RIN 1400-AC95

[Public Notice 7828]

Implementation of the Defense Trade Cooperation Treaty Between the United States and the United Kingdom

AGENCY: Department of State.

ACTION: Final rule.

SUMMARY: The Department of State is amending the International Traffic in Arms Regulations (ITAR) to implement the Defense Trade Cooperation Treaty between the United States and the United Kingdom, and identify via a supplement the defense articles and defense services that may not be exported pursuant to the Treaty. This final rule implements only the Defense Trade Cooperation Treaty between the United States and the United Kingdom. The final rule implementing the Defense Trade Cooperation Treaty between the United States and Australia will be published later in the year once that treaty enters into force. Additionally, the Department of State amends the section pertaining to the Canadian exemption to reference the new supplement, and, with regard to Congressional certification, the Department of State adds Israel to the list of countries and entities that have a shorter certification time period and a higher dollar value reporting threshold.

DATES: This rule is effective upon the entry into force of the Treaty Between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland Concerning Defense Trade Cooperation (Treaty Doc. 110-7). We will publish a rule document in the **Federal Register** announcing the effective date of this rule.

FOR FURTHER INFORMATION CONTACT: Sarah Heidema, Office of Defense Trade Controls Policy, Department of State, Telephone (202) 663-2809 or Email DDTCResponseTeam@state.gov. Attn: Regulatory Change—Treaties.

SUPPLEMENTARY INFORMATION: The Department of State is amending the International Traffic in Arms Regulations (ITAR) to implement the Defense Trade Cooperation Treaty between the United States and the United Kingdom, and identify via a supplement the defense articles and defense services that may not be exported pursuant to the Treaty. This final rule implements only the Defense

Trade Cooperation Treaty between the United States and the United Kingdom.

These final amendments affect parts 120, 123, 124, 126, 127, and 129, with a new section in part 126 describing the licensing exemptions pursuant to the Treaty.

On November 22, 2011 (76 FR 72246), the Department's Directorate of Defense Trade Controls (DDTC) published for public comment a proposed rule to amend the ITAR to implement the Defense Trade Cooperation Treaty between the United States and the United Kingdom, and the Defense Trade Cooperation Treaty between the United States and Australia, and to identify, via a supplement, the defense articles and defense services that may not be exported pursuant to the Treaties. However, this rule implements only the Treaty between the United States and the United Kingdom. The final rule implementing the Treaty between the United States and Australia will be published later in the year once that treaty enters into force. The proposed rule also sought to amend the section pertaining to the Canadian exemption to reference the new supplement, and, with regard to Congressional certification, add Israel to the list of countries and entities that have a shorter certification time period and a higher dollar value reporting threshold.

The proposed rule's comment period ended December 22, 2011. Fifteen (15) parties filed comments. Having thoroughly reviewed and evaluated the comments and the recommended changes, the Department has determined that it will, and hereby does, adopt the proposed rule, with changes noted and minor edits, and promulgates it as a final rule. The Department's evaluation of the written comments and recommendations follows:

The majority of commenting parties expressed support for the intent of the Treaty, to ease export licensing burdens with one of the U.S.'s closest allies. However, the commenting parties expressed concern that the exemption is overly complicated and its requirements too burdensome to be truly workable for industry. DDTC appreciates these comments and believes the clarifying edits made in this final rule make application of the exemption clear.

One commenting party requested § 123.9(a) clarify whether the United Kingdom government could deploy items received pursuant to the Treaty. DDTC has reviewed this request and has not made changes to this paragraph. Section 126.17(h) identifies the process by which items exported pursuant to the

Treaty may be deployed by the United Kingdom government.

One commenting party requested edits to the note to § 123.9(a) to use the word "knowledge." DDTC rejected this request because the language in the note is sufficient, but has added clarifying language to the note.

Three commenting parties suggested that DDTC delete the reference to defense services in § 123.9(b) and (c). DDTC accepts this request and has deleted the reference.

One commenting party requested clarification of the addition and use of the word "destination" in § 123.9 (c). The term "destination" is added because while the end-user may remain the same, the destination may change, therefore requiring authorization from DDTC.

One commenting party sought clarification of whether § 123.9(c)(4) set up a different process for a retransfer request if such were submitted for articles received under the new § 126.17. Section 123.9(c)(4) does not set up a new process; it identifies who may submit a retransfer request and is language reflective of Section 9(3) of the Implementing Arrangement.

