

greater floodplain connectivity, and improved extent and quality of riparian habitat. A detailed assessment of the geomorphology, ecology, hydrology, and management function of the Blitzen River would occur for the first 7 years. The next 5 years would be used for implementing and monitoring pilot projects to gain a better understanding of system response to enhancement activities. Using results from the pilot projects, a comprehensive plan would be crafted to guide river rehabilitation efforts. Because the river effort would proceed slowly and would likely not be fully implemented until the end of the 15-year timeframe, no discernible difference would exist between Alternatives 2 and 3 with regard to the management of other wetland and terrestrial habitats within the Blitzen Valley and Double-O Units.

Public Uses: Management under Alternative 3 for compatible wildlife viewing, photography, and welcome and orientation would be similar to Alternative 2, but there would be less emphasis on developed facilities and more emphasis on self-guided and off-trail experiences.

The Blitzen Valley auto tour route (Center Patrol Road) would be seasonally closed to vehicle access (August 15 to the fourth Friday of October in the Buena Vista unit, and August 15 to March 1 in the P Ranch unit) and would be redesigned into two or three year-round shorter auto tour routes. Walk-in free- roam access along the closed portions of the Center Patrol Road and dike tops in both units would be allowed during the periods listed above to provide opportunities for self-guided and off-trail experiences. Vehicle access to Krumbo Reservoir would be seasonal; walk-in access would be allowed November 1 to the fourth Friday of April. Year-round vehicle access would be allowed on the Boat Landing Road near Refuge Headquarters to the Malheur Lake elevated viewing platform. Spur and loop trails of one mile or more and a number of specific viewing facilities such as overlooks and platforms would be added with limited investment. Existing trails would be upgraded to promote accessibility.

The historic Audubon photography blind at Refuge Headquarters Display Pond would be restored. In free-roam areas, temporary photography blinds would be permitted. The refuge would maintain and replant trees and shrubs at four historic sites to provide habitat used by rare and incidental passerines.

The upland game and the waterfowl hunts would be managed as under Alternative 2, except a Buena Vista waterfowl hunt would not be permitted.

However, a youth hunt opportunity on the State-designated weekend would be explored for the Double-O unit.

Fishing opportunities and management would be the same as Alternative 2, but less vehicle access to fishing areas compared to Alternative 2 may limit the number of people engaging in this use.

Environmental education, interpretation (including docent-led tours), volunteer programs, potential land exchange with BLM, cultural and paleontological management, energy independence, and inventory and monitoring would be managed the same as under Alternative 2.

Public Availability of Documents

In addition to the information in **ADDRESSES**, printed copies of the document will be available for review at the following libraries:

- Harney County Library, 80 West "D" Street, Burns, OR 97720.
- Bend Public Library, 601 NW Wall Street, Bend, OR 97701.

Next Steps

After this comment period ends, we will analyze the comments and address them in the final CCP/EIS. A record of decision will follow the final CCP/EIS.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may become publicly available at any time. While you can ask us in your comment to withhold your identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: Nov 8, 2011.

Notice of Intent To Prepare a Master Leasing Plan, Amendments to the Resource Management Plans for the Moab and Monticello Field Offices, and an Associated Environmental Impact Statement

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Intent.

SUMMARY: In compliance with the National Environmental Policy Act of 1969, as amended, and the Federal Land Policy and Management Act of 1976 (FLPMA), as amended, the Bureau of Land Management (BLM), Moab and Monticello Field Offices, Utah, intend to prepare a Master Leasing Plan (MLP), amendments to the 2008 Moab and Monticello Resource Management Plans (RMPs), and a single environmental impact statement (EIS) to consider leasing for oil and gas and potash on about 783,000 acres of public lands. By this notice, the BLM is announcing the beginning of the scoping process to solicit public comments and identify issues.

DATES: This notice initiates the public scoping process for the MLP/plan amendments and associated EIS. Comments on issues may be submitted in writing prior to the end of the scoping period which is 60 days after the date of publication of this notice in the **Federal Register**. During the scoping period, it is anticipated that scoping meetings will be held in Moab, Monticello, and Salt Lake City, Utah. The date(s) and location(s) of the scoping meetings will be announced at least 15 days in advance through local media, newspapers, and the BLM Web site at: <http://www.blm.gov/21jd>. Additional opportunities for public participation will be provided upon publication of the Draft EIS.

