SUPPLEMENTARY INFORMATION:

Public Participation and Request for Comments

This Notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collections. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICRs should be granted based on the Collections being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collections; (2) the accuracy of the estimated burden of the Collections; (3) ways to enhance the quality, utility, and clarity of information subject to the Collections; and (4) ways to minimize the burden of the Collections on respondents, including the use of automated collection techniques or other forms of

information technology. These comments will help OIRA determine whether to approve the ICR referred to in this Notice.

We encourage you to respond to this request by submitting comments and related materials. Comments to Coast Guard or OIRA must contain the OMB Control Number of the ICR. They must also contain the docket number of this request, [USCG-2011-1061], and must be received by March 29, 2012. Information Collection Request

Title: Applications for Private Aids to Navigation and for Class I Private Aids to Navigation on Artificial Islands and Fixed Structures.

OMB Control Number: 1625-0011.

Type of Request: Extension of a currently approved collection.

Respondents: Owners of private aids to navigation.

Abstract: Under 14 U.S.C. 81, the Coast Guard is authorized to establish aids to navigation. Title 14 U.S.C. section 83 prohibits establishment of aids to navigation without permission of the Coast Guard. Title 33 CFR section 66.01-5 provides a means for private individuals to establish privately maintained aids to navigation. Under 43 U.S.C. 1333, the Coast Guard has the authority to promulgate and enforce regulations concerning lights and other warning devices relating to the promotion of safety of life and property on the artificial islands, installations, and other devices on the outer continental shelf involved in the exploration, development, removal, or transportation of resources therefrom. Title 33 CFR section 67.35-1 prescribes the type of aids to navigation that must

be installed on artificial islands and fixed structures.

To obtain approval to establish a private aid to navigation, applicants must submit either CG Form 2554 (Private Aids to Navigation Application) or CG Form 4143 (Application for Class 1 Private Aids to Navigation on Artificial Islands and Fixed Structures). The forms collect information about the private aid to navigation (type, color, geographic position), as well as the applicant's contact information. The information is stored in the Coast Guard's Integrated Aids to Navigation System (I-ATONIS). I-ATONIS is the Coast Guard's comprehensive database for managing information about aids to navigation.

Collecting the applicant's contact information is important because it allows the Coast Guard to contact the applicant should there be a discrepancy or mishap involving the permitted private aid to navigation. Certain discrepancies create hazards to navigation and must be immediately corrected or repaired. I-ATONIS has user access controls in place to govern who may view or access the information. The contact information is only available to Coast Guard aids to navigation personnel and contact is only initiated if the private aid to navigation becomes discrepant or in need of repair.

Forms: CG-2554 and CG-4143.

Burden Estimate: The estimated burden remains 3,000 hours a year.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended.

Dated: February 20, 2012.

R.E. Day,

Rear Admiral, U.S. Coast Guard, Assistant Commandant for Command, Control, Communications, Computers and Information Technology.