Three commenting parties noted that the proposed revised text of § 123.26 appeared to conflict with provisions of § 123.22. DDTC has considered these comments and has revised § 123.26 to clarify that its requirements are consistent with those of § 123.22.

One commenting party requested that DDTC delete the requirement in § 123.26 to record the time of the transaction. DDTC accepts this suggestion and has removed the text accordingly.

One commenting party requested § 126.5(b) be revised to reference screening programs developed pursuant to § 126.18. Guidance for using § 126.18 is available on DDTC's Web site and is not appropriate to add to this section. Therefore, no edits were made to this section.

Two commenting parties noted that the proposed rule changed the word "or" to "for" in § 126.5(b). DDTC has corrected this typographical error, and that text in the first sentence again reads, "or for return to the United States."

One commenting party noted that by reserving § 126.5(c) and removing the items previously controlled there to Supplement No. 1, the requirement to obtain written certifications, as well as recordkeeping requirements, were removed. Clarification was requested as to whether this was intentional. DDTC has reviewed this section and confirms that the removal of these requirements

was inadvertent. Therefore, Supplement No. 1 has been revised to clarify that all previous requirements of the Canadian exemption, including those provided in paragraph (c), remain. There is no intention to change the requirements for using the Canadian exemption.

Several commenting parties requested additional guidance with various aspects of the new § 126.17. As part of Treaty implementation, DDTC will be posting Frequently Asked Questions (FAQs) on its Web site. These FAQs will address these requests for guidance.

Two commenting parties suggested that DDTC add a definition for defense articles to § 126.17(a)(1) to clarify that the definition also includes technical data for purposes of the exemption. DDTC does not believe this change is necessary as the definition in § 120.6 clearly identifies technical data as within the scope of the “defense article” definition. Unless specifically indicated otherwise, the use of the term “defense article” includes technical data.

One commenting party requested clarification of the term “access” as used in § 126.17(a)(1)(iv), indicating that it is common for U.S. Customs and Border Protection (CBP) to authorize a physical manipulation of a container, which would result in an intermediate consignee having access to an item in the shipment. DDTC believes the meaning of “access” is plain and does not see a need to revise this paragraph. A directive from a CBP official to open a container is not the type of access that would require a license from DDTC. Another party requested DDTC place a reference to paragraph (k), which discusses intermediate consignees, in this section. DDTC accepted this suggestion and has made corresponding changes.

One commenting party expressed concerns that the process by which the U.S. Government would obtain maintained records, as provided in § 126.17(a)(3)(vi) and other sections of the exemption, is unclear. These sections are not intended to identify the process by which record requests will be made. The process will be the same as for any request currently made under the ITAR. Therefore, DDTC has not revised these paragraphs.

One commenting party noted the language in § 126.17(a)(4) seemed to limit transfers just to exports to the United States. DDTC has revised this section to clarify that it applies to transfers within the Approved Community.

Two commenting parties requested DDTC change the word “required” to “pursuant to” in § 126.17(a)(4)(iii). This change has been rejected as the word

“required” is a requirement of the Treaty.

Two commenting parties asked DDTC to clarify the requirements in § 126.17(a)(5) related to items delivered via the Foreign Military Sales program. DDTC has revised § 126.17(a)(5) to provide clarifying language.

Three commenting parties suggested DDTC include additional information in § 126.17(d) to explain the vetting process for the UK Community. DDTC does not accept this suggestion. The vetting requirements are identified in the Treaty and Implementing Arrangement, which are available on DDTC’s Web site. One commenting party noted that there was no reference to Her Majesty’s Government (HMG) entities and facilities in § 126.17(d). DDTC has revised this paragraph to also reference HMG.

Three commenting parties requested DDTC provide additional guidance with respect to identification of operations, programs and projects that cannot be publicly identified (i.e., are classified). DDTC has not added additional language to § 126.17(f)(2), but will provide additional guidance on its Web site for requesting confirmation of Treaty eligibility for classified programs.

One commenting party inquired whether DDTC will post on its Web site a complete list of U.S. Government contracts that are Treaty eligible. DDTC will not do so. The U.S. Department of Defense has updated the Defense Federal Acquisition Regulation Supplement (DFARS) and certain contract clauses, which will identify treaty eligibility when incorporated into a contract.

