SUPPLEMENTARY INFORMATION:

Background.—On March 5, 2012, the Commission determined that the domestic interested party group response to its notice of institution (76 FR 74810, December 1, 2011) of the subject five-year review was adequate and that the respondent interested party group response was inadequate. The Commission did not find any other circumstances that would warrant conducting a full review.¹ Accordingly, the Commission determined that it would conduct an expedited review pursuant to section 751(c)(3) of the Act.

Staff report.—A staff report containing information concerning the subject matter of the review will be placed in the nonpublic record on April 2, 2012, and made available to persons on the Administrative Protective Order service list for this review. A public version will be issued thereafter, pursuant to section 207.62(d)(4) of the Commission's rules.

Written submissions.—As provided in section 207.62(d) of the Commission's rules, interested parties that are parties

to the review and that have provided individually adequate responses to the notice of institution,² and any party other than an interested party to the review may file written comments with the Secretary on what determination the Commission should reach in the review. Comments are due on or before April 5, 2012 and may not contain new factual information. Any person that is neither a party to the five-year review nor an interested party may submit a brief written statement (which shall not contain any new factual information) pertinent to the review by April 5, 2012. However, should the Department of Commerce extend the time limit for its completion of the final results of its review, the deadline for comments (which may not contain new factual information) on Commerce's final results is three business days after the issuance of Commerce's results. If comments contain business proprietary information (BPI), they must conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission's rules. Please be aware that the Commission's rules with respect to electronic filing have been amended. The amendments took effect on November 7, 2011. See 76 Fed. Reg. 61937 (Oct. 6, 2011) and the newly

revised Commission's Handbook on E-Filing, available on the Commission's Web site at <http://edis.usitc.gov>.

In accordance with sections 201.16(c) and 207.3 of the rules, each document filed by a party to the review must be served on all other parties to the review (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

Determination.—The Commission has determined to exercise its authority to extend the review period by up to 90 days pursuant to 19 U.S.C. 1675(c)(5)(B).

Authority: This review is being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.62 of the Commission's rules.

By order of the Commission.

Issued: March 8, 2012.

James R. Holbein,
Secretary to the Commission.

Notice of Lodging of Second Consent Decree Under the Clean Air Act

Notice is hereby given that on March 6, 2012, a proposed Second Consent Decree in *United States and the State of Kansas v. Coffeyville Resources Refining & Marketing, LLC et. al.*, 04-cv-01064 (D. Kan. 2004), was lodged with the United States Court for the District of Kansas.

On June 13, 2004, the Court entered a Consent Decree in this action (Docket No. 8) that required Defendant Coffeyville Resources Refining & Marketing, L.L.C. ("CRRM") to install certain air pollution controls to reduce

emissions of oxides, sulfur dioxide and particulate matter at its oil refinery located in Coffeyville, Kansas. Under the proposed Second Consent Decree the United States and State grant CRRM an extension on installation of some of these controls. And CRRM has agreed to implement new and upgraded pollution controls; to comply with more stringent emission limits, and to follow more aggressive leak-detection and repair practices. These measures will reduce CRRM's emission of various nitrogen oxides (NOx), sulfur dioxide (SO₂), volatile organic compounds, particulate matter, carbon monoxide, and other pollutants that affect air quality. CRRM will also pay approximately \$970,000 in civil penalties under the Clean Air Act, the Comprehensive Environmental Response, Compensation, and Liability Act, and the Emergency Planning and Community Right-to-Know Act.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the Second Consent Decree.
