

a National Universal Product Code (NUPC) database to be used by all Women, Infants, and Children (WIC) State agencies as they implement Electronic Benefit Transfer (EBT) statewide, which is a requirement of the law. As a result of this legislation, the Food and Nutrition Service (FNS) has adopted a plan to expand the number of data elements contained in the existing NUPC database while simultaneously reducing the burden of manual data entry currently borne by WIC State agency employees tasked with populating the database.

Need and Use of the Information: The NUPC database will provide all State agencies with access to a central repository containing comprehensive information about authorized WIC foods. State agencies are expected to use the NUPC database to create an initial list of authorized foods eligible for redemption by WIC Program participants. State agencies may use the NUPC database to maintain their list of authorized foods and to create an Authorized Product List for distribution to Authorized Vendors operating in the EBT environment.

Title: Borrower Investments—Telecommunications Loan Program, 7 CFR 1744, Subpart E.

OMB Control Number: 0572-0098.

Type of Request: Extension of a currently approved collection.

Abstract: The Rural Economic Development Act of 1990, Title XXIII of the Farm Bill, Public Law 101-624, authorized qualified Rural Utilities Service borrowers to make investments in rural development projects without the prior approval of the Agency's Administrator provided, however, that such investments do not cause the borrower to exceed its allowable qualified investment level as determined in accordance with the procedures set forth in 7 CFR part 1744, subpart E. When a borrower exceeds these limits, the security for the

Government's loans could be in jeopardy. However, in the interest of encouraging rural development, RUS will consider approving such investments that exceed a borrower's qualified investment level. This information collection covers those items that a borrower would need to submit to RUS for consideration of the borrower's request to make such an investment.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 1 hour per response.

Respondents: Not for profit institutions; business or other for-profit entities.

Estimated Number of Respondents: 2.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 1 hour.

Dated: March 20, 2012.

Jonathan Adelstein,

Administrator, Rural Utilities Service.