ADDRESSES: You may submit comments related to the Master Leasing Plan and plan amendments by any of the following methods:

- **Email:**
BLM_UT_Comments_2@blm.gov
- **Mail:** BLM, Moab Field Office, 82 East Dogwood, Moab, Utah 84532, Attention: Brent Northrup
- **Fax:** (435) 259-2106

FOR FURTHER INFORMATION CONTACT: For further information and/or to have your name added to our mailing list, contact Brent Northrup, Project Manager, BLM Moab Field Office, 82 East Dogwood, Moab, UT 84532, telephone (435) 259-2151 or email Brent_Northrup@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 to contact the above individual during normal business hours. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question for the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The BLM will prepare a MLP in accordance with

the BLM's Washington Office Instruction Memorandum No. 2010-117. The MLP process will provide additional planning and analysis for areas prior to new leasing of oil, gas, and potash. The MLP will enable the Moab and Monticello Field Offices to (1) evaluate in-field considerations, such as optimal parcel configurations and potential development scenarios; (2) identify and address potential resource conflicts and environmental impacts from development; (3) develop mitigation strategies; and (4) consider a range of new constraints, including prohibiting surface occupancy or closing certain areas to leasing. The MLP process could result in new leasing stipulations and development constraints which would require amendments to the Moab and Monticello RMPs completed in 2008. The EIS will analyze likely mineral development scenarios and land use plan alternatives with varying mitigation levels for leasing.

The planning area covers about 783,000 acres in east-central Utah, encompassing west-central Grand County south of Interstate 70 and a portion of northern San Juan County. The western boundary is along the Green River and the northeastern edge of Canyonlands National Park. To the south of Moab, the boundary includes the area between Canyonlands National Park and U.S. Highway 191. The planning area encompasses a mix of land uses including a variety of recreation uses, livestock grazing, potash production, and oil and gas development. Interest in oil, gas, and potash exploration and development is high in the area, as evidenced by the recent submission of over 170 potash prospecting permit applications encompassing over 350,000 acres and expressions of interest to lease oil and gas encompassing over 120,000 acres within the planning area.

Planning issues can generally be stated as resource management issues and opportunities that the BLM needs to address to ensure it is fulfilling its multiple use resource management mission. The potential decisions in any proposed land use plan amendments could affect numerous other resources. The preliminary resource issues currently identified by a BLM interdisciplinary team include the following: air quality and climate change, cultural resources, lands and realty, paleontological resources, recreation, riparian resources, socioeconomic, soil and water, special status species, special designations (National Scenic and Historic Trails), vegetation, visual resources, wildlife

and fisheries, and wilderness characteristics. Planning criteria are the constraints or ground rules that guide and direct the development of the land use plan amendments and determine how the planning team approaches development of alternatives and ultimately, selection of a Preferred Alternative. Planning criteria ensure that plans are tailored to the identified issues and ensure that unnecessary data collection and analyses are avoided. Preliminary planning criteria include: (1) Any plan amendments will focus on mineral leasing decisions only, (2) any plan amendments will recognize valid existing rights, (3) lands addressed in plan amendments will be public lands (including split estate lands) managed by the BLM, (4) the BLM will use a collaborative and multi-jurisdictional approach, where possible, to jointly determine how mineral leasing will be managed, (5) as described by law and policy, the BLM will strive to ensure that its management decisions are as consistent as possible with other planning jurisdictions within the planning area boundaries, (6) development scenarios will be prepared for oil and gas and potash based on historical, existing and projected levels, (7) management decisions will consider a range of alternatives that focus on development scenarios and varying mitigation levels based on the relative values of resources, (8) the socioeconomic impacts of the alternatives will be addressed, (9) the BLM will use current scientific information, research, technologies, and results of inventory, monitoring, and coordination to determine appropriate decisions for mineral leasing, and (10) the BLM will coordinate with Native American Tribal Governments to identify sites, areas, and objects important to their cultural and religious heritage within the planning area.

Note: Planning issues and criteria outlined above are preliminary at this stage and will likely be modified as the public becomes more fully involved.

Federal, state, local, and tribal agencies, along with other stakeholders that may be interested in or affected by the BLM's decision on this project are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate as a cooperating agency.

You may submit comments in writing on issues and planning criteria to the BLM at any public scoping meeting, or you may submit them to the BLM using one of the methods listed in the **ADDRESSES** section above. To be most helpful, you should submit comments

before the end of the scoping period. The BLM will provide the public with the results of scoping through our Web site and by newsletter.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: 40 CFR 1501.7 and 43 CFR 1610.2(c).

Shelley J. Smith,

Actg. Associate State Director.

Notice of Realty Action: Modified-Competitive Sale of Public Land in Pahrump, Nye County, NV

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Realty Action.

SUMMARY: The Bureau of Land Management (BLM) proposes to offer one parcel of public land totaling approximately 120 acres in Pahrump, Nye County, Nevada, by modified-competitive, sealed-bid sale at not less than the appraised fair market value (FMV) of \$645,000. The sale will be subject to the applicable provisions of Sections 203 and 209 of the Federal Land Policy and Management Act of 1976 (FLPMA) and other BLM land sale and mineral conveyance regulations.

DATES: Interested parties may submit written comments regarding the proposed sale and the environmental assessment (EA) until April 19, 2012.

Sealed bids may be mailed or delivered to the BLM Pahrump Field Office, at the address below, beginning April 19, 2012. Sealed bids must be received no later than 4:30 p.m. Pacific Time, May 4, 2012 in accordance with the sale procedures. The BLM will open the sealed bids on May 7, 2012 at the BLM Pahrump Field Office.

ADDRESSES: Mail written comments to the BLM Pahrump Field Manager,
