

**DEPARTMENT OF STATE****[Public Notice 7814]****Shipping Coordinating Committee; Notice of Committee Meeting**

The Shipping Coordinating Committee (SHC) will conduct an open meeting at 9:30 a.m. on Wednesday, April 25, 2012, in Room 2501 of the United States Coast Guard Headquarters Building, 2100 Second Street SW., Washington, DC 20593-7126. The primary purpose of the meeting is to prepare for the 90th Session of the International Maritime Organization's (IMO) Marine Safety Committee to be held at the IMO Headquarters, London, England, United Kingdom, May 16-25, 2012.

The primary matters to be considered include:

- Consideration and adoption of amendments to mandatory instruments;
- Measures to enhance maritime security;
- Goal-based new ship construction standards;
- LRIT-related matters;
- Flag State implementation;
- Radiocommunications and search and rescue;
- Ship design and equipment;
- Safety of navigation;
- Fire protection;
- Dangerous goods, solid cargoes and containers;
- Stability, load lines and fishing vessel safety;
- Bulk liquids and gases;
- Implementation of the STCW Convention;
- Technical assistance sub-programme in maritime safety and security;
- Capacity-building for the implementation of new measures;
- Role of the human element;
- Formal safety assessment;
- Piracy and armed robbery against ships;
- General cargo ship safety;
- Implementation of instruments and related matters;
- Relations with other organizations;
- Application of the Committee's Guidelines;
- Passenger ship safety.

Members of the public may attend this meeting up to the seating capacity of the room. To facilitate the building security process, and to request reasonable accommodation, those who plan to attend should contact the meeting coordinator, LCDR Matthew Frazee, by email at [imo@uscg.mil](mailto:imo@uscg.mil), by phone at (202) 372-1376, or in writing at Commandant (CG-52), U.S. Coast Guard, 2100 2nd Street SW., Stop 7126, Washington, DC 20593-7126 not later than April 18, 2012, 7 days prior to the meeting. Requests made after April 18, 2012 might not be able to be accommodated. Please note that due to security considerations, two valid, government issued photo identifications

must be presented to gain entrance to the Headquarters building. The Headquarters building is accessible by taxi and privately owned conveyance (public transportation is not generally available). However, parking in the vicinity of the building is extremely limited. Additional information regarding this and other IMO SHC public meetings may be found at: [www.uscg.mil/imo](http://www.uscg.mil/imo).

Dated: March 29, 2012.

**Brian Robinson,**

*Executive Secretary, Shipping Coordinating Committee, Department of State.*

**DEPARTMENT OF TRANSPORTATION****Office of the Secretary****Aviation Proceedings, Agreements Filed the Week Ending March 10, 2011**

The following Agreements were filed with the Department of Transportation under the Sections 412 and 414 of the Federal Aviation Act, as amended (49 U.S.C. 1382 and 1384) and procedures governing proceedings to enforce these provisions. Answers may be filed within 21 days after the filing of the application.

*Docket Number:* DOT-OST-2012-0035.

*Date Filed:* March 7, 2012.

*Parties:* Members of the International Air Transport Association.

*Subject:* Mail Vote 702—Resolution 100 Standard Condition Resolution for Special Fares (Memo 1665) Intended effective date: 1 April 2012.

**Renee V. Wright,**

*Program Manager, Docket Operations, Federal Register Liaison.*

**DEPARTMENT OF TRANSPORTATION****Federal Aviation Administration****Office of Commercial Space Transportation; Notice of Intent To Prepare an Environmental Impact Statement (EIS), Open a Public Scoping Period, and Conduct a Public Scoping Meeting**

