DEPARTMENT OF JUSTICE

[OMB Number 1105-0025]

Agency Information Collection Activities: Proposed Collection; Comments Requested

ACTION: 30-Day Notice of Information Collection Under Review: Federal Coal Lease Request.

The Department of Justice (DOJ), Antitrust Division (ATR), will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed information collection is published to obtain comments from the public and affected agencies. This proposed information collection was previously published in the **Federal Register** Volume 77, Number 14, page 3282 on January 23, 2012, allowing for a 60 day comment period.

The purpose of this notice is to allow for an additional 30 days for public comment until April 25, 2012. This process is conducted in accordance with 5 CFR 1320.10.

If you have comments (especially regarding the estimated public burden or associated response time), suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact Jill Ptacek, Antitrust Division, United States Department of Justice, 450 5th Street NW., Suite 8000, Washington, DC 20530.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

—Whether the proposed collection of information is necessary for the

proper performance of the functions of the agency, including whether the information will have practical utility;

- The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- The quality, utility and clarity of the information to be collected; and
- How to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* Extension of a currently approved collection.

(2) *Title of the Form/Collection:* Federal Coal Lease Reserves.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form Numbers: ATR-139 and ATR-140, Antitrust Division, Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as brief abstract:* Primary: Business or other for Profit. Other: None. The Department of Justice evaluates the competitive impact of issuances, transfers and exchanges of federal coal leases. These forms seek information regarding a prospective coal lessee's existing coal reserves. The Department uses this information to determine whether the issuance, transfer or exchange of the federal coal lease is consistent with the antitrust laws.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond;* It is estimated that 20 respondents will complete each form, with each response taking approximately two hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 40 annual burden hours associated with this collection, in total.

If additional information is required, contact: Jerri Murray, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution

Square, 145 N Street NE., Washington, DC 20530.

Written comments and suggestions from the public and affected agencies concerning the collection of information are encouraged. Your comments should address one or more of the following four points:

(1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the collection

of information, including the validity of the methodology and assumptions used;

(3) How to enhance the quality, utility, and clarity of the information to be collected; and

(4) How to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Summary of Information Collection

(1) *Type of Information Collection:* Renewal of a currently approved collection.

(2) *Title:* Inspection of Records Relating to Visual Depictions of Simulated Sexually Explicit Performances.

(3) *Agency form number, if any:* None.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Business or other for-profit. Other: None. Abstract: This is a renewal of an existing information collection implementing the recordkeeping, labeling, and inspection requirements of 28 CFR part 75, accounting for changes in the underlying statute made by Congress in enacting the Adam Walsh Child Protection and Safety Act of 2006.

Need for Collection

The information collection documents the recordkeeping, labeling, and inspection requirements for producers of visual depictions of actual and simulated sexually explicit conduct, and the certification regime for the exemption from these requirements, in certain circumstances, for producers of visual depictions of simulated sexually explicit conduct and visual depictions of actual sexually explicit conduct constituting the lascivious exhibition of the genitals or pubic area of a person. These statutory requirements of 28 CFR part 75, codified at 18 U.S.C. 2257 and 2257A, are designed to ensure that visual depictions of sexually explicit conduct are produced in accordance with laws and regulations, and without the involvement of minors under 18 years of age.

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: The Department is unable to estimate with any precision the number of entities producing visual depictions of simulated sexually explicit conduct. As a partial indication, the Department's 2008 regulatory review, including the information collection request and PRA

Supporting Statement (RIN 1105-AB19), cited data collected by the U.S. Census Bureau in 2002. Employing the same method of analysis, according to data collected by the U.S. Census Bureau in 2007, there were 11,974 establishments engaged in motion picture and video production in the United States. Based on a rough assumption that 10% of the establishments are engaged in the production of visual depictions of simulated sexually explicit conduct, the Department estimates that approximately 1,974 motion picture and video producing establishments are required to comply with these statutory requirements. (The Department does not. Additionally, the statute provides an exemption from these requirements applicable in certain circumstances, and it requires producers to submit certifications to qualify for this exemption. From March 18, 2009, the effective date of the certification regime, to the present, the Department has received approximately 865 certification letters. For the entities that qualify for the exemption, the Department estimates that it would take less than 20 hours per year to prepare the biennial certification required for the exemption.

(6) An estimate of the total public burden (in hours) associated with the collection: If OMB were to assume that 3,000,000 visual depictions of simulated sexually explicit conduct are created each year and that it requires 6 minutes to complete the recordkeeping requirement for each depiction, the recordkeeping requirements would impose a burden of 300,000 hours. If, however, OMB were to assume that producers of 90% of these depictions qualify for the statutory exemption from these requirements, the requirements would only impose a burden of 30,000 hours (These estimates were included in the Department's 2008 regulatory review, including the information collection request and PRA Supporting Statement (RIN 1105-AB19). The Department does not certify the accuracy of these numbers.)

If additional information is required contact: Jerri Murray, Department Clearance Officer, Policy and Planning Staff, Justice Management Division, Department of Justice, Two Constitution Square, Room 2E-508, 145 Street NE., Washington, DC 20530.

Jerri Murray,

Department Clearance Officer, PRA, United States Department of Justice.
