Southeastern Power Administration

Proposed Rate Adjustment, Public Forum, and Opportunities for Public Review and Comment for Georgia-Alabama-South Carolina System of Projects

AGENCY: Southeastern Power Administration, DOE.

ACTION: Notice of proposed rate.

SUMMARY: Southeastern Power Administration (Southeastern) proposes to revise existing schedules of rates and charges applicable to the sale of power from the Georgia-Alabama-South Carolina System of Projects effective for a 5-year period, October 1, 2012, through September 30, 2017. Additionally, opportunities will be available for interested persons to

review the present rates and the proposed rates and supporting studies, to participate in a public forum and to submit written comments. Southeastern will evaluate all comments received in this process.

DATES: Written comments are due on or before June 5, 2012. A public information and comment forum will be held in Atlanta, Georgia, at 1 p.m. on April 24, 2012. Persons desiring to speak at the forum should notify Southeastern at least seven (7) days before the forum is scheduled, so that a list of forum participants can be prepared. Others may speak if time permits. If Southeastern has not been notified by close of business on April 17, 2012, that at least one person intends to be present at the forum, the forum may be canceled with no further notice.

ADDRESSES: Written comments should be submitted to: Administrator, Southeastern Power Administration, Department of Energy, 1166 Athens Tech Road, Elberton, Georgia 30635-6711. The public information and comment forum for the Georgia-Alabama-South Carolina System of Projects will be at the Renaissance Concourse Atlanta Airport Hotel, One Hartsfield Centre Parkway, Atlanta, GA 30354, Phone: (404) 209-9999.

FOR FURTHER INFORMATION CONTACT: Virgil Hobbs, Assistant Administrator, Finance & Marketing, Southeastern Power Administration, Department of Energy, 1166 Athens Tech Road, Elberton, Georgia 30635, (706) 213-3800.

SUPPLEMENTARY INFORMATION: The Federal Energy Regulatory Commission (FERC) by order issued June 30, 2011 (135 FERC ¶ 62,267), confirmed and approved on a final basis Wholesale Power Rate Schedules SOCO-1-D, SOCO-2-D, SOCO-3-D, SOCO-4-D, ALA-1-M, MISS-1-M, Duke-1-D, Duke-2-D, Duke-3-D, Duke-4-D, Santee-1-D, Santee-2-D, Santee-3-D, Santee-4-D, SCE&G-1-D, SCE&G-2-D, SCE&G-3-D, SCE&G-4-D, Pump-1-A, Pump-2, Regulation-1, and Replacement-1 applicable to Georgia-Alabama-South Carolina System of Projects' power for a period ending September 30, 2015.

Discussion: Existing rate schedules are predicated upon a July 2010 repayment study and other supporting data. A repayment study prepared in February of 2012 shows that existing rates are not adequate to meet repayment criteria. This is due primarily to revenue from stream-flow energy that has been less than previously estimated as a result of

below average water conditions, and increased U.S. Army Corps of Engineers Operation & Maintenance expenses.

The revised repayment study shows that a revenue increase of \$21,913,000 in fiscal year 2013 and all future years over the current repayment study will result in all costs being repaid within the term of these rate schedules or their service life. Therefore, Southeastern is proposing to revise the existing rates to generate this additional revenue. The rate adjustment is an increase of about ten percent (10%) in the revenue requirement and fifteen percent (15%) in the rates for capacity and energy.

Southeastern is proposing the following rate schedules to be effective for the period from October 1, 2012 through September 30, 2017.