**AGENCY:** The Federal Aviation Administration (FAA) is the lead Federal agency.

**ACTION:** Notice of Intent to Prepare an EIS, Open a Public Scoping Period, and Conduct a Public Scoping Meeting.

**SUMMARY:** This Notice provides information to Federal, State, and local agencies, Native American tribes, and other interested persons regarding the FAA's intent to prepare an EIS for Space Exploration Technologies' (SpaceX's) proposal to launch the Falcon 9 and Falcon Heavy orbital vertical launch vehicles from a private site located in Cameron County, Texas. Under the Proposed Action, SpaceX proposes to construct a vertical launch area and a control center area to support up to 12 commercial launches per year. The vehicles to be launched include the Falcon 9, Falcon Heavy (up to two per year), and a variety of smaller reusable suborbital launch vehicles. SpaceX would be required to apply for the appropriate launch licenses and/or experimental permits to be issued by the FAA. The FAA will prepare the EIS in accordance with the National Environmental Policy Act of 1969 (NEPA; 42 United States Code [U.S.C.] 4321 et seq.), the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA (40 Code of Federal Regulations [CFR] parts 1500-1508), and FAA Order 1050.1E, Change 1, *Environmental Impacts: Policies and Procedures*, as part of its licensing and permitting process.

**DATES:** The FAA invites interested agencies, organizations, Native American tribes, and members of the public to submit comments or suggestions to assist in identifying significant environmental issues and in determining the appropriate scope of the EIS. The public scoping period starts with the publication of this notice in the **Federal Register**. To ensure sufficient time to consider issues identified during the public scoping period, comments should be submitted to Ms. Stacey M. Zee, FAA Environmental Protection Specialist, by one of the methods listed below no later than May 30, 2012. All comments will receive the same attention and consideration in the preparation of the EIS.

**ADDRESSES:** Comments, statements, or questions concerning scoping issues or the EIS process should be mailed to: Ms. Stacey M. Zee, FAA Environmental Protection Specialist, SpaceX EIS c/o Cardno TEC Inc., 275 West Street, Suite 110, Annapolis, MD 21409. Comments can also be sent by email to [faaspacexeis@cardnotec.com](mailto:faaspacexeis@cardnotec.com) or by fax to (410) 990-0455.

**SUPPLEMENTARY INFORMATION:****Background**

The FAA is preparing an EIS to analyze the potential environmental

impacts of SpaceX's proposal to launch orbital and suborbital launch vehicles from a private site in Cameron County in southern Texas. The EIS will consider the potential environmental impacts of the Proposed Action and reasonable alternatives, including the No Action Alternative. The successful completion of the environmental review process does not guarantee that the FAA would issue launch licenses and/or experimental permits to SpaceX. The project must also meet all FAA safety, risk, and indemnification requirements.

### Proposed Action

The Proposed Action is for the FAA to issue launch licenses and/or experimental permits to SpaceX that would allow SpaceX to launch the Falcon 9 and Falcon Heavy orbital vertical launch vehicles and a variety of reusable suborbital launch vehicles from a launch site on privately-owned property in Cameron County, Texas. The Falcon 9 orbital vertical launch vehicle is a medium-lift class launch vehicle with a gross lift-off weight of approximately 1,000,000 pounds (lbs) with a maximum length of 230 feet (ft). The Falcon 9 uses liquid oxygen (LOX) and highly refined kerosene, also known as rocket propellant-1 or refined petroleum-1 (RP-1), as propellants to carry payloads into orbit. The Falcon Heavy is similar to the Falcon 9, except it has an additional two boosters "strapped on," each booster being almost identical to the Falcon 9 first stage core. The Falcon Heavy is a heavy lift class launch vehicle with a gross lift-off weight of approximately 3,400,000 lbs. It has an overall maximum length of approximately 230 ft.

A reusable suborbital launch vehicle could consist of a Falcon 9 Stage 1 tank with a maximum propellant (RP-1 and LOX) load of approximately 6,900 gallons.

As part of the Proposed Action, SpaceX proposes to construct a vertical launch area and a control center area. The proposed vertical launch area site is currently undeveloped and is located directly adjacent to the eastern terminus of Texas State Highway 4 (Boca Chica Boulevard) and approximately 3 miles north of the Mexican border on the Gulf Coast. It is located approximately 5 miles south of Port Isabel and South Padre Island. At the vertical launch area, the new facilities required would include: an integration- and processing-hangar, a launch pad and stand with its associated flame duct, propellant storage and handling areas, a workshop and office area, and a warehouse for parts storage.