Three commenting parties requested clarifying language be added to § 126.17(g)(1) to indicate whether this paragraph applied to marketing to members of the Approved Community. These parties also requested clarification of the term “identical type.” Finally, parties requested that this paragraph be removed in its entirety. DDTC cannot remove this requirement as it is part of the Treaty’s Exempted Technology List. DDTC, however, has revised the paragraph to indicate that marketing may be to members of the United Kingdom Community so long as it is for an approved Treaty end-use and it meets the other requirements of § 126.17(g)(1).

One commenting party recommended removal of § 126.17(g)(4) or, in the alternative, adding a parenthetical “(or foreign equivalent)” after “Milestone B.” DDTC cannot remove this paragraph as it is part of the Treaty’s Exempted Technology List. DDTC considered adding a parenthetical to include

foreign equivalents, but has decided to reject this suggestion as there is no equivalent in the UK to “Milestone B.”

One commenting party requested changes to § 126.17(g)(5) to allow for the export of embedded exempted technologies in certain circumstances. DDTC is not, at this time, prepared to broaden this paragraph to include embedded exempted technologies.

Four commenting parties expressed concerns with § 126.17(g)(8) and the reference to the European Union Dual Use List. DDTC has revised this paragraph to clarify that any such items have been included in Supplement No. 1 to Part 126.

Two commenting parties raised concerns with the complexity of using § 126.17(h) with a diverse supply chain and requested clarification on the applicability of § 123.9(e) to this exemption. DDTC appreciates the diverse nature of global supply chains, but believes the mechanisms provided in § 126.17(h) are no more onerous than current retransfer or reexport requirements. Further, as indicated in § 126.17(h)(5), any retransfer, reexport, or change in end-use under § 126.17(h) shall be made in accordance with § 123.9, which includes § 123.9(e).

One commenting party requested definition of “United Kingdom Armed Forces transmission channels” in § 126.17(h)(7). This language is used in the Implementing Arrangement and DDTC believes § 126.17(h)(7) and the Implementing Arrangement are clear. Therefore, DDTC has not provided an additional definition.

Two commenting parties requested DDTC delete the words “any citizen of such countries” from § 126.17(h)(8). DDTC accepts this suggestion and has revised this paragraph accordingly.

Three commenting parties requested clarification as to the form a written request under § 126.17(i)(2)(i) should take. Parties should submit such requests in the form of a General Correspondence (GC), the required elements of which are identified in § 126.17(i)(2)(i).

One commenting party requested clarification as to the form a written request under § 126.17(i)(3) should take. Parties should also submit such requests in the form of a GC to DDTC.

Ten commenting parties expressed concerns with the marking requirements contained in § 126.17(j). Of most concern was a perception that the requirements of this section made using the exemption overly burdensome and costly. Various suggestions were provided ranging from removal of the paragraph, to rewording of certain sections. The majority of commenting

parties requested DDTC remove the requirement in § 126.17(j)(2) for exporters to remove Treaty markings. DDTC appreciates the concerns expressed. However, the requirements contained in 126.17(j) are reflective of the requirements in the Treaty and its Implementing Arrangement. DDTC has made some minor edits to provide clarity in this paragraph, but the requirement to remove certain markings will not be removed from the regulations at this time.

One commenting party requested DDTC edit the text of the statement required by § 126.17(j)(5) to indicate the items being exported were USML items and authorized only for export to the UK under the Treaty. DDTC accepts this suggestion and has revised the text accordingly.

One commenting party requested that registered brokers be included in paragraph § 126.17(k)(1)(ii). United Kingdom intermediate consignees must meet the requirements of § 126.17(k)(1)(ii). If a registered broker meets these requirements, then it may be an intermediate consignee for purposes of this exemption. However, simply being a registered broker does

not automatically qualify an entity as a United Kingdom intermediate consignee.

Five commenting parties suggested DDTC clarify the language related to recordkeeping in § 126.17(l) and ensure that it is consistent with other recordkeeping provisions in the ITAR. DDTC concurs with the need to keep ITAR sections consistent and has updated § 123.26 to reference the recordkeeping requirements of § 126.17(l). DDTC has also made clarifying edits to § 126.17(l).

