

products and byproducts into the United States. These include applications, agreements, certificates, certifications by foreign national governments, compliance agreements, permissions to import, placards on vehicles, statements on manifests, bills of lading, or waybills, and reports.

These activities are currently approved by the Office of Management and Budget (OMB) under OMB control number 0579-0015 and apply to a variety of animal and poultry products and byproducts imported into the United States, including, but not limited to, nonfood animal and poultry products and byproducts. We are proposing to separate the commodities approved under OMB control number 0579-0015 into individual collections to better reflect the commodities' specific collection activities and account for the information APHIS collects. Once approved by OMB, only information collection activities associated with the importation of nonfood animal and poultry products and byproducts will be under OMB control number 0579-0015, and the title of this information collection will name these commodities.

We are publishing separate **Federal Register** notices for the other collections, which will receive new OMB control numbers when approved.

We are asking the Office of Management and Budget (OMB) to approve our use of the information collection activities for nonfood animal and poultry products and byproducts for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection under OMB control number 0579-0015. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.73241 hours per response.

Respondents: Foreign national governments, foreign port personnel, foreign exporters, nonprofit and profit U.S. importers, museums, educational institutions, transportation operators, and carrier personnel.

Estimated annual number of respondents: 3,334.

Estimated annual number of responses per respondent: 1.342831434.

Estimated annual number of responses: 4,477.

Estimated total annual burden on respondents: 3,279 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC this 21st day of February 2012.

Kevin Shea,
