retention (clumps), irregular edges, and retention of snags and legacy trees to provide structure and a future source of woody debris. Openings will likely exceed 40 acres.

- Commercially thin approximately 7810 acres to reduce stand densities improve forest health and reduce the chance of crown fire.

- Apply improvement harvest to approximately 311 acres (thin from below) to remove encroachment and ladder fuels from ponderosa pine dominated stands.

- Construct a minimum temporary road system to carry out the proposed action. Roads would be decommissioned after use.

- Pre-commercially thin approximately 1865 acres to reduce stand densities improve forest health and reduce fuels.

- Restore approximately 42 acres of bunchgrass communities through prescribed burning and revegetation with native grasses to improve wildlife winter range through reestablishment of native grasses and forbs.

- Apply approximately 1400 acres of low and mixed severity prescribed fire within the Clear Creek Roadless area to restore natural fire regimes, reduce fuels, improve wildlife habitat and create mosaic forest conditions. Proposed activities are consistent with Idaho Roadless Rule. There is no timber cutting planned within the Clear Creek Roadless area.

Reduce Sediment Production and Address Transportation Needs

- Conduct maintenance on or improve 100–130 miles of system roads including culvert installation or replacement, ditch cleaning, and riprap placement for drainage improvement. It may also include gravel placement, road grading and dust abatement.

- Additional site specific maintenance or improvements would occur to improve watershed conditions on up to 20 miles of roads outside of proposed treatment areas.

- Decommission 2–5 miles of system roads no longer considered necessary for transportation needs.

Possible Alternatives the Forest Service will consider include a no-

action alternative, which will serve as a baseline for comparison of alternatives. The proposed action will be considered along with additional alternatives that will be developed to meet the purpose and need for action, and to address significant issues identified during scoping.

The Responsible Official is Rick Brazell, Nez Perce-Clearwater Forest Supervisor, Clearwater National Forest Supervisor's Office, 12730 Highway 12, Orofino, ID 83544.

The Decision To Be Made is whether to adopt the proposed action, in whole or in part, or another alternative; and what mitigation measures and management requirements will be implemented.

The Scoping Process for the EIS is being initiated with this notice. The scoping process will identify issues to be analyzed in detail and will lead to the development of alternatives to the proposal. The Forest Service is seeking information and comments from other Federal, State, and local agencies; Tribal Governments; and organizations and individuals who may be interested in or affected by the proposed action.

Comments received in response to this notice, including the names and addresses of those who comment, will be a part of the project record and available for public review.

Early Notice of Importance of Public Participation in Subsequent Environmental Review: A draft environmental impact statement will be prepared for comment. The second major opportunity for public input will be when the draft EIS is published. The comment period for the draft EIS will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**. The Draft EIS is anticipated to be available for public review in February 2013.

Dated: January 24, 2012.

Rick Brazell,

Forest Supervisor.

BILLING CODE 3410-11-P

DEPARTMENT OF COMMERCE

International Trade Administration

Proposed Information Collection; Comment Request; Applications for Watch Duty-Exemption and 7113 Jewelry Duty-Refund Program

AGENCY: International Trade Administration, Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before April 17, 2012.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at jjessup@doc.gov).

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to Supriya Kumar, Statutory Import Programs Staff, (202) 482-3530, Supriya.Kumar@trade.gov and fax number (202) 501-7952.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Departments of Commerce and the Interior are required by Public Law 97-446, as amended by Public Law 103-465, Public Law 106-36 and Public Law 108-429, to administer the distribution of watch duty-exemptions and watch and jewelry duty-refunds to program producers in the U.S. insular possessions and the Northern Mariana Islands. The primary consideration in collecting information is the enforcement of the laws and the information gathered is limited to that necessary to prevent abuse of the program and to permit a fair and equitable distribution of its benefits. The Form ITA-340P is used to provide the data to assist in verification of duty-free shipments of watches into the United States and make certain the allocations are not exceeded. Forms ITA-360P and ITA-361P are necessary to implement the duty-refund program for the watch and jewelry producers. Form ITA-360P requires no information unless the recipient wishes to transfer the certificate. Form ITA-361P must be completed each time a certificate holder wishes to obtain a portion, or all, of the duty-refund authorized by the certificate. The duty-refund benefit is issued biannually and the forms are used for the distribution of the duty-refund benefit.

II. Method of Collection

Paper format or electronically.

III. Data

OMB Control Number: 0625-0134.
Form Number(s): ITA-340P, ITA-360P, ITA-361P.

Type of Review: Regular submission (extension of a currently approved information collection).

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 2.
Estimated Time per Response: 6 minutes for Form ITA-340P; 10 minutes for Form ITA-361P; and 1 minute to transfer a certificate using Form ITA-360P.

Estimated Total Annual Burden Hours: 1.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: February 13, 2012.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

Wooden Bedroom Furniture From the People's Republic of China: Extension of Time Limit for the Final Results of the Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: February 17, 2012.

FOR FURTHER INFORMATION CONTACT: Rebecca Pandolph, AD/CVD Operations,

Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230, telephone: (202) 482-3627.

SUPPLEMENTARY INFORMATION: On

February 28, 2011, the Department of Commerce ("Department") published a notice of initiation of an administrative review of the antidumping duty order on wooden bedroom furniture from the People's Republic of China covering the period January 1, 2010, through December 31, 2010.¹ On October 24, 2011, the Department published its preliminary results of the administrative review.² The final results of the administrative review are currently due no later than February 21, 2012.

Statutory Time Limits

In antidumping duty administrative reviews, section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to make a final determination in an administrative review of an antidumping duty order within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the 120-day period to 180 days after publication of the preliminary results (or 300 days if the Department has not extended the time limit for the preliminary results).

Extension of Time Limit for Final Results

The Department has determined that it is not practicable to complete the review within the 120-day time period because it requires additional time to evaluate the arguments and submissions made by interested parties following the *Preliminary Results*. Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time period for completing the final results of the instant administrative review by 30 days until March 22, 2012.

This notice is published pursuant to sections 751(a)(3)(A) and 777(i) of the Act.
