ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OW-2011-0943; FRL-9655-1]

Draft National Water Program 2012 Strategy: Response to Climate Change

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability and request for comments.

SUMMARY: The Environmental Protection Agency is publishing for public comment a draft long-range strategy that describes how the agency will address climate change challenges to its mission of protecting human health and the

environment. Climate change alters the hydrological background in which EPA's programs function. Depending upon the regional, local and even temporal nature of effects, climate change will pose challenges to various aspects of water resource management, including how to: address risks to drinking water, wastewater and storm water infrastructure; protect quality of surface water, ground water and drinking water; build resilience of watersheds, wetlands, and coastal and ocean waters; and work with tribal communities to understand the implications of climate change to their economy and culture.

DATES: Comments must be received on or before May 17, 2012.
