### Federal Aviation Administration

#### 14 CFR Part 71

[Docket No. FAA-2011-0010; Airspace Docket No. 11-AAL-1]

RIN 2120-AA66

#### Amendment of Federal Airways; Alaska

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule; technical amendment.

**SUMMARY:** This technical amendment corrects a final rule published in the **Federal Register** of April 28, 2011; subsequently delayed in the **Federal Register** of June 16, 2011; and announced with a new effective date in the **Federal Register** of December 9, 2011. In that rule, the route description of VHF Omnidirectional Range (VOR) Federal airway V-388 was inadvertently reversed. This technical amendment corrects that error.

**DATES:** Effective date 0901 UTC February 21, 2012. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

**FOR FURTHER INFORMATION CONTACT:** Colby Abbott, Airspace, Regulations, and ATC Procedures Group, Office of Mission Support Services, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591; telephone: (202) 267-8783.

#### History

On April 28, 2011, the FAA published a final rule in the **Federal Register**, Docket No. FAA-2011-0010, Airspace Docket No. 11-AAL-1, that amended Title 14 Code of Federal Regulations part 71 by amending all Federal airways affected by the relocation of the Anchorage VOR navigation aid, (76 FR 23687). Subsequent to that rule, the FAA published in the **Federal Register** of June 16, 2011, a rule delaying the effective date (76 FR 35097), and then published in the **Federal Register** of

December 9, 2011, a rule announcing the new effective date (76 FR 76891). In that rule, the route description for V-388 was published in an east to west direction in error. The correct direction for the route description for V-388 is west to east.

#### Amendment to Final Rule

Accordingly, pursuant to the authority delegated to me, the legal descriptions for V-388 for Airspace Docket No. FAA-2011-0010, Airspace Docket No. 11-AAL-1, as published in the **Federal Register** on April 28, 2011 (76 FR 23687), is corrected as follows:

■ On page 23688, column 2, lines 10 and 11, amend the V-388 description to read:

#### § 71.1 [Amended]

\* \* \* \* \*

“From Kenai, AK; INT Kenai 067° and Anchorage, AK, 208° radials; to Anchorage.” instead of “From Anchorage, AK, to INT Anchorage 208° and Kenai, AK, 067° Kenai, AK.”

Issued in Washington, DC, on February 9, 2012.

**Gary A. Norek,**

*Acting Manager, Airspace, Regulations, and ATC Procedures Group.*

## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

#### 14 CFR Part 71

[Docket No. FAA-2011-1191; Airspace Docket No. 11-ANM-21]

#### Amendment of Class E Airspace; Colorado Springs, CO

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action amends Class E airspace at City of Colorado Springs Municipal Airport, Colorado Springs, CO. Decommissioning of the Black Forest Tactical Air Navigation System (TACAN) has made this action necessary for the safety and management of Instrument Flight Rules (IFR) operations at the airport. This action also adjusts the geographic coordinates of the airport.

**DATES:** Effective date, 0901 UTC, May 31, 2012. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

#### FOR FURTHER INFORMATION CONTACT:

Eldon Taylor, Federal Aviation Administration, Operations Support Group, Western Service Center, 1601 Lind Avenue SW., Renton, WA 98057; telephone (425) 203-4537.

#### SUPPLEMENTARY INFORMATION:

#### History

On November 16, 2011, the FAA published in the **Federal Register** a notice of proposed rulemaking to amend controlled airspace at Colorado Springs, CO (76 FR 70920). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6003, of FAA Order 7400.9V dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in that Order.

#### The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by amending Class E airspace designated as an extension to Class C airspace area for the City of Colorado Springs Municipal Airport, Colorado Springs, CO. Airspace reconfiguration is necessary due to the decommissioning of the Black Forest TACAN. Also, the geographic coordinates of the airport will be updated to coincide with the FAA's aeronautical database. This action is necessary for the safety and management of IFR operations.

The FAA has determined this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106 discusses the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the

scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at City of Colorado Springs Municipal Airport, Colorado Springs, CO.

#### List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

#### Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

#### PART 71—DESIGNATION OF CLASS A, B, C, D AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

**Authority:** 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

#### § 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR Part 71.1 of the Federal Aviation Administration Order 7400.9V, Airspace Designations and Reporting Points, dated August 9, 2011, and effective September 15, 2011 is amended as follows:

*Paragraph 6003 Class E airspace designated as an extension to class C surface areas.*

\* \* \* \* \*

#### ANM CO E3 Colorado Springs, CO [Amended]

City of Colorado Springs Municipal Airport, CO

(Lat. 38°48'21" N., long. 104°42'03" W.)

That airspace extending upward from the surface within 2.4 miles northwest and 1.2 miles southeast of the City of Colorado Springs Municipal Airport 025° bearing extending from the 5-mile radius of the airport to 8.9 miles northeast, and within 1.4 miles each side of the airport 360° bearing extending from the 5-mile radius of the airport to 7.7 miles north of the airport.

Issued in Seattle, Washington, on February 7, 2012.

## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

#### 14 CFR Part 71

[Docket No. FAA–2011–1193; Airspace Docket No. 11–ANM–14]

#### Modification of Area Navigation Route T–288; WY

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action modifies area navigation (RNAV) route T–288 by extending the route westward from the Rapid City, SD, VORTAC to the Gillette, WY, VOR/DME. This extension enhances the efficiency and safety of the National Airspace System (NAS) by supplementing the existing VOR Federal airway structure in that area.

**DATES:** *Effective Dates:* 0901 UTC, April 5, 2012. The Director of the **Federal Register** approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

**FOR FURTHER INFORMATION CONTACT:** Paul Gallant, Airspace, Regulations and ATC Procedures Group, Office of Airspace Services, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591; telephone: (202) 267–8783.

#### SUPPLEMENTARY INFORMATION:

##### History

On December 6, 2011, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM) to modify RNAV route T–288 by adding a new segment between the Rapid City, SD, VORTAC (RAP) and the Gillette, WY, VOR/DME (GCC) (76 FR 76070). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal. No comments were received.

In the NPRM, the state designation (WY) for the KARAS intersection was inadvertently omitted from the route description. With the exception of that editorial change, this amendment is the same as that proposed in the NPRM.

##### The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 to modify RNAV route T–288 by adding a new segment between the Rapid City, SD, VORTAC and the Gillette, WY, VOR/DME. The extension supplements the existing VOR Federal airway structure to provide alternative routing

between Gillette and Rapid City in the event of navigation aid outages.

RNAV routes are published in paragraph 6011 of FAA Order 7400.9V signed August 9, 2011 and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The jet route listed in this document will be published subsequently in the Order.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it expands RNAV route coverage to enhance the safe and efficient flow of traffic in the western United States.

##### Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, “Environmental Impacts: Policies and Procedures,” paragraph 311a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
