II. Request for Comment

The Department is proposing to revise the Fair Labor Standards Act minimum wage, overtime and recordkeeping regulations pertaining to the exemptions for companionship services and live-in domestic services. The Department proposes to amend the regulations to revise the definitions of "domestic service employment" and "companionship services." The Department also proposes to more specifically describe the type of activities and duties that may be considered "incidental" to the provision of companionship services. In addition, the Department proposes to amend the recordkeeping requirements for live-in domestic workers. Finally, the Department proposes to amend the regulation pertaining to employment by a third party of companions and live-in domestic workers. This change would continue to allow the individual, family, or household employing the worker's services to apply the companionship and live-in exemptions and would deny

all third party employers the use of such exemptions.

On December 15, 2011, President Obama announced that the Department of Labor was proposing the rule changes. The Department posted a Notice of Proposed Rulemaking (NPRM), complete with background information, economic impact analyses and proposed regulatory text, on its Web site that day. The Department published the NPRM in the **Federal Register** on December 27, 2011 (76 FR 81190), requesting public comments on the proposed revisions to the regulations pertaining to the exemption for companionship services and live-in domestic services. Interested parties were requested to submit comments on or before February 27, 2012. On February 24, 2012, the Department published a document in the **Federal Register** extending the original comment period by 14 days to March 12, 2012 (77 FR 11021).

The Department has received requests to extend the period for filing public comments from members of Congress and various business organizations. Because of the interest that has been expressed in this matter, the Department has decided to provide an additional extension of the period for submitting public comment until March 21, 2012.

The deviation is necessary to perform

scheduled maintenance to the bridge. This deviation allows the bridge to remain in the closed-to-navigation position on two dates occurring in March of 2012.

DATES: This deviation is effective from 7:30 a.m. on Thursday, March 15, 2012 through 11:30 a.m. Thursday, March 22, 2012.

SUPPLEMENTARY INFORMATION: The BNSF Railway Company has requested a temporary deviation from the operating schedule of the vertical lift span railroad bridge across Berwick Bay, mile 0.4 (Atchafalaya River, mile 17.5), at Morgan City, St. Mary Parish, Louisiana. The vertical lift span bridge has a vertical clearance of 6.4 feet above high water, elevation 8.2 feet Mean Sea Level in the closed-to-navigation position. Vessels able to pass underneath the bridge in the closed-to-navigation-position may do so.

In accordance with 33 CFR 117.5, the bridge currently opens on signal for the passage of vessels. This deviation allows the vertical lift span of the bridge to remain in the closed-to-navigation position from 7:30 a.m. through 11:30 a.m. on Thursday, March 15, 2012 and Thursday, March 22, 2012.

To avoid becoming a safety hazard, the closures are necessary in order to cut and weld worn rails and chipping Conley joints. This maintenance is essential for the continued safety and operation of the bridge. Notices will be published in the Eighth Coast Guard District Local Notice to Mariners and will be broadcast via the Coast Guard Broadcast Notice to Mariners System.

Navigation on the waterway consists of tugs with tows, fishing vessels and recreational craft, including sailboats

and powerboats. The bridge will be able to open for emergencies, if necessary. The Intracoastal Waterway—Morgan City to Port Allen Route and the Landside Route, including Bayou Boeuf, are alternate waterway routes for vessels not requiring greater than a 12 foot draft. Based on experience and coordination with waterway users, it has been determined that these closures will not have a significant effect on vessels that use the waterway.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: February 23, 2012.

Bridge Administrator, Eighth Coast Guard District.