One commenting party suggested changing the word “all” in § 126.17(l)(1) to “their” to acknowledge that the U.S. exporter may not be aware or have record of a reexport/retransfer request submitted by a UK Community member. DDTC agrees with this request and has revised the paragraph accordingly.

One commenting party requested clarification of § 126.17(l)(1)(x) as to whether this referred to the USML category or security classification. This is intended to refer to security classification. DDTC has revised the paragraph accordingly.

One commenting party requested DDTC delete the reference to “defense

services” in § 126.17(l)(2). DDTC accepted this request and has revised the paragraph accordingly.

Two commenting parties asked DDTC to clarify whether § 126.17(m) required exporters to submit negative reports. DDTC confirms that reporting requirements under § 126.17(m) are contingent on meeting the requirements of ITAR § 130.9.

Two commenting parties requested clarification on whether the congressional notification requirement under the Treaty is identical to that required under normal license authorization processes. DDTC confirms that the process will be the same.

Ten commenting parties expressed various concerns regarding the scope and wording of Supplement No. 1 to Part 126. In particular, comments indicated concern that the Supplement was too broad and possibly excluded too much to make the exemption useful. DDTC appreciates these comments, and has made clarifying edits to Supplement No. 1 to the extent possible within the confines of the Treaty, the Implementing Arrangements, and the Exempted Technology List.

Regulatory Analysis and Notices*Administrative Procedure Act*

The Department of State is of the opinion that controlling the import and export of defense services is a foreign affairs function of the United States Government and that rules implementing this function are exempt from § 553 (Rulemaking) and § 554 (Adjudications) of the Administrative Procedure Act. Nevertheless, as noted in the text above, the Department published this rule as a Notice of Proposed Rule Making on November 22, 2011 (76 FR 72246), with a 30-day comment period, and without prejudice to its determination that controlling the import and export of defense services is a foreign affairs function. This rule is effective upon the entry into force of the Treaty Between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland Concerning Defense Trade Cooperation (Treaty Doc. 110-7). Once the Treaty is in force, exports must be able to utilize the Treaty for qualifying exports of defense articles.

Regulatory Flexibility Act

Since this amendment is not subject to the notice-and-comment procedures of 5 U.S.C. 553, it does not require analysis under the Regulatory Flexibility Act.

Unfunded Mandates Reform Act of 1995

This amendment does not involve a mandate that will result in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more in any year and it will not significantly or uniquely affect small governments. Therefore, no actions were deemed necessary under the provisions of the

Unfunded Mandates Reform Act of 1995.

Executive Order 13175

The Department of State has determined that this amendment will not have tribal implications, will not impose substantial direct compliance costs on Indian tribal governments, and will not preempt tribal law. Accordingly, Executive Order 13175 does not apply to this rulemaking.

Small Business Regulatory Enforcement Fairness Act of 1996

This amendment has been found not to be a major rule within the meaning of the Small Business Regulatory Enforcement Fairness Act of 1996.

Executive Orders 12372 and 13132

This amendment will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 13132, it is determined that this amendment does not have sufficient federalism implications to require consultations or warrant the preparation of a federalism summary impact statement. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities do not apply to this amendment.

Executive Order 12866

The Department is of the opinion that restricting defense articles exports is a foreign affairs function of the United States Government and that rules governing the conduct of this function are exempt from the requirements of Executive order 12866. However, the Department has nevertheless reviewed this regulation to ensure its consistency with the regulatory philosophy and

principles set forth in that Executive Order.

Executive Order 12988

The Department of State has reviewed this amendment in light of sections 3(a) and 3(b)(2) of Executive Order 12988 to eliminate ambiguity, minimize litigation, establish clear legal standards, and reduce burden.

Executive Order 13563

The Department of State has considered this rule in light of Executive Order 13563, dated January 18, 2011, and affirms that this regulation is consistent with the guidance therein.

Paperwork Reduction Act

This amendment does not impose any new reporting or recordkeeping requirements subject to the Paperwork Reduction Act, 44 U.S.C. chapter 35. The burden or number of respondents to any of the existing OMB approved information collections is not expected to change annually as a result of this rule.

This subchapter implements that authority. Portions of this subchapter also implement the Defense Trade Cooperation Treaty between the United States and the United Kingdom. ■ 9. Section 123.9 is amended by revising paragraphs (a), (b), (c), (e) introductory text, (e)(1), (e)(3), and (e)(4), adding a note after paragraph (a), and removing and reserving paragraph (d), to read as follows:

§ 123.9 Country of ultimate destination and approval of reexports or retransfers.

