

including economic incentives—such as user fees or marketable permits—to encourage the desired behavior, or provide information that enables the public to make choices.

Executive Order 13563 also requires an agency “to use the best available techniques to quantify anticipated present and future benefits and costs as accurately as possible.” The Office of Information and Regulatory Affairs of OMB has emphasized that these techniques may include “identifying changing future compliance costs that might result from technological innovation or anticipated behavioral changes.”

We are taking this regulatory action only on a reasoned determination that its benefits justify its costs. In choosing among alternative regulatory approaches, we selected those approaches that maximize net benefits. Based on the analysis that follows, the Department believes that this proposed priority is consistent with the principles in Executive Order 13563.

We also have determined that this regulatory action would not unduly interfere with State, local, and tribal governments in the exercise of their governmental functions.

In accordance with both Executive orders, the Department has assessed the potential costs and benefits of this regulatory action. The potential costs associated with this regulatory action are those resulting from statutory requirements and those we have determined as necessary for administering the Department’s programs and activities.

The benefits of the Disability and Rehabilitation Research Projects and Centers Programs have been well established over the years in that similar projects have been completed successfully. This proposed priority would generate new knowledge through research and development. Another benefit of this proposed priority is that the establishment of new DRRPs would improve the lives of individuals with disabilities. The new DRRP would generate, disseminate, and promote the use of new information that would improve the options for individuals with disabilities to perform activities of their choice in the community.

Intergovernmental Review: This program is not subject to Executive Order 12372 and the regulations in 34 CFR part 79.

DEPARTMENT OF ENERGY

Electricity Subsector Cybersecurity Risk Management Process Guideline

AGENCY: Office of Electricity Delivery and Energy Reliability, Department of Energy.

ACTION: Notice of public comment.

SUMMARY: The Department of Energy (DOE) invites public comment on DOE’s intent to publish the Electricity Subsector Cybersecurity Risk Management Process Guideline. The guideline describes a risk management process that is targeted to the specific needs of electricity sector organizations. The objective of the guideline is to build upon existing guidance and requirements to develop a flexible risk management process tuned to the diverse missions, equipment, and business needs of the electric power industry.

DATES: Comments must be received on or before Thursday, April 5, 2012.

ADDRESSES: Written comments may be submitted to Matthew Light, U.S. Department of Energy, Office of Electricity Delivery and Energy Reliability, 1000 Independence Ave.

SW., Washington, DC 20585; Fax 202–586–2623; Email: matthew.light@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT: Request for additional information should be directed to Matthew Light at matthew.light@hq.doe.gov, phone 202–316–5115.

SUPPLEMENTARY INFORMATION: DOE invites public comment on DOE’s intent to publish a guidance document entitled: Electricity Subsector Cybersecurity Risk Management Process Guideline. The primary goal of this guideline is to describe a risk management process that is targeted to the specific needs of electricity sector organizations. The objective of the guideline is to build upon existing guidance and requirements to develop a flexible risk management process tuned to the diverse missions, equipment, and business needs of the electric power industry.

The Electricity Subsector Cybersecurity Risk Management Process guideline was developed by the DOE, in collaboration with the National Institute of Standards and Technology (NIST), the North American Electric Reliability Corporation (NERC), and representatives from both the public and private sector. The NIST Special Publication 800–39, Managing Information Security Risk provides the foundational methodology for this document.

The Electricity Sector Cybersecurity Risk Management Process Guideline is available for review at: <http://energy.gov/oe/downloads/draft-cybersecurity-risk-management-process-rmp-guideline>.

Authority: Homeland Security Presidential Directive 7 (HSPD–7).

Issued at Washington, DC, on March 1, 2012.

Patricia A. Hoffman,

Assistant Secretary, Electricity Delivery and Energy Reliability.