The control center area would be located inland to the west of the vertical launch area and would include: A control center building and a payload processing facility; it might also include a launch vehicle preparation hangar and satellite fuels storage. All facilities would be constructed on private land owned or leased by SpaceX. The development of access and supporting utility infrastructure for the vertical launch area and the control center area may occur on lands outside that which is owned or leased by SpaceX.

Operations would consist of up to 12 launches per year with a maximum of two Falcon Heavy launches. All Falcon 9 and Falcon Heavy launches would be expected to have commercial payloads, including satellites or experimental payloads. In addition to standard payloads, the Falcon 9 and Falcon Heavy may also carry a capsule, such as the SpaceX Dragon capsule. All launch trajectories would be to the east over the Gulf of Mexico.

The potential environmental impacts of all proposed construction activities will be analyzed in the EIS, in addition to the impacts from operating the facilities and launching orbital and suborbital launch vehicles. The EIS will evaluate the potential environmental effects associated with: air quality; noise and compatible land use; land use, including Section 4(f) properties and Farmlands; coastal resources; biological resources, including threatened and endangered species; water resources, including surface waters and wetlands, groundwater, floodplains, and water quality; historical, architectural, archaeological, and cultural resources; light emissions and visual resources; hazardous materials, pollution prevention, and solid waste; infrastructure and utilities; and socioeconomic, environmental justice, and children's environmental health and safety. The analysis will include an evaluation of the potential direct and indirect impacts, and will account for cumulative impacts from other relevant activities in the area of Cameron County, Texas.

### Alternatives

Alternatives under consideration include the Proposed Action and the No Action Alternative. Under the No Action Alternative, the FAA would not issue a license or experimental permit to SpaceX. Based on comments received during the scoping period, the FAA may propose additional alternatives.

### Scoping Meetings

A public scoping meeting will be held to solicit input from the public on

potential issues that may need to be evaluated in the EIS. The scoping meeting will be held on May 15, 2012 from 5 p.m. to 8 p.m., at the International Technology, Education and Commerce Center (ITEC Center), located at 301 Mexico Blvd. G-1, Brownsville, Texas 78520. The meeting format will include an open-house workshop from 5 p.m. to 6 p.m. The FAA will provide an overview of the environmental process from 6 p.m. to 6:15 p.m. followed by a public comment period from 6:15 p.m. to 8 p.m.

Issued in Washington, DC on April 3, 2012.

**Glenn Rizner,**

*Deputy Manager, Space Transportation Development Division.*

## DEPARTMENT OF TRANSPORTATION

### Federal Railroad Administration

[Docket No. FRA-2012-0033]

### Notice of the Buy America Waiver Request for Vossloh 101-LV Concrete Ties

**AGENCY:** Federal Railroad Administration (FRA), United States Department of Transportation (DOT).

**ACTION:** Notice of Buy America waiver request and request for comment.

**SUMMARY:** FRA is issuing this notice to advise the public that the Burlington Northern Santa Fe Railway Co. ("BNSF") has submitted to FRA through or with the support of the Washington Department of Transportation ("WSDOT"), the Illinois Department of Transportation ("IDOT"), the Texas Department of Transportation ("TxDOT"), and the California Department of Transportation ("Caltrans") a waiver request from FRA's Buy America Act requirements for the purchase of Vossloh 101-LV concrete ties, which contain certain components not manufactured in the United States. In furtherance of four FRA High-Speed Intercity Passenger Rail ("HSIPR") grants, BNSF, as the railroad infrastructure owner, will construct certain rail project elements that consist of the installation of Vossloh 101-LV concrete ties. FRA has received this request from the four States for the following projects: (a) The Pacific Northwest Rail Corridor Program (b) the Amtrak Quad Cities to Chicago Service Initiation Project, (c) the Tower 55 At-Grade Improvement Project, and (d) the LA to Fullerton Triple Track—Segment 7 Project.