(a) The country designated as the country of ultimate destination on an application for an export license, or in an Electronic Export Information filing where an exemption is claimed under this subchapter, must be the country of ultimate end-use. The written approval of the Directorate of Defense Trade Controls must be obtained before reselling, transferring, reexporting, retransferring, transshipping, or disposing of a defense article to any end-user, end-use, or destination other than as stated on the export license, or in the Electronic Export Information filing in cases where an exemption is claimed under this subchapter, except in accordance with the provisions of an exemption under this subchapter that explicitly authorizes the resell, transfer,

reexport, retransfer, transshipment, or disposition of a defense article without such approval. Exporters must determine the specific end-user, end-use, and destination prior to submitting an application to the Directorate of Defense Trade Controls or claiming an exemption under this subchapter.

Note to paragraph (a): In making the aforementioned determination, a person is expected to review all readily available information, including information readily available to the public generally as well as information readily available from other parties to the transaction.

(b) The exporter shall incorporate the following statement as an integral part of the bill of lading, airway bill, or other shipping documents, and the invoice whenever defense articles are to be exported or transferred pursuant to a license, other written approval, or an exemption under this subchapter, other than the exemptions contained in § 126.16 and § 126.17 of this subchapter (**Note:** for exports made pursuant to § 126.16 or § 126.17 of this subchapter, see § 126.16(j)(5) or § 126.17(j)(5)):

“These commodities are authorized by the U.S. Government for export only to [country of ultimate destination] for use by [end-user]. They may not be transferred, transhipped on a non-continuous voyage, or otherwise be disposed of, to any other country or end-user, either in their original form or after being incorporated into other end-items, without the prior written approval of the U.S. Department of State.”

(c) Any U.S. person or foreign person requesting written approval from the Directorate of Defense Trade Controls for the reexport, retransfer, other disposition, or change in end-use, end-user, or destination of a defense article initially exported or transferred pursuant to a license or other written approval, or an exemption under this subchapter, must submit all the documentation required for a permanent export license (see § 123.1 of this subchapter) and shall also submit the following:

(1) The license number, written authorization, or exemption under which the defense article or defense service was previously authorized for export from the United States (**Note:** For exports under exemptions at § 126.16 or § 126.17 of this subchapter, the original end-use, program, project, or operation under which the item was exported must be identified.);

(2) A precise description, quantity, and value of the defense article or defense service;

(3) A description and identification of the new end-user, end-use, and destination; and

Any license or other approval authorizing the permanent export of hardware must be filed at a U.S. Port before any export. The U.S. Customs and Border Protection will only decrement a shipment after the export information has been filed correctly using the AES. Before the export of any hardware using an exemption in this subchapter, the DDTC registered applicant/exporter, or an agent acting on the filer's behalf, must electronically provide export information using the AES (see paragraph (b) of this section). In addition to electronically providing the export information to the U.S. Customs and Border Protection before export, all the mandatory documentation must be presented to the port authorities (e.g., attachments, certifications, proof of AES filing; such as the Internal Transaction Number (ITN)). The documentation provided to U.S. Customs and Border Protection at the port of exit must include the Internal Transaction Number (ITN) for the shipment and a copy of a notification to the Directorate of Defense Trade Controls stating that the shipment is urgent and must be accompanied by an explanation for the urgency. The original of the notification must be immediately provided to the Directorate of Defense Trade Controls. The AES filing of the export information must be made at least two hours prior to any departure by air from the United States. When shipping via ground, the AES filing must be made at the time when the exporter provides the articles to the carrier or at least one hour prior to departure from the United States, when the permanent export of the hardware has been authorized for export:

The item must remain under the effective control of the United Kingdom Ministry of Defence while deployed and access may not be provided to unauthorized third parties.

(8) U.S. persons registered, or required to be registered, pursuant to part 122 of this subchapter and members of the United Kingdom Community must immediately notify the Directorate of Defense Trade Controls of any actual or proposed sale, retransfer, or reexport of a defense article or defense service on the U.S. Munitions List originally exported under this exemption to any of the countries listed in § 126.1 of this subchapter or any person acting on behalf of such countries, whether within or outside the United States.
