SUPPLEMENTARY INFORMATION: The National Agriculture Workers Survey (NAWS) is an employment-based, annual survey of the demographic, employment, and health characteristics of hired crop farm workers, including workers brought to farms by labor intermediaries. Each year, approximately 1,500 workers are randomly selected for an interview. In addition, point of contact information is obtained from approximately 564 farms. Interviews are conducted three times per year to account for the seasonality of agricultural production and employment.

Several Federal agencies utilize the NAWS to meet their information collection needs. The Environmental Protection Agency, Office of Pesticide Programs (EPA-OPP), which has responsibility for assessing exposure to pesticides, is one such agency. With this submission, the DOL seeks OMB approval to administer seven new questions in the NAWS regarding the amount of time per day farm workers
