

date on which the administering authority initiated the investigation.

The Department has determined that the parties involved in the proceeding are cooperating and that the investigation is extraordinarily complicated. See section 703(c)(1)(B) of the Act. Specifically, the Department is currently investigating alleged subsidy programs involving loans, grants, income tax incentives, and the provision of goods or services for less than adequate remuneration. Due to the number and complexity of the alleged countervailable subsidy practices being investigated, it is not practicable to complete the preliminary determination of this investigation within the original time limit (*i.e.*, by March 23, 2012). Therefore, in accordance with section 703(c)(1)(B) of the Act, we are fully extending the due date for the preliminary determination to no later than 130 days after the day on which the investigation was initiated. However, as that date falls on a Sunday (*i.e.*, May 27, 2012) and is followed by a federal holiday on Monday, May 28, 2012, the deadline for completion of the preliminary determination is now Tuesday, May 29, 2012, the next business day.

This notice is issued and published pursuant to section 703(c)(2) of the Act.

Dated: March 2, 2012.

**Ronald K. Lorentzen**,  
Acting Assistant Secretary for Import  
Administration.

### National Institute of Standards and Technology

#### Announcement of the American Petroleum Institute's Standards Activities

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice.

**SUMMARY:** The American Petroleum Institute (API), with the assistance of other interested parties, continues to develop standards in several areas. This notice lists the standardization efforts currently being conducted by API committees. The publication of this notice by the National Institute of Standards and Technology (NIST) on behalf of API is being undertaken as a public service. NIST does not necessarily endorse, approve, or recommend the standards referenced.

**DATES:** Dates of conferences and meetings are provided in the **SUPPLEMENTARY INFORMATION** section below.

**ADDRESSES:** American Petroleum Institute, 1220 L Street NW., Washington, DC 20005; telephone (202) 682-8000, <http://www.api.org>.

**FOR FURTHER INFORMATION CONTACT:** All contact individuals listed in the **SUPPLEMENTARY INFORMATION** section of this notice may be reached at the American Petroleum Institute.

#### **SUPPLEMENTARY INFORMATION:**

##### **Background**

The American Petroleum Institute develops and publishes voluntary standards for equipment, materials, operations, and processes for the petroleum and natural gas industry. These standards are used by both private industry and by governmental agencies. All interested persons should contact the appropriate source as listed for further information.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### Proposed Information Collection; Comment Request; Implementation of Vessel Speed Restrictions To Reduce the Threat of Ship Collisions with North Atlantic Right Whales

**AGENCY:** National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice.

**SUMMARY:** The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

**DATES:** Written comments must be submitted on or before May 8, 2012.

**ADDRESSES:** Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at [Jjessup@doc.gov](mailto:Jjessup@doc.gov)).

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument and instructions should be directed to Gregory Silber, Ph.D., [greg.silber@noaa.gov](mailto:greg.silber@noaa.gov) or Shannon Bettridge, Ph.D., [shannon.bettridge@noaa.gov](mailto:shannon.bettridge@noaa.gov),

Fishery Biologists, Office of Protected Resources, NMFS, 301-427-8402.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

This request is for an extension of a currently approved information collection. On October 10, 2008, NMFS published a final rule implementing speed restrictions to reduce the incidence and severity of ship collisions with North Atlantic right whales (73 FR 60173). That final rule contained a collection-of-information requirement subject to the Paperwork Reduction Act (PRA). Specifically, 50 CFR 224.105(c) requires a logbook entry to document that a deviation from the 10-knot speed limit was necessary for safe maneuverability under certain conditions: because the vessel is in an area where oceanographic, hydrographic and/or meteorological conditions severely restrict the maneuverability of the vessel and the need to operate at such speed is confirmed by the pilot on board or, when a vessel is not carrying a pilot, the master of the vessel.

##### II. Method of Collection

This information collection requires an entry into the ship's logbook.

##### III. Data

*OMB Control Number:* 0648-0580.

*Form Number:* None.

*Type of Review:* Regular submission (extension of a currently approved collection).

*Affected Public:* Business or other for-profit organizations.

*Estimated Number of Respondents:* 3,047.

*Estimated Time per Response:* 5 minutes.

*Estimated Total Annual Burden Hours:* 254.

*Estimated Total Annual Cost to Public:* \$0 in recordkeeping/reporting costs.

##### IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
