AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of Marine Recreational Fisheries Statistics Survey (MRFSS)/ Marine Recreational Information Program (MRIP) Calibration Workshop.

SUMMARY: SEDAR and NOAA Fisheries Service will convene a workshop to consider calibration methods for the MRFSS and MRIP estimates of marine recreational fisheries harvest.

DATES: The workshop will be held March 27-29, 2012. See **SUPPLEMENTARY INFORMATION** for specific dates and times.

ADDRESSES: The MRFSS/MRIP Calibration Workshop will be held at the Doubletree by Hilton Raleigh Brownstone—University, 1707 Hillsborough Street, Raleigh, NC 27605; telephone: (800) 331-7919 or (919) 828-0811.

FOR FURTHER INFORMATION CONTACT: John Carmichael, Science and Statistics Program Manager, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; telephone: (843) 571-4366.

SUPPLEMENTARY INFORMATION: Changes in estimated recreational catch resulting from the revised estimation process developed through MRIP may have consequences to assessment and management of many fish stocks. Managers and scientists need to consider how revised marine recreational catch values will affect stock assessments and management actions, and how to best incorporate revised values into assessment and management systems. SEDAR and NOAA Fisheries are working cooperatively to address these recreational catch issues through the planned workshop. Workshop objectives are to review a range of studies that may provide insight for potential MRIP-MRFSS calibrations, develop possible calibration methods, and develop guidance for incorporating revised estimates into stock assessments.

Tuesday, March 27, 2012, 1 p.m.–6 p.m.: Review of calibration methodologies applied in other monitoring programs and MRFSS/MRIP calibration studies.

Wednesday, March 28, 2012: 8:30 a.m.–6 p.m.: Overview of catch estimates, impacts of re-estimates on stock assessments, discussion of calibration methods.

Thursday, March 29, 2012, 8:30 a.m.–12 p.m.: Discussion of calibration procedures and recommendations.

Taking and Importing of Marine Mammals

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; affirmative finding renewal.

SUMMARY: The Assistant Administrator for Fisheries, NMFS, (Assistant Administrator) has granted an affirmative finding 2-year renewal to the Government of Ecuador under the Marine Mammal Protection Act (MMPA). This affirmative finding renewal will allow yellowfin tuna harvested in the eastern tropical Pacific Ocean (ETP) in compliance with the International Dolphin Conservation Program (IDCP) by Ecuadorian-flag purse seine vessels or purse seine vessels operating under Ecuadorian jurisdiction to be imported into the United States. The affirmative finding renewal was based on review of documentary evidence submitted by the Government of Ecuador and obtained from the Inter-American Tropical Tuna Commission (IATTC).

DATES: The affirmative finding renewal is effective from April 1, 2011, through March 31, 2013 (retroactive).

FOR FURTHER INFORMATION CONTACT: Regional Administrator, Southwest Region, NMFS, 501 West Ocean Boulevard, Suite 4200, Long Beach, CA 90802-4213; phone 562-980-4000; fax 562-980-4018.

SUPPLEMENTARY INFORMATION: The MMPA, 16 U.S.C. 1361 *et seq.*, allows the entry into the United States of yellowfin tuna harvested by purse seine vessels in the ETP under certain conditions. If requested by the harvesting nation, the Assistant Administrator will determine whether to make an affirmative finding based upon documentary evidence provided by the government of the harvesting nation, the IATTC, or the Department of State.

The affirmative finding process requires that the harvesting nation is meeting its obligations under the IDCP and obligations of membership in the IATTC. Every 5 years, the government of the harvesting nation must request an affirmative finding and submit the required documentary evidence directly to the Assistant Administrator. NMFS

reviews the affirmative finding and determine whether the harvesting nation continues to meet the requirements. A nation may provide information related to compliance with IDCP and IATTC measures directly to NMFS on an annual basis or may authorize the IATTC to release the information to NMFS to annually renew an affirmative finding determination without an application from the harvesting nation.

An affirmative finding will be terminated, in consultation with the Secretary of State, if the Assistant Administrator determines that the requirements of 50 CFR 216.24(f) are no longer being met or that a nation is consistently failing to take enforcement actions on violations, thereby diminishing the effectiveness of the IDCP.

As a part of the affirmative finding process set forth in 50 CFR 216.24(f), the Assistant Administrator considered documentary evidence submitted by the Government of Ecuador or obtained from the IATTC and has determined that Ecuador has met the requirements under the MMPA to receive a renewal of their affirmative finding.

After consultation with the Department of State, the Assistant Administrator issued Ecuador's affirmative finding renewal, allowing the continued importation into the United States of yellowfin tuna and products derived from yellowfin tuna harvested in the ETP by Ecuadorian-flag purse seine vessels or purse seine vessels operating under Ecuadorian jurisdiction through March 31, 2013.

Dated: March 7, 2012.

Acting Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

SUMMARY: In accordance with the Privacy Act of 1974, the Commodity Futures Trading Commission is providing notice that it is retiring one system of records notice, CFTC-7, Formal Employment Discrimination Complaint and Reasonable Accommodation Files, from its inventory of record systems because the relevant records are covered by existing government-wide system notices.

Issued in Washington, DC, on March 6, 2012, by the Commission.
