

3. Complete form AD-755, Advisory Committee Membership Background Information.

Letters of recommendations are welcome. The AD-755 may be obtained from Forest Service contact person or from the following Web site: http://www.fsa.usda.gov/Internet/FSA_File/ad755.pdf. All nominations will be vetted by USDA. The Secretary of Agriculture will appoint committee members to the Board from the list of qualified applicants.

The members of the Board will elect and determine the responsibilities of the Chairperson and the Vice-Chairperson. In absence of the Chairperson, the Vice-Chairperson will act in the Chairperson's stead. The Forest Supervisor of the Black Hills National Forest serves as the Designated Federal Official under sections 10(e) and (f) of the Federal Advisory Committee Act (5 U.S.C. App. II).

Members will serve without compensation, but may be reimbursed for travel expenses while performing duties on behalf of the Board, subject to approval by the DFO.

Equal opportunity practices are followed in all appointments to the Board in accordance with USDA policies. To ensure that the recommendations of the Board have been taken into account the needs of diverse groups, served by the Black Hills National Forest, membership shall include, to the extent practicable, individuals with demonstrated ability to represent minorities, women, and persons with disabilities.

Dated: March 19, 2012.

Craig Bobzien,

Forest Supervisor.

SUPPLEMENTARY INFORMATION:

Title: Agricultural Resources Management Survey and Chemical Use Surveys.

OMB Control Number: 0535-0218.

Expiration Date of Current Approval: December 31, 2012.

Type of Request: Intent to revise and extend a currently approved information collection.

Abstract: The Agricultural Resource Management Surveys (ARMS) are the primary source of information for the U.S. Department of Agriculture on a broad range of issues related to: Production practices, costs and returns, pest management, chemical usage, and contractor expenses. Data is collected on both a whole farm level and on selected commodities.

ARMS is the only source of information available for objective evaluation of many critical issues related to agriculture and the rural economy, such as: Whole farm finance data, including data sufficient to construct estimates of income for farms by: type of operation, loan commodities, income for operator households, credit, structure, and organization; marketing information; and other economic data on input usage, production practices, and crop substitution possibilities.

Data from ARMS are used to produce estimates of net farm income by type of

commercial producer as required in 7 U.S.C. 7998 and estimates of enterprise production costs as required in 7 U.S.C. 1441(a). Data from ARMS are also used as weights in the development of the Prices Paid Index, a component of the Parity Index referred to in the Agricultural Adjustment Act of 1938. These indexes are used to calculate the annual federal grazing fee rates as described in the Public Rangelands Improvement Act of 1978 and Executive Order 12548 and as promulgated in regulations found at 36 CFR 222.51.

In addition, ARMS is used to produce estimates of sector-wide production expenditures and other components of income that are used in constructing the estimates of income and value-added which are transmitted to the U.S. Department of Commerce, Bureau of Economic Analysis, by the USDA Economic Research Service (ERS) for use in constructing economy-wide estimates of Gross Domestic Product. This transmittal of data, prepared using the ARMS, is undertaken to satisfy a 1956 agreement between the Office of Management and Budget and the Departments of Agriculture and Commerce that a single set of estimates be published on farm income.

Chemical Use Surveys: Congress has mandated that NASS and ERS build nationally coordinated databases on agricultural chemical use and related farm practices; these databases are the primary vehicles used to produce specified environmental and economic estimates. The surveys will help provide the knowledge and technical means for producers and researchers to address on-farm environmental concerns in a manner that maintains agricultural productivity.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 (at 44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320.

NASS also complies with OMB Implementation Guidance, "Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA)," 72 FR 33362 (June 15, 2007).

Estimate of Burden: Public reporting burden for this collection of information

is estimated to average approximately 35–40 minutes per survey.

Respondents: Farmers, ranchers, farm managers, farm contractors, and farm households.

Estimated Number of Respondents: Approximately 80,000 respondents will be sampled each year. Over half of these respondents will be contacted more than one time in a single year.

Estimated Total Annual Burden on Respondents: Approximately 66,000 hours per year.

Copies of this information collection and related instructions can be obtained without charge from the NASS Clearance Officer, at (202) 690–2388 or at: ombofficer@nass.usda.gov.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods. All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, March 06, 2012.

Joseph T. Reilly,

Associate Administrator.

Notice of Intent To Revise a Previously Approved Information Collection

AGENCY: National Agricultural Statistics Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intent of the National Agricultural Statistics Service (NASS) to seek reinstatement of an information collection, the National Childhood Injury and Occupational Injury Survey of Farm Operators.

DATES: Comments on this notice must be received by May 25, 2012 to be assured of consideration.

SUPPLEMENTARY INFORMATION:

Title: National Childhood Injury and Occupational Injury Survey of Farm Operators.

OMB Control Number: 0535–0235.

Expiration Date of Previous Approval: 12/31/2011.

Type of Request: To seek reinstatement of an information collection for a period of three years.

Abstract: The National Childhood Injury and Adult Occupational Injury Survey of Farm Operators is designed to: (1) Provide estimates of childhood nonfatal injury incidence and description of injury occurring to children less than 20 years of age who reside, work, or visit farms and (2) describe the occupational injury experience of farm operators. These surveys are being conducted as part of a cooperative agreement between the Center for Disease Control (CDC) and the National Agricultural Statistics Service (NASS). In 2012, NASS will conduct the General Adult and Child Injury survey and will use the total farm population to sample from. In 2013, NASS will not be conducting an injury survey, since we will be concentrating on the Census of Agriculture survey (OMB #0535–0226). In 2014, NASS plans to again conduct the General Adult and Child Injury Survey, and this time, the survey will concentrate on minority farm operators.

DATA COLLECTION FOR THE THREE YEAR APPROVAL PERIOD

Survey targeted group	Reference year	Survey year	Sample size
General Adult and Child Injury Survey Target Population—All Farm Operators)	2011	2012	50,000
No Survey Conducted this Year	2012	2013	0
General Adult and Child Injury Survey (Minority Farm Operators)	2013	2014	50,000

Data will be collected by telephone from all 50 states. Questions will relate to farm injuries occurring during the reference calendar year. These data will update and enhance existing data series used by the National Institute of Occupational Safety and Health (NIOSH) to: (1) Establish a measure of the number and rate of childhood injuries associated with farming operations and study the specific types of injuries sustained and (2) describe the scope and magnitude of occupational

injuries associated with farming operations. The collection combines the youth and occupational injury studies to reduce the number of contacts on the targeted farm population. Reports will be generated and information disseminated to all interested parties concerning the findings from this study.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food

Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320.
