This collection of information is critical to the prevention of waste, fraud and abuse of the Universal Service Fund

(USF or Fund). Among other things, the *Lifeline Reform Report and Order*, (Order), FCC 12–11, adopts rules to eliminate waste and inefficiency, increase accountability, and transition the Fund from supporting stand-alone telephone service to broadband. The reforms adopted in the Order substantially strengthen protections against waste, fraud, and abuse; improve program administration and accountability; improve enrollment and consumer disclosures, and constrain the growth of the program in order to reduce the burden on all who contribute to the Fund. The Commission has set a budget target to eliminate \$200 million in waste in 2012, which is dependent on certain rules going into effect as soon as possible. Among other things, the Commission has revised the FCC Form 497; incorporate the information collection requirements contained in OMB Control Number 3060–0774 into this information collection; removed or consolidated all low-income requirements requiring approval or revision into this submission; revised the certification of eligibility upon enrollment; revised annual reporting requirements; revised verification of continued eligibility (now referred to as Annual Recertification of Consumer Eligibility); revised resolution of duplicative claims; and adopt maintenance of National Lifeline Accountability database. Therefore, it is essential that the OMB grant this request for emergency processing of this revised information collection.

Federal Communications Commission.

Deputy Manager, Office of the Secretary, Office of Managing Director.
